NOTICE OF SALE

To the heirs of James H. Williams, late of the Parish of Wicklow, in the County of Carleton and all others whom it may concern.

NOTICE is hereby given that under and by virtue of a certain indenture of mortgage made on the 21st day of September A. D. 1933 and registered in the Carleton County Records in Book 143, pages 336 and 337 as No. 76442 on September 21st A. D. 1933, between the said James H. Williams of the first part and The C. M. Sherwood Company Limited of Centreville, N. B., of the second part, there was sold for the purpose of satisfying the money secured by the said indenture of mortgage, default having been made in the terms of the payment thereof at public auction in front of the Law Office of D. R. Bishop, Main Street in the Town of Woodstock at one thirty o'clock, P. M., on the 29th day of September A. D. 1936, the lands and premises described as follows:

"All that certain piece and parcel of land and premises situated in said Parish of Wicklow and bounded as follows: Commencing at the north east angle of land owned by Eliza Tracey A. D. 1872 and running southerly along the main road leading from the Presque Isle stream toward G. Dougherty's nine rods, thence running a westerly course seven rods, thence running a northerly course six rods and thence an easterly course nine rods or until it strikes the aforesaid main road, being a part of a lot of land originally granted to Jarvis Tracey and containing one half acre, more or less and being land and premises deeded to Fleetwood Hartley by David W. Currier and his wife on the fourth day of October A. D. 1920 and registered on Pages 52 and 53 in Book 122 of the Carleton County records as number 65029 and being the land and premises deeded by Fleetwood Hartley and wife to Woodford E. Miller on the ninth day of May A. D. 1922 and registered in Book 125, pages 565 and 566 number 67107 being the land and premises deeded by Woodford E. Miller to James H. Williams on the twenty third day of April A. D. 1924 registered as number 68879 in book 129 pages 26 and 27.

Together with the buildings and improvements thereon and the privileges and appurtenances to the same belonging.

Dated this 26th day of August A. D. 1936.

CANADA ADVANCES IN FARM CLUB WORK

One of the most progressive and encouraging movements in Canadian agriculture is club organization for farm boys and girls. This work, which is directed by Dominion and Provincial Departments of the Agricultural Colleges is consolidated and co-ordinated through the agency of the Canadian Council on Boys' and Girls' Club Work. The movement is national in its scope and outlook.

Club work for farm boys and girls, which began in Canada about twenty five years ago, has been gradually developed and improved until it now occupies a prominent position in the Departments of Agriculture in all of the provinces. It is designed to develop interest in the farm and farm life; to provide a practical education in agriculture and home economics; to improve farm practices; to encourage the use of better live stock and seed, and to train young people for citizenship in their respective districts.

National, or inter-provincial club contests are conducted annually by the Canadian Council in conjunction with the Royal Winter Fair at Toronto. In 1935 six projects, including dairy cattle, beef cattle, swine, poultry, seed grain and seed potatoes, were included in the contest program, and sixty-four members or thirty-two teams of two members each, competed, representing every province in the Dominion.

Five of the annual National Contests have been conducted by the Council since it was formed in 1931. It has been clearly demonstrated that these contests have a very definite and beneficial influence on club activities. The necessary regulations for the contests have a bearing upon the basis of club organization and activity and the oral examinations, which form part of each project contest, encourage greater study of the project in hand by club members. Teams are selected for the contest at Toronto by means of provincial elimination contests conducted on the same general basis as the national event.

The present membership of the Council includes the Dominion Department of Agriculture, all of the provincial Departments of Agriculture, except that in Saskatchewan, the Extension Department of the University of Saskatchewan being the member representing that province, and several business institutions and associations, including the Canadian National Railway, Canadian Pacific Railway, Industrial and Development Council of Canadian Meat Packers, International Harvester Company of Canada, Limited, North-West Grain Dealers' Association, Canadian Jersey Cattle Club, Canadian Seed Growers' Association, Canadian Swine Breeders' Association, and the Holstein-Friesian Association of Canada. The central office of the Council is located in the Confederation Building, Ottawa, and the General Secretary is A. E. MacLaurin.

The administration of the Council is financed by grants from the Dominion and Provincial Departments of Agriculture, and the membership subscriptions of the business institutions and associations are applied to conducting the provincial club contests at Royal Winter Fair.

In 1935 there were 30,282 members enrolled in 1,900 active boys' and girls' clubs in Canada. The rate of progress in point of numbers enrolled is indicated by comparison with the figures for 1931, when there were 1,215 clubs with 21,142 members.

GIVE GOOD MEASURE IN BINDER TWINE

There has been little complaint as to the quality of binder twine sold in Canada in recent years. The law requires that each ball of binder twine sold, whether Canadian made or imported, bears a label showing the number of feet per pound in the ball. Three statements as to length, for example 500, 650, 800 or 950 feet to the pound, and checked by inspectors of the Seed Branch of the Dominion Department of Agriculture.

A certain tolerance is allowed under the Act in consideration of variations which naturally must occur. However, of the three hundred samples or more tested annually, more than half have shown a greater length to the pound than the label called for. In samples which did not meet the guarantee, the deficiencies in length per pound were considerable, and only in occasional cases did the deficiency exceed the limit allowed. Since 1930, the proportion of samples found to have shortages has not amounted to three per cent of the total number of samples tested, the proportion in 1935 being less than half of one per cent.

Your Eye

Your eye is a complex mechanism. When you reach the age of forty-five it loses some of its elasticity and you can no longer see both near and distant objects clearly.

Panoptik bifocal lenses give your eyes the help they need. They enable you to see near and distant objects clearly and distinctly.
