NEW METAL TUBES

NEW CENTROMATIC UNIT

Controlled Selectivity

YOU are hearing a lot about the revolutionary new metal tubes. But in the new 1936 Northern Electric Radio is an engineering feat of more far-reaching benefits to you than metal tubes alone! It is the new CentrOmatic Unit — a separate visible unit, entirely isolated from the rest of the chassis, on which all the sensitive radio elements are centralized. Automatically you are guaranteed all these definite benefits:

1. *More stations yours to enjoy.*
2. *Greater freedom from noise both between stations and on the station.*
3. *Easier tuning—even on short wave.*
4. *Higher tone fidelity on all wavebands.*
5. *The surpassing dependability that results from 90% less wiring and 104 fewer soldered connections.*

Buy no radio without metal tubes! Buy no radio without the CentrOmatic Unit! *Only Northern Electric Radio for 1936 has both!*

The Young People's Union on Monday evening was under the leadership of Miss Dorothy Young, who brought an inspiring message of the mission work of the church in Africa. For over a month the Union is concentrating on foreign missions.

On Sunday November the 24th in an effort to strengthen international friendship and understanding, an exchange of pulpits will be effected The Rev. Mr. Christopher of Houlton will speak at the morning service and also to the Brotherhood. The minister's evening address will be "The Difficulty of Forgiving."
