Woodstock Buy-at-Home Campaign

COMMUNITY BUYING DIRECTORY AND BUSINESS GUIDE

The Merchants and Business men represented below are co-operating in an effort to prove to the residents of the town and surrounding community that values equal to any of the larger towns or cities may be procured in local stores. A series of educational "Buy-at-Home" editorials will be produced weekly. The benefit of Home Buying will be shown to the general advancement and progress of the community. Read the editorials, take advantage of the weekly specials offered by the merchants and BOOST THE TOWN YOU CALL HOME.

UNITY AND CO-OPERATION

A community is as big as the faith of the residents make it. This faith is evident in the unity which exists between merchant and buyer. If dissension invades the community and the people go to nearby cities to purchase their goods the growth of the town is retarded and it is ultimately relegated to the "has-been" class. When the merchant and the resident forget personal differences and unite their purposes for common trade, it is a certain sign that that community is listed among the "booming."

Your patronage spells your confidence in your merchants who are responsible for the leading position your town enjoys. If you give them your support, merchant and resident will unite for the good of this town, and the result will prove that the only true way to success is by united effort. Your dollars which you pay to your local grocer, butcher, clothier or milkman, will stay in Woodstock and will ultimately come back to you.
