WHOLE NO. 4248

WOODSTOCK, N. B., FRIDAY, NOVEMBER 21, 1930

84th YEAR NO. 47

HOSPITAL IMPROVEMENT URGENT, BOARD IS TOLD

Increased Accommodation And Equipment Required Is Report of Medical Staff

More Room is Needed and Obstetrical and Isolation Wards Should be Added; Institution is Overcrowded; Considerable Expenditure Would be Entailed

Additional recommendation and equipment at the Fisher Memorial Hospital are urgently needed, the medical staff reported to the hospital board at a conference Monday evening, and immediate steps should be taken to provide them, it was urged. Conditions at the hospital, it was reported, were unsatisfactory owing to overcrowding and some effort should be made at once to remedy this. The need for obstetrical and isolation wards was also urged.

The changes, it was admitted would entail a considerable expenditure, but the hope was expressed that the municipality would look upon the request favorably when the need for action was understood, as it was felt by the doctors that the requirements were really pressing.

MAINE MEN SAY CROP REPORTS ARE WILD GUESSES

GOVERNMENT POTATO ESTIMATES ARE CONDEMNED AS MISLEADING

Fort Fairfield, Me., Nov. 15.—The report of the United States potato crop issued monthly by the Department of Agriculture is not so favorably regarded by local potato men, as is evidenced by their statements below. "A backward step," "a wild guess," kind of expensive" and "poor judgment" are the expressions used to describe what is supposed to be a help to our farmers.

"It is my opinion that this government report is just another step backward in the program of farm relief," A. B. Wachlin said; "it will probably relieve the farmers of perhaps a dollar a barrel on their holdings. The guess of this report is a wild one and no good. You can't cover a million acres of potatoes with only enough men to cover a few thousand."

"Now for example," he continued, "last year the final report of the gov-

Mrs. Jones Now Out of Danger

The condition of Mrs. A. E. Jones, seriously burned a week ago in trying to put out a fire in her home, continues to improve. She is now regarded as out of danger unless looked for complications set in. On Wednesday she was allowed to see friends for the first time since her accident.

ASPHALT LAYING COMES TO AN END

8,000 GALLONS OF ASPHALT EMULSION ARE SPREAD; GRAVEL COATING GIVEN

The most extensive step taken by the town of Woodstock this year toward combatting the dust nuisance came to an end Wednesday morning when the finishing touches were put to the paving operations started several weeks ago. The paving is of a semi-permanent nature, consisting of a liquid asphalt preparation, spread over a bed of small gravel. 8,000 gallons of this preparation have been poured and the crews finished the job with a fine coating of gravel. So far it is believed that the job is a satisfactory one and that the new material is a success. However, final judgment is being withheld until it can be learned how the surface will stand frost action.

The paving work was begun at the Broadway bridge, extending up the Broadway hill to a point just beyond its crest. At the intersection with low-

Woodstock Board of Trade Discusses Tourist Route

BOILING FAT IS CAUSE OF SMALL RESTAURANT FIRE

Dense smoke issuing from the Blue Bird restaurant about 9.30 Tuesday evening gave rise to fears that a serious fire in the business section was in progress. The smoke was caused by a pan of fat in the kitchen of the restaurant boiling over and catching fire. An alarm was turned in and the firemen laid a line of hose into the building but did not have to turn the water on. Damage was confined to that done by the smoke.

SEVERAL ROADS ARE INSPECTED

MAINE EXPERTS SAY SOME SECTIONS READY FOR SURFACING

John B. Church, Maine highway expert, was in Woodstock on Wednesday, on an inspection of New Brunswick roads to determine whether a bituminous coating would be feasible for them. Mr. Church in company with New Brunswick officials first went over the St. Stephen-St. John road, then came up the St. John river through Fredericton to Woodstock, leaving Thursday evening for Houlton.

He expressed the opinion that most of the roads over which he travelled were not ready for bituminous coating, except that this treatment would not be suitable for the Broad road between Fredericton and Saint John.

