MEETINGS HELD

Debec. N. B.,—May 5—The Ladies' Aid met in McKenzie Corner United Church on Wednesday, May 2, and quilted. Plans were discussed for air ice-cream social, bills were presented and orders paid.

Meanwhile the men were busily rebuilding the horse sheds which suffered destruction during heavy snow.

On Thursday May 3, the W. M. S. of the U. C. C. met for the first time in 1934 at the church. Winter meetings having been held in Debec. We Welcomed our president after an absence caused by illness. Roll Call consisted of name and location of a missionary in China.

Pamphlets bearing on the work of the church in China, were read by various members.

The study session took on the nature of debate under the questioning of Mrs. J. R. Kirkpatrick.

A short talk and discussion on the Oxford Movement was led by the President. The Spiritual side of the mission work was emphasized by brief prayers and a very interesting form of securing a goodly portion of the allocation was shown by Mrs. Eurie Mills, and cordially adopted by all present.

Hymns, and the Mizpah blessing brought a very enlightening and heartening session to a close.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

DAIRY RE-TESTS

Fredericton, N. B., April 30.—Systematic re-test of milk and cream samples for butterfat will be made at all creameries operating in New Brunswick, according to announcement made by Hon. Lewis Smith, Minister of Agriculture. This re-test of milk and cream has been decided upon following numerous requests from the producers and manufacturers of dairy products within the province.

Hon. Mr. Smith also announced today that an educational system for the improvement of butter quality will be available to the creameries.

The purpose of making re-tests of milk and cream samples is to give the producer assurance that he is being paid on a true and proper basis and is also to the advantage of the creamery operator through the greater confidence thus secured. The system requires that the creameries hold daily, weekly, fornightly or monthly milk or cream samples after being tested for butterfat for a certain period to allow for a re-test by a disinterested party. The patron may demand payment on the basis of the re-test. The work will be carried out by the Dairy Division of the New Brunswick Department of Agriculture.

The Dominion and Provincial Departments of Agriculture are co-operating in carrying on a system of scoring of butter samples for the purpose of improving the quality of butter being manufactured, and is available to all creameries operating in the province. A suitable three pound package of butter is taken from each churning and forwarded to a central point where the samples are scored by a Dominion Dairy Produce Grader according to export standards. The results of the grading are then reported back to the creameries, showing the defects in quality and how they may be overcome. Tests are also made for moisture, salt and mould to check up on the efficiency of the manufacturing processes. This service has as its objective the manufacturing of creamery butter of high and uniform standard, suitable for the export trade.

It may seem strange that people continue to fall in love and to get married in ominous times like these; but falling in love is Mother Nature's favorite spring tonic and re juvenator for the soul with "that tired feeling".
