

OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver Bile
—Without Calomel

Your liver is a very small organ, but it certainly can put your digestive and eliminative organs out of order by refusing to pour out its daily two pounds of liquid bile into your bowels. You won't completely correct such a condition by taking salts, oil, mineral water, laxative candy or chewing gum, or roughage. When they've moved your bowels they're through—and you need a liver stimulant.

Carter's Little Liver Pills will soon bring back the sunshine into your life. They're purely vegetable. Safe. Sure. Ask for them by name. Refuse substitutes. 25c at all druggists.

HUNTERS WARNED

Fredericton, N. B. October 1—Hon. L. P. D. Tilley, K. C., Minister of Lands and Mines for the Province of New Brunswick, in a statement issued today, warns all hunters entering the forests to exercise the greatest of care in the use of firearms.

The Minister draws attention to the section of "The Game Act" which deals particularly with shooting accidents and which provides that when-ever the Minister is satisfied either upon a report from any Game Warden, or from the Royal Canadian Mounted Police, that any person, has either by discharging any firearm or causing any firearm to be discharged, caused injury to any other person whether negligently or otherwise, he shall not issue any hunter's license of any kind to such first mentioned person for a period of not less than two and more than five years.

The assistance and co-operation of all sportsmen in making the New Brunswick forests safe for all is confidently expected. The slogan appearing on all game licenses "Do not shoot until you are sure what you are aiming at", is a worthwhile precaution.

UPWARD IMPETUS IN BUSINESS HOPEFUL

New York, Oct. 5—Trade and industrial magazines editors, reporting from various parts of the country, find that "the upward impetus in business is still encouraging, but in less degree."

In summarizing the reports of 115 editorial observers, the Associated Business Papers, Inc., of New York, concludes that industrial "bright spots" are still the majority.

A hopeful sign is found in the continued increase of freight car loadings and in the fact that number of railroads are beginning to employ more maintenance men.

The sharp summer rise in textile sales has relaxed, but it was explained, manufacturers are maintaining a backlog of orders.

Heavy engineering construction is dominated by road contracts at some \$15,000,000 a week—more than double the weekly average for the year—the investigators disclosed. Building construction is holding to its slow August rate, but advance figures of September residential building indicate improvement.

Production of bituminous coal is on the upgrade. In the oil industry it was discovered that numerous plant improvements are now under way and there is a tendency to prevent crude oil prices from following the recent gasoline price dips.

Inquiries developed that machinery manufacturers have not yet felt much improvement but are hopeful of later results.

The editors learned that the hotel business in recent weeks showed further improvement, with indications that commercial travel is definitely increasing.

for COLDS
Head Colds, Heat Minard's and inhale it. Chest Colds and Sore Throat: Heat, then rub well into affected parts.
Real relief... quickly!

MINARD'S "KING OF PAIN" LINIMENT

USE MORE CANADIAN TOBACCO

The popularity of Canadian tobacco in the United Kingdom is steadily increasing, according to a statement from the Department of Trade and Commerce. During the eight months ending with August, 1932, a total of 9,950,568 pounds of Canadian tobacco valued at \$2,545,380 was exported to Great Britain as compared with a total of 4,917,128 pounds valued at \$1,429,892 for the corresponding period of 1931. The increase, both in quantity and value, is thus approximately 100 per cent. The figures, it may be stated, deal only with unmanufactured tobacco.

Bright flue cured appears to be the most popular variety for the British market, Burley coming second—Department of Agriculture, Ottawa.

SOME PULLET FIGURES

In this day of new values even the most carefully prepared reports on pro-

duction costs are of value only in so far as they serve as a general guide. However, there is special interest in a report submitted by the Superinten-

dent of the Dominion Experimental Station at Lennoxville, Que., on the they are transferred to their living cost of feeding laying pullets during quarters, until October 31 of the fol-

lowing year. Every travel writer encounters a host of incidents that he doesn't write up. They'd make his stuff too crosspatch.
