MUST BE STOPPED

In several places throughout Canada the threat of strikes continues to exist. This should not be, and it must not be allowed to go on. In peace time we would think nothing of it, unless to give a passing wish that the workmen would get a few more cents an hour or a little better living conditions.

Today the prosecution of our war effort depends on the continuity of supplies. Every man engaged in war production has a part to play. The man at a machine or a forge in Canada can lose a battle just as well as can a soldier in the field. The soldiers have a more difficult and dangerous job than any workman. Their living conditions are less and their pay smaller. If a soldier goes on strike they call it mutiny. They put him against a wall and shoot him, and rightly so.

The soldier has no arbitration board to adjust his grievances. The workman has. For the time being at least he has got to rely on the arbitration board and if he leaves his job he should be treated as a deserter, no matter what the consequences to the individual may be.

This thing we are in is bigger than any individual or any group. If individual interests are concerned they have got to give way. We can lose this war, and if we grow indifferent and careless we will lose it.

If so there will be no further question of strikes, or workmen's rights. The Gestapo will look after that for us.

"AND DIE USELESSLY"

(Victoria Times)

Along this coast there are too many men who believe all they have to do should an invader appear is to take any weapon at hand and go out to fight him. Such men, courageous as they be, put themselves at a disadvantage from the start. As civilians carrying weapons, they would under military custom be put to death at once should they fall into the enemy's hands. In addition to running this extra risk, they are denying their country the most effective use of their courage and determination to resist. Such effective use can be attained only by working as part of the organized defense forces. For most civilians now this means the Reserve Army. With the Japs hovering over the North Pacific the call of duty to every man is clear.

A BETTER TREATMENT FOR POLIO

Sister Kenny's Treatment for Infantile Paralysis has recently been installed in a Halifax hospital under the direction of doctors and nurses who have trained under Sister Kenny, in Minneapolis. Robert D. Potter, Science Editor of The American Weekly in the course of an article says:

In Minneapolis I talked with 15-year-old Bob Gurney who has recently been discharged from the Minneapolis General Hospital after 11 months of treatment under Sister Kenny.

Last August he was stricken with infantile paralysis and so paralyzed that he could only move his eyes. I asked Bob what the Kenny treatment was like and what he thought of Sister Kenny.

"She's the most wonderful woman in the world," he exclaimed.

"When I first got sick they put me in splints and braces. I couldn't move and they hurt. They finally took me to Sister Kenny. The first thing she did was to take off all the braces, and was the doctor mad. He had just spent a lot of time making the special for me.

"Boy, it did feel good to get those braces off.

"Then Sister Kenny put me on a bed that had boards under the mattress and she put me down in it so that my feet pressed against a footboard.

"Then she went all over my body, moving my arms and legs and seeing what muscles hurt and how much. Whenever it pained—and it pained a lot—they put those hot, moist packs on me. They felt swell and the pain began to go away.

"Then, every day except Sunday we got the spray bath. They took off all the packs and put us in a big shallow tub. The water was just about as hot as your body temperature. You just lay in this water for about 15 minutes.

"The nurse came along with a warm needle spray and then—bang, the spray would turn icy cold. It made you yell, and they gave you three shots of this ice water. And

then they put you back in the hot packs. Boy, that ice water sure turned you pink, Sister Kenny said that was to restore circulation."

"What else did they do, Bob?" I asked.

"Well, the packs and the bath are only part of the treatment. The big thing is that you have to learn to work your own muscles all over again, Sister Kenny does all this muscle training herself.... at least until a few months ago when she got some more helpers from Australia.

"Sister Kenny knows every muscle in the body, where it is, what it is and how it works. And she teaches us kids, too.

"Sister Kenny moves my foot, for example, and shows me how the muscles work that makes it go. Then she tells me to move it. Even if I can't move it she tells me to THINK I'm moving it. And pretty soon—by golly—you really can move it. With me it was my right thumb that wiggled first.

"We aren't cured, Sister Kenny says, until we can lie on our back, raise up our trunk and shoulders and head and bend them over until they touch our knees. I can't quite do that but I'm all right from the waist up, and I can stand and even walk a bit.

"But I keep on getting better and I go three times a week for treatments for my legs and for my left hand. Next Fall I am going back to high school."

HITLER PHONES FOR HELP

Old Hitler called the devil Upon the phone one day And the telephone girl listened To all he had to say.

"Hello" she heard Hitler's voice, "Is old Satan at home? Just tell him this is Hitler Who wants him on the phone."

"Hello," the Devil said to Hitler And Hitler answered "How are You?"

I'm raising here, a h—on earth, So just tell me what to do."

"What can I do?" the devil said My dear Old Hitler pal, If there is a thing I can do Then help I surely shall."

Old Hitler said, "Now listen, And I will try to tell The way that I am running On earth a modern h—."

My army went through Belgium, Shooting women and children down, We shot up all her country, and Blew up all her towns.

"I started out for Paris With the aid of poison gas, But the Belgians, darn 'em, stopped And would not let us pass.

"My submarines are devils You ought to see them fight, They go sneaking through the seas And sink a ship on sight.

"I was running things to suit me, Until a year or so ago, When Churchill, King and Roosevelt Wrote me to go slow.

"To them I did not listen, And they're coming after me, With a million Canadian soldiers, From their homes across the sea.

"That is why I called you, Satan, For I want advice from you, I knew that you would tell me Just what I ought to do."

"My dear old Adolf Hitler, There is not much for me to tell For the Canadians will make it hotter

Than I could tell you in h—."

I have been a mean old devil But not half as mean as you, And the minute you get down here I'll give the job to you.

"I'll be waiting for your coming, I'll keep the fires all bright, I'll have your room all ready When Canada begins to fight.

The boys from Canada will get you I've nothing more to tell— Hang up the phone, and get your hat

And meet me down in h—."
