BATH

(Intended for last week)

There has been some confusion in the minds of patriotic people as to the date of our flag raising program, owing to the fact that Juniper has chosen May 25th for the same purpose, and we at Bath postponed our program from that date until June 3rd, so as not to clash with Juniper.

Therefore we would like to make it clear to the public, once more, that the dedication of our new Canadian flag, at the monument in memory of our glorious dead, will take place, rain or shine, at three o'clock, on Wednesday, June 3rd, when prominent speakers of Carleton county, and the councillors for the parishes of Kent and Wicklow, will take part in the program.

Mrs. Stanley McDonald is spending a few weeks with her mother at St. John.

Mrs. Silas Gee and Miss Mary Gee of Woodstock, visited friends here, recently.

The Tourist's Eternal Triangle

Someone has just published a book about Canada. It is only a little book—about eighty pages—but it contains an astonishing amount of information. It will tell you how many cities there are in Canada; how many people there are in those cities; how many bushels of wheat were grown in 1924 and how much money the government makes out of the business of governing. It will also tell you, incidentally, that Victoria, B.C. is one of the most beautiful cities of the world and that Vancouver has the second finest harbor there is anywhere.

That is the right sort of book to publish. There is nothing vague, nor indefinite nor yet inaccurate about the information it gives. It errs, if at all, in being a trifle too modest. Victoria, is indeed one of the most beautiful cities in the world, but that is not all one can say about it. It is the capital of British

Columbia and as such is the centre of the province's recreational, industrial, and social activities and that's saying a whole lot. Then there's Vancouver. Look at its bathing beach. No wonder the citizens have built the second finest harbor in the world when they have a great and beautiful slab of the Pacific Ocean to fling themselves and each other into to revive their weary bodies and minds whenever the business of operating their famous harbor becomes burdensome.

These two cities are linked with each other and with Seattle, to the south, by what is known as the Triangle Route of steamships of which the Princess Kathleen, of the Canadian Pacific Coastal service is a member. The Kathleen recently made her inaugural trip on this route and is now permanently in the service.

A WOMAN'S SUFFERING

Relieved by Lydia E. Pinkham's Vegetable Compound

Verdun, Montreal, Quebec.—"I am one of thousands who have taken Lydia E. Pinkham's Vegetable Compound and I have great faith in it. I can safely say it has relieved my troubles and I shall never be without a bottle of it in my house. Since my last baby was born I suffered from pains and backache and would feel so tired I could not do anything in my home. Since I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine I feel so different. I recommend it to all my friends and hope it will cure other women who are suffering from the troubles I had."—Mrs. THOS. H. GARDNER, 321 Evelyn Street, Verdun, Montreal, Quebec.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for the new mother. It is prepared from roots and herbs, contains no harmful drugs and can be taken by the nursing mother.

Its worth in restoring the mother to normal health and strength is told again and again in just such letters as Mrs. Gardner writes.

A recent canvass of women users of the Vegetable Compound shows that 98 out of every 100 women taking the medicine are benefited by it. They write and tell us so. Such evidence entitles us to call it a dependable medicine for women. It is for sale by druggists everywhere.

UNIFORMS FOR FIREMEN

Addressing the Town Council on Monday night, W. B. Manzer said that he and J. A. Rogers were a committee from Hose Co. No. 1 to appear before the Council and ask for a grant of \$200 to assist in purchasing uniforms. The Company had raised a considerable amount of money by a dance. The request was complied with.

The firemen had considered other means, such as a lottery but they found it was against the law. They considered a field day, but other parties had already announced field days at Connell Park. Woodstock intends sending a delegation of firemen to Charlottetown in July and it was necessary to order the uniforms at once. The request was complied with.
