

PROSPECTS FOR RAISING OF EMBARGO ON POTATOES ARE BRIGHTER

New Proposal For Proving No Danger From Beetles Made to British Experts

PLAN IS FORMED TO DEMONSTRATE THAT POTATO BUGS WILL NOT FOLLOW THE CROPS; MACHINERY FOR CLEANING TUBERS WILL BE SHOWN IN ACTION

Hopes for the raising of the British embargo on Canadian potatoes are much brighter, according to advice from Ottawa. Potato growers and shippers in this part of New Brunswick have had their hopes raised and dashed too many times in the last year or two to bank unfully on the negotiations now going on, but the opinion is being expressed in circles which ought to be well informed that prospects are better than formerly. The British embargo on Canadian potatoes has been based on the fact that Canadian potato fields contain the Colorado beetle or potato bug. The embargo has been maintained in spite of the claim of Canadian entomologists that the beetle will not follow the crop. A new proposal has been made to the British government with a view to demonstrating this fact conclusively.

The Canadian government has offered to pay the expenses of two British experts to this country to look the situation over for themselves. It is proposed to show them that the beetles burrow into the ground after the tops die, and that they do not follow the potatoes even into storage. It is also proposed to mix the bugs in with potatoes which have been gathered and demonstrate that the cleaning process to which the tubers will be subjected will clear the beetles off.

It is confidently believed by Canadian experts that their claims can be proved, and it is considered that once their objections have been met that the British authorities will have no further reason to keep the embargo in force.

Meantime there is no indication of any immediate market to which New Brunswick potatoes can be shipped at a reasonable price. Early local stock continues to fill the demand in the (Continued on Page Eight)

HARVESTING BEGINS

CUTTING EXPECTED TO BE GENERAL SOON

Fine warm weather during the last few days has advanced the growing season along the Saint John river valley. Hay is now pretty well completed and cutting of grain has begun. Many fields have already been harvested, and it is expected that cutting will become general next week.

In most localities early potatoes are now ready for digging, although lack of market has held up activity. Some evidences of late blight are to be seen in the fields, but it is not thought that the damage will be serious.

Automobile Licence Fees Are Cut Again

Another cut has been made in the price of automobile licenses by the provincial government. On Aug. 15 the license fees were reduced to fifty per cent of their original cost, plus registration fees. The reduction followed a previous cut of twenty per cent made several weeks ago.

FALL ENROLMENT IN HIGH SCHOOL LARGEST ON RECORD

WOODSTOCK SCHOOLS WILL RE-OPEN ON TUESDAY, SEPTEMBER 6

The enrolment at the Woodstock High School this fall is expected to be the largest in its history. F. L. Atherton, chairman of the Board of School Trustees, announced after the board had conferred with F. E. MacDiarmid, principal of the school. According to present indications there will be about 40 in the graduating class, Grade II, 60 or 62 in Grade 10, while Grade 9 will be far above the usual numbers with 87. Attendance at the school has shown a steady increase during the last few years, and (Continued on page eight.)

Opening of Woodstock Fair Less Than Fortnight Away

TRIBUTE IS PAID TO MEMORY OF FORMER JUDGE

Judge J. L. Carleton addressed the Woodstock Rotary Club at their weekly luncheon at the Carleton hotel Wednesday. Judge Carleton spoke in reminiscent vein of bygone days in the political and legal history of the province, giving several interesting anecdotes of past decades. During his address he paid a tribute to the memory of the late Hon. H. A. McKeown, former chief justice of the King's Bench Division and Chairman of the Board of Railway Commissioners. C. M. Augherton presided.

JOHNSON DEFEATS SOUCY ON POINTS IN 8 ROUND BOUT

LOCAL BOXER COMES BACK STRONG AFTER LOSING EARLY ROUNDS

Reuben Johnson, local colored boxer, won back the prestige he lost several weeks ago when O'Neill Soucy, of Edmundston, knocked him out in four rounds, by defeating Soucy decisively in an eight round bout at the Vogue Theatre last evening. Decidedly outpointed in the earlier part of the bout Johnson fought back savagely and in the closing rounds had all the better of the going.

The Edmundston boy boxed cleverly all the way. He never let the colored flash get set for his famous bone-crusher, and Johnson landed only three effective right hand blows during the first six rounds. The three final sessions told a different story, however, the winner landing repeatedly and effectively with both hands.

Soucy earned a shade in the first round with the second about even. The third was Soucy's by a wide margin and at the bell he had his opponent in trouble after a succession of right uppercuts. The fourth was fairly even. Johnson started out well in the fifth but was outboxed in the final part of the session. Soucy again earned a shade. Johnson awakened up in the latter part of the sixth. He got in several effective left jabs, and toward the finish shot in his right heavily. (Continued on page four.)

CRIPPLED INDIAN RISES TO WALK AT SKIFF LAKE SHRINE

THOUSANDS OF PILGRIMS MAKE ANNUAL VISIT TO HISTORIC SPOT

Elsewhere in this issue appears an interesting account of the pilgrimage to the Skiff Lake Shrine last Sunday. Following is an account of the pilgrimage written for the Sentinel by a correspondent. (Continued on page four.)

