The simple, sure way to keep that schoolgirl complexion

Youthful complexions are becoming the rule—even in middle life and later years. For millions now follow a simple rule—a method you, too, may easily employ.

Do this at night

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin. Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny

pores. Rinse—and repeat the washing. Then rinse again. Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way
You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare

palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive. All dealers carry Palmolive Soap. Try it for just one week. See how it does improve your skin. Note well the name and wrapper. Palmolive is never sold unwrapped. Costs so little that you may enjoy it for the bath also.