The bituminous coating is not a permanent surface, but is a tar treatment, said to be similar to that given the square at the lower end of Maine street last summer. It costs about \$1000 a mile to put down and requires about \$850 a mile for upkeep each year. Tar is first poured and this is covered with fine gravel. Two applications are necessary the first year.

BOY IS IMPROVING

MUNIC LAD IS SHOT THROUGH THIGH

The condition of Walter Fitcher, of Muncie, in the Fisher Memorial Hospital with a shattered thigh, is improving and it is believed that he will not lose his leg, although it is feared the injured limb will be shorter than the other. The boy, with his brother Perry, was crossing the Saint John river on a raft near River de Chute. The lads had a light on the raft and were looking for salmon, they told the provincial police later. Two shots were fired, one striking Walter and the other splashing water on the raft. The boys managed to get the raft ashore and the injured one

HOULTON MEN ARE SERIOUSLY HURT WHEN CARS COLLIDE AT RICHMOND

Lee Irvin and James Nason, both belonging to Houlton, were taken to the Houlton Hospital Tuesday night after their cars collided at Richmond Corner, about five miles from Woodstock. The drivers were trying to avoid a team when the cars crashed, both machines being badly damaged. The engine of the Nason car was driven back into the front seat. Nason suffered a broken kneecap and several fractured ribs, while Irvin was badly bruised and cut by flying glass and also suffered a broken leg. Amy Robinson, a young woman who was with Nason was also cut and bruised, and it is feared her hip is broken.

MARKETING BOARD FOR POTATOES IS REQUESTED BY SHIPPERS OF N. B.

GOVERNMENT ACTION ASKED TO FIND NEW MARKETS AND STABILIZE PRICE

Fredericton, Nov. 16.—A request for creation and Maintenance by the Provincial Government of a marketing board for potatoes, to find new markets, stabilize buying and selling prices and generally to promote the interests of the industry was among several suggestions advanced yesterday by a delegation of the potato trade of the St. John valley, who waited on Hon. Lewis Smith, Minister of Agriculture. It was suggested that this board consist of a permanent secretary and representatives of the Government, shippers and growers.

Other requests calculated to aid the business, presented by Mayor H. Hatfield, of Hartland, president of the Associated Potato Shippers of N. B., and J. E. Porter, of Andover, secretary, officials of the organization representing the trade called for assumption of the Provincial Government of the cost of preparing the proposed freight rate case, as it affects New Brunswick potatoes, and the petitioning of the Federal Government by the Provincial Government for legislation similar to the Bore Act in the United States, providing for licensing of shippers, brokers and receivers of potatoes.

OTHER MATTERS
It was also suggested that the Government request the Dominion to obtain and publish daily market information; that the Government of the province should appoint a representative of the Associated Shippers to the Transportation Commission of the Maritime Board of Trade, and make a grant for the annual overhead expenses of the Associated Shippers.

As an evidence of good faith, the shippers present pledged themselves to abide by prices named by the proposed marketing board.

It was agreed on the part of the delegation and Hon. Mr. Smith that a delegation representing the potato trade of the province as a whole should wait upon Premier Baxter and other members of the Government

MISS CURRIE AND WM. CHANDLER WED

WEDDING OF MUCH INTEREST IS SOLEMNIZED AT RICHMOND CORNER

A wedding of much interest was solemnized Tuesday afternoon at 5.30 at St. John's Anglican Church, Richmond, when Miss Mildred Kathleen, daughter of Mr. and Mrs. John Currie, of Richmond was married to William Saunders Chandler, son of Mr. and Mrs. H. A. Chandler of Woodstock. The ceremony was performed by Rev. H. H. Hoyt.

The bride entered the church on the arm of her father by whom she was given away. She wore a wedding gown of white satin with veil and orange blossoms. The bridesmaids were Miss Vera Flewelling of Easton, Me., and Miss Margaret Armstrong, of Lakeville, N. B., and Miss Mary Currie wore maid flat crepe, Miss Armstrong orchid flat crepe and Miss Flewelling peach crepe.

