LOCAL NEWSPAPER IS BEST MEDIUM

Atlantic City, June 7.—That the most effective medium of publicity is and will continue to be, advertisements in local newspapers, was asserted by P. H. Gadsden, vice-president of the United Gas Improvement Co., Philadelphia, Pa., in addressing a meeting of the Public Utilities Advertising Association, in connection with the world advertising convention of the Associated Advertising Clubs of the World.

"By advertisements I do not mean advertisements of gas ranges, electrical appliances, water heaters, and so forth," said Mr. Gadsden. "I refer to statements of the company's affairs, communications, by the medium of paid advertisements, to the public, and talks with the consumer. The usual plan is that a public utility company neglects to adopt such publicity methods, thinking it is saving money; then some crisis in the company's affairs arises, and immediately a frenzied resort is had to newspaper advertising in the futile effort to reach the public ear—in the vain hope that having neglected to cultivate the public all along, the people will listen sympathetically at such a late date to the company's case.

"This kind of publicity under such circumstances is of little benefit. It is almost a waste of money. Publicity to be really effective must be continuous, sustained, day in and day out. Acquiring the good will of the public is like establishing a man's character; it is not built up by spasmodic efforts, nor based upon exceptional acts. It springs from a habit of mind—from a continued policy of dealing frankly and honestly with the public served—replacing in the public mind any suspicion about the secrecy and mystery of the public utility business by frank, open statements of its affairs, published over the company's signature periodically in the public press."

FEELS LIKE A YOUNG MAN NOW

Mr. G. A. Whelpley is Now Hale and Hearty at Seventy-Three Years of Age, Thanks to Drecto.

Mr. G. A. Whelpley, well known to the theatre going public of St. John, N. B., as an employee of the Imperial Theatre, and who resides at 38 Sydney street, tells how Drecto relieved him of rheumatism and stomach trouble.

"I have been troubled with rheumatism for the past five years," says Mr. Whelpley, "and I could not get relief although I tried many medicines. I have only used three bottles of Drecto and I am no longer bothered with any more pain. In fact, I would not know I ever had it."

"Neither am I troubled with my stomach and I have no more pains in my kidneys, thanks again to Drecto. This splendid remedy has made me feel more like a young man than a man seventy-three years old. Drecto gets all my praise and I strongly recommend it."

Age offers no obstacle to the corrective properties of Drecto. If your symptoms are those that can be traced to the improper functioning of the organs of digestion, Drecto will help you as it has helped thousands. It contains no mercury, potash or habit forming drugs, being scientifically compounded from herbs, roots, bark and leaves of known medicinal value.

Drecto is being specially introduced in Woodstock by Newham & Slipp, and is sold by a good druggist everywhere.

Insurance against weather: wind cannot get under them, water cannot work through them, frost or heat cannot split or warp them.

Insurance against re-roofing: made of the finest rag stock, saturated with highest grade natural asphaltum (the paving material—permanent) and then deeply surfaced with slate. They're thicker and stronger and

last far longer. Can be laid over ordinary roof frame or your present roof.

Ample Power-for-Weight Gives Amazing Performance

EASILY the strong man handles the hundred-pound weight which the weaker man can scarcely lift. Just so the underpowered car falters where the full-powered Jewett performs with ease. For it is not power alone that determines performance. It is power for weight that counts.

The Paige-built Jewett has only 11½ pounds of weight for each cubic inch piston displacement. So Jewett will beat any car up any hill you choose; and accelerate 5 to 25 miles per hour in 7 seconds. These are Jewett's proofs of Jewett's abundant power for its weight. And it is a sturdy, 2805-pound car—not a "light six." Would you like to try a Jewett? Say so.