Will Bears Kill Sheep? Yes, Say Local Experts But Only in Rare Instances

The destruction of a sheep belonging to Fred Hayward, of Tapley's Mill has revived the old controversy as to whether bears are killers, particularly of sheep. Consensus of opinion among local experts is that bears will kill sheep or other animals in rare instances, but that such cases are the exception rather than the rule. P. S. Marsten, secretary-treasurer of the Carleton County Branch of the New Brunswick Fish and Game Protective Association, voiced the opinion (Continued on page eight)

CARLETON LIGHT INFANTRY WILL HAVE 10 DAYS TRAINING NEXT MONTH

The Carleton Light Infantry will begin ten days of fall training about the middle of September it has been announced. Instructions to prepare for the fall work immediately have been received from Lt. Col. H. G. Wood, M. C., of Saint John, commanding officer of the regiment, by Major W. B. Manzer, second in command, who is now looking after the preliminary arrangements. As far as is now known about 125 all ranks will take part in the training, several more than took the work last winter.

The training will be carried out with the Woodstock armories as a base, and it is expected that it will last for ten consecutive days instead of twice that many night sessions spread over a period of several weeks as formerly.

CAN'T RETURN TO UNITED STATES, CAN'T REMAIN IN CANADA! IT'S A TOUGH OLD WORLD SAYS LOUIS BERNARDO

PORTUGUESE BORN RESIDENT OF LUDLOW, MASS., FINDS IMMIGRATION REGULATIONS A HARD PROBLEM TO FIGURE OUT; DO YOU WONDER HE'S WORRIED

Probably the most puzzled man in New Brunswick today is Louis Bernardo, of nowhere in particular. Up to a fortnight ago Bernardo was a reputable citizen of Ludlow, Mass. Today United States immigration officials won't let him back into the U. S. and the Canadian immigration officials won't let him stay in Canada. So what is the poor man going to do? We can't tell you, and neither can Louis. Bernardo, a Portuguese by birth, came to the United States 22 years ago and has resided there ever since.

Bernardo with his wife and two companions left home about two weeks ago for a trip to Moncton. Bernardo brought with a passport receipt and a certificate from the town clerk of Ludlow that he was a citizen (Continued on Page Eight)

TOO MUCH NOISE

POLICE ASK FOR QUIET AT BAND CONCERTS

Several complaints have been received by the police concerning noise at band concerts especially that made by children. The noise at the concerts during the last few weeks has amounted to a real nuisance, sufficient to bother the band and to interfere with the enjoyment of those who go to listen to the music. The police, naturally, do not want to take any action if they can avoid it, especially as most of the offenders are children. They ask, however that adults who (Continued on Page Eight)

ISLAND PARK BEGINNING TO SHOW ACTIVITY

KEEN COMPETITION ASSURED IN TWO DAYS HARNESS RACING MEET

As the time approaches for the opening of the annual Woodstock exhibition, the fair grounds at the Island Park have already begun to show signs of the activity which will grow greater during the coming week and culminate in the three big days and nights of the big fall carnival, Aug. 30 and 31 and Sept. 1. With the opening day now less than a fortnight away committees are putting the closing touches to their plans, and merchants and other exhibitors are busy getting their wares ready for display.

The exhibition will open on Tuesday Sept. 1 at noon. The formal opening will be held in the evening when it is expected that speakers of note will be present, as was the case in other years. Wednesday will be a big day, as it has been set apart for children's day, when children of school age from New Brunswick and Maine will be admitted without charge to the grounds and grandstand. Horse racing will begin on Wednesday and will continue the following day. As this will be the first meet of importance in this section of the country in many weeks, it is expected that large crowds will be attracted. Entries of horses received to date leave no doubt that the various classes will be hotly contested.

Several of the fast stappers are working out daily at the track, and their work is attracting much attention. Some of the fast young horses now in training are expected to make the experts sit up and take notice when they breeze down the stretch. Judging will begin on Wednesday morning and will be completed on Thursday.

Complete details of program, etc., will be published in the special exhibition section of The Carleton Sentinel on Friday, Sept. 26.

WINDSOR CHILD IS BURNED TO DEATH

LITTLE GERALDINE GLASS DIES IN BARN FIRE AT HER HOME

Hartland Aug. 17.—Tragedy stalked at Windsor, Carleton county, this morning, when Geraldine, seven-year-old daughter of Mr. and Mrs. Robert J. Glass, lost her life in a fire which destroyed the barn on the property of Coles Page.

Flames were seen coming through the roof of the barn about 8.30 o'clock and neighbors quickly gathered to fight the blaze. Mrs. Glass had released pigs and calves from their pens and on looking for the children discovered that Geraldine, one of twin girls, and deaf and dumb, was missing. Thinking the child was at the home of one of the neighbors, the other children were sent in search of her but she could not be found.

The barn by this time was a mass of flames and, being filled with hay, burned rapidly. When the flames died down, the bones of the little girl were seen in the midst of the ruins. It is thought the child set the fire while playing with matches, and being frightened, hid until it was too late to get out of the building.

A large quantity of machinery and hay were lost. The damage is partly covered by insurance.

HAS FINE ROUND

PHIL MARSTEN MAKES NICE 73 FOR 18 HOLES

What is probably the best round played on the local golf course this year was made by Phil Marsten on Wednesday. Playing with George Mitchell in the Mair Handicap competition Mr. Marsten played the first nine holes in 36 and the second nine in 37. He played the holes with clocklike regularity and was seldom in difficulties.

Local golf enthusiasts are trying to persuade Mr. Marsten to play the Maritime tournament at Riverside next week, as it is felt that his chances of annexing the Maritime title would be excellent.

TWO GO TO JAIL

KILLING OF MOOSE BRINGS SERIOUS RESULTS

M. Smith and Ernest Brooks were arrested on Monday by Warden Marsten and Bradbury at Southampton, the former charged with killing a moose out of season and the latter with being in possession of the meat. They were taken to Fredericton and (Continued on Page Eight)
