**The Ladies Interested in the Distribution of \$1,500.00!**

A SPIRIT OF FRIENDLY RIVALRY STIRRED UP!

The Ladies Alive to the Great Importance of the Undertaking!

The ladies of Canada are delighted; husbands note with pleasure the smiling faces of wives and daughters; indeed the whole country is stirred up with pleasurable excitement.

It simply amounts to this,—that the manufactures of the celebrated and universally used Diamond Dyes have inaugurated a grand competition scheme known as the "Diamond Dye Competition," which is freely thrown open to every mother, wife and daughter in our broad Dominion.

No less a sum than \$1,500.00 will be distributed to the mothers, wives and daughters of Canada, in first, second and third prizes. This sum is really being returned to the consumers of Diamond Dyes. Every lady in Canada can afford to become a competitor, and has sufficient intelligence and ability to make up some of the articles mentioned in the long and varied list. Ample time is afforded to all for experimenting and becoming perfect as competitors for the large cash prizes offered.

It is an unprecedented act of liberality on the part of the wealthy manufacturers of Diamond Dyes, and never before attempted by any similar institution in the world; and the public have the most ample proof that every promise will be faithfully carried out.

During the season the manufacturers of Diamond Dyes have contributed liberally to country fairs, in order to encourage Household Economy and Art. Small and almost unknown concerns have tried to stimulate this character of work, by the offer of insignificant sums of from one to three dollars, that would not be any instance defray cost of dyeing and making up of goods called for. We fear these small imitations have not yet discovered the fact that the ladies value too highly their time and materials, to be lured by such trifling and miserly prizes.

The fairs of our country having closed for the season, the manufacturers of Diamond Dyes mean to keep the ladies busy during the long autumn and winter evenings, by offering large and substantial prizes in keeping with the character of work asked for.

The production of every competitor will form an exhibit in the large and well-equipped Diamond Dye establishment in Montreal, and three of the largest and best known Dry Goods firms in Canada have promised experts to award the prizes. These well-known houses are: Henry Morgan & Co., Henry & N. E. Hamilton, and John Murphy & Co.

Graham & Co., proprietors of the Montreal "Daily Star" and "Family Herald and Weekly Star," have signified their willingness to act as judges of the various Essays sent forward for competition.

Young and old, rich and poor, have an equal chance in this magnificent and novel competition scheme; therefore all should willingly enter. If you have not yet received a book giving full particulars of the scheme, write at once to Wells & Richardson Co., Montreal, who will send it post free.

We are asked to remind our readers of the fact that all intending competitors should at once signify their intentions of becoming competitors by sending in the form, properly filled up, which is found on page 15 of the book referred to. We wish to impress on our people the fact that this contest is absolutely free to all. There is no cost for books, no entrance fee, and no money to be sent forward; it is as free to all as the air we breathe. We trust our people will do what they can in this competition, and thus sustain the reputation of our women and girls as adepts in housework and art.

**Marriage as a Life Preserver**  
A certain set of philosophers, incapable of feeling affection for anyone but themselves, has delighted in sneering at love and marriage, and have argued that bachelorhood is the only conservative state. But their theory is not borne out by the statistics of married and single life in modern times, so far at least as the masculine gender is concerned. If longevity is desirable, then it is better that we should marry than remain bachelors; for it appears that at every age, from twenty to eighty-five, the death rate of the bachelors is very much smaller than that of their unmarried brethren.

Gentlemen who prefer a short and a merry one to a prolonged lease of matrimonial placidity will probably agree in opinion with the cynical philosophers.—New York Ledger.

The French government and the colonial government of St. Pierre have just announced a subsidy of 70,000 francs (\$14,000) per annum to a line of steamers between St. Pierre, Sydney and Halifax. It is also proposed to offer a handsome subsidy to a steamer to run between St. Pierre, Boston and New York.

The Louisiana Lottery Company have not yet succeeded in inducing the state to accept \$1,500,000 in exchange for legal protection of its methods. The offer is probably considered as a bribe, but there is a peculiarly demoralizing feature in connection with it. The bonus is intended to be used in the support of public schools and charities. The influence resulting from such an application of the revenue would be disastrous to the moral nature of the children and the deserving poor consent to it. No conscientious parent or pauper could reconcile himself the idea of using the earnings of a gambling den for the propagation of education and Christianity. It is unlikely that they will ever be put to the test. The people of the United States have declared war on the institution and its principle.
