New Lamp Burns P. C. Air

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant soft white light, even better than gas or electricity, has been tested by the U. S. government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean and safe. Burns 94% air and 6% common kerosene (coal oil).
The inventor, J. M. Johnson, 246 Craig street, W. Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.
