THE OGILVIE FLOUR MILLS COMPANY

THE FERTILIZER SITUATION

(Maritime Provinces)

In times like these, when events are moving fast, it becomes impossible to forecast with any degree of accuracy, what might or might not be one month, or three months, or six months hence.

The present outlook for Fertilizer in the Maritime Provinces could be summarized under various headings:

First: SUPPLIES.

It is expected that sufficient Fertilizer materials to provide will be available to supply mixed Nitrogen, Phosphates and Potash fertilizers and chemicals up to the same tonnage as sold during the last season. Nitrate of Soda will not be so plentiful as in previous years, but other forms of nitrogen will make up the deficiency. Both ammonium nitrate and anhydrous ammonia have been made available for fertilizer manufacture. The facilities for making superphosphate have been increased in Canada. It is expected that by April, all the superphosphates required can be manufactured in Canada. As much Potash as used in previous years is being imported. The tonnage of high grade muriate, however, is somewhat less and the tonnage of potash manure salts greater.

Due to import subsidies and freight assistance in Canada being paid by the Dominion Government, the cost of fertilizer materials delivered to the manufacturers will be about the same as last year, wing to this and economies introduced by Administrators orders respecting manufacture and distribution the price of mixed fertilizers and materials to the farmers will likely be as low and perhaps lower than last year... this despite the fact that manufacturers and distributors costs have risen, water freight haul become impossible, and rail freight costs very materially increased.

Second: MIXTURE

In order to make the best possible use of the available supply of Fertilizer Materials to keep manufacturing costs down, and make fertilizers available to the farmers at the lowest possible cost, the following formulas have been approved:

0-14-7; 2-12-6; 4-12-6; 4-8-10; 9-5-7.

The above formulas provide a sufficiently wide range for the crops and soils.

Third: FERTILIZER SUBVEN-

TIONS.

In order to encourage the production of Feed Crops, subventions will be continued next year. The amount of subventions will be based in 30c per unit of Nitrogen; 15c per unit of Phosphoric Acid, and 15c per unit of Potash.

On this basis the Fertilizer Mixture eligible for subventions in the Maritimes and the amounts payable on each will be:

0-14-7, \$3.15 per ton.
2-12-6, \$3.50 per ton.
4-12-6, \$3.90 per ton.

Subventions are being paid only on such crops as are used for feed producing purposes, such as: Pastures, Clover, Alfalfa, and other hay crops; field corn, and crops to be used for ensilage and green feed: Wheat, Oats, Barley, Buckwheat and other grains; Mangels and Turnips. In other words, the crops used for feeding Livestock and Poultry. The object is to encourage the farmers to produce the essential food commodities, milk, butter, cheese, beef, eggs, poultry products, etc., so as to have a sufficient supply for Domestic Consumption and meet Canada's commitments for export to Britain.

Fourth: LABOR SITUATION

Another factor which enters into the Fertilizer picture and which should be emphasized, is the absolute necessity of taking delivery of the Fertilizers as soon as possible. The main reason for this is the acute shortage of labor and delayed transportation. By staggering the distribution throughout the winter months, it should be possible to deliver all the orders required in the Maritimes. Otherwise, if farmers delay their orders, chances are there will be a jam at distributing points, which may not be overcome before planting time. This happened last year to some extent, and the situation is very much worse this year.

So to all farmers who will require Fertilizers next Spring, I wish to emphasize again, "IF YOU WANT FERTILIZERS, DON'T WAIT UNTIL TOO LATE."

Note to Farmers: Information regarding Fertilizer Subventions to Farmers can be obtained by applying to "Dominion Fertilizer Subventions" 700 Main Street, Moncton, N. B.

—J. E. McIntyre, Secretary, Maritime Fertilizer Council.

Jacksonville

The B. Y. P. U. was largely attended Wednesday evening at the home of Mr. and Mrs. Samuel Keyes.

The W. M. S. of the United Church was held at the home of Mrs. Basil Harper on Thursday afternoon and was well attended.

The war workers met at the home of Mrs. Albert Burtt and Mrs. George Burtt. There were 11 ladies present. One quilt was finished and another begun.

The Women's Missionary society of the United Baptist Church was held at the home of Mrs. Arthur Burpee on Wednesday evening with a good attendance.

Mrs. Lewis Everett, Waterville was calling on her parents, Mr. and Mrs. W. E. Culbertson on Thursday.

Prayer Meeting was held at the home of Harvey London on Tuesday evening.

Mr. and Mrs. Ernest Culbertson and family attended the funeral of Mr. Edgar Carpenter of Hartland on Tuesday.

Mr. and Mrs. Arthur Burpee and family were tea guests Sunday night of Mr. and Mrs. Samuel Keyes.

Allison Fox who is employed with Roy Smith at Howard Brook has been home for a few days ill with a gripple. He is able to be out again.

Mrs. May Marshall spent Sunday with Miss Isabel Wiley.

Clinton Kelly of St. Thomas and Miss R. Connors were dinner guests of Mr. and Mrs. Elmer Burpee on Saturday.

Mrs. Jack Taylor and son Malcolm have moved to Woodstock for the winter.

Mrs. Ernest Fox was a tea guest of Mr. and Mrs. J. B. Vail on Tuesday evening.

Friends here are sorry to learn that Charles Palmer of Waterville had the misfortune to injure his eye so badly that he has been removed to the Saint John hospital for treatment.

Burtt, Mrs. A. Bell, Mrs. E. Peterson.

Mr. Berrie Estey attended the few weeks with her aunt, Mrs. Al-

HOLD HIGH THE TORCH OF FREEDOM

WAR-TIME DUTIES OF CITIZENSHIP

Be loyal, obey the laws, pay ordinary taxes, provide for self and family, save something for future independence—these are the relatively simple duties of citizenship in peace-time.

But in war-time things are different. Even though he may not have the privilege of joining the armed forces, the citizen has arduous duties, which call on his greatest resources of character, industry and financial means. Added to the normal

requirements are the obligations of extraordinary taxes, Victory Bonds and war charities. So great are the financial duties imposed by war that the citizen must resort to unusual, drastic, systematic, determined saving to meet them.

The Bank of Montreal offers you the service of a Special Savings Account, in which you can deposit every pay-day, or other income date, the right proportionate amount to cover your war obligations when due.