The groom was supported by his brother, Gordon Chandler. Ross Currie and William Chandler were ushers. After the ceremony a reception was held at the home of the bride's parents, following which Mr. and Mrs. Chandler left on an automobile trip to points in the province. They will reside in Woodstock.

Mrs. R. M. McCloskey and Mrs. Fred Carter entertained at a dinner bridge Thursday evening at Mrs. R. M. McCloskey's residence Broadway. The guests were: Mrs. I. H. Hood, Mrs. G. C. Noble, Miss M. Thorne, Mrs. B. Watson, Mrs. H. J. Speer, Mrs. Don Hay, Mrs. C. T. Black, Mrs. W. Hayden, Miss Thelma Smith, Mrs. Cecil Stewart, Miss B. E. Fields, Miss B. Dalling, Miss Mary Fowler, Mrs. Fred McKinley, Mrs. Fred Grant, Mrs. Doug McLean, Mrs. Arch McLean, Mrs. H. Bhever, Miss Mary MacGibbon, Miss Marguerite McLauchlan, Miss Morna Guthrie, Mrs. Walter Hayden, Mrs. H. Denning, Miss Evelyn King. Prizes were won by Mrs. Arch McLean, Beatrice Fields, Mrs. D. McLean. They were assisted in serving, by Mrs. J. L. Stone and Miss Marie Stone.

MOTION OF APPROVAL IS PASSED

Meeting Endorses Premier's Statement that Valley will Not be Slighted

RAILWAY SERVICE IS ALSO DISCUSSED

Accommodation Train will Continue on Same Schedule as in Summer

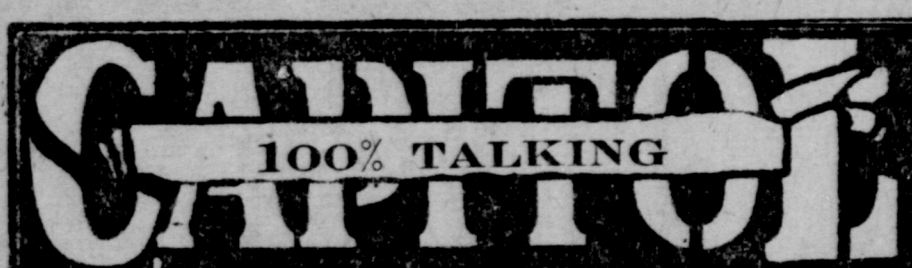

Prompt action by the Board of Trade followed reports published in press dispatches from Bangor that representatives of the New Brunswick and Maine governments had approved a down east tourist route which did not include the Saint John river valley. The Board was immediately summoned to a meeting but after the notices of meeting were sent out the New Brunswick Government's publicity bureau sent out word denying that any route had been approved, or that any route which did not include the valley would be approved. Accordingly when the board met resolutions approving the statement denying that a New Brunswick Tourist route had been endorsed which did not include the Saint John Valley, and complimenting the Canadian Pacific Railway on improved service in this division were passed. G. B. True, president of the Board, said that the meeting had been called as a result of the publication of news dispatches above referred to.

Since the meeting had been called, he explained, a statement had been received from the publicity bureau of the provincial government saying that no route had been approved, and that the meeting in Bangor was only for the purpose of discussing plans for closer co-operation. He considered that this statement must be accepted as correct, even though subsequent dispatches from Bangor had stuck to the original story.

After some discussion, on motion of W. J. Dibblee the resolutions committee was instructed to draw up a resolution approving of the statement issued by the premier that no tourist route which did not include Fredericton and the river valley would be sanctioned by the government. A copy was directed forwarded to the publicity department.

W. C. Guthrie, superintendent of the Woodstock Division of the C. P. R., spoke regarding the accommodation freight and passenger service between Aroostook and Woodstock. It was he said proposed to keep the same schedule as followed during the summer in force throughout the winter months.
