1891.

The new year on which we have just entered is likely to resemble in various respects many of its predecessors. It finds the British Empire at peace with all the world, but with two or three unpleasant disputes on hand which easily might entail disagreeable consequences.

There is reason to hope that all these matters will be amicably settled before long. The outlook throughout the world promises peace. Though storm clouds might easily darken the sky in almost any direction at short notice.

Canada may be plunged before the year is out in the excitement of a general election. If it should not be, the question of most local interest would naturally be that of trade expansion to make up for curtailment due to the McKinley tariff.

THE FINANCE MINISTER'S VISIT TO THE WEST INDIES.

The Dominion Finance Minister, Hon. G. E. Foster, has had an interesting visit to the West India Islands both Windward and Leeward. It was reported that his mission was in part a secret one, having for its object negotiations in behalf of the annexation of the British Islands to Canada.

THE MORIBUND HOUSE OF REPRESENTATIVES.

The present lower Federal House of Parliament at Washington has only a few more weeks to live. But during that period it may do much mischief if it pays no attention to the will of the United States people as expressed in the late Congressional election.

HOME RULE PROSPECTS FROM LIBERAL UNION STAND POINTS.

Liberal Unionists in England claim that Irish Home Rule has now ceased to be a question of practical politics. They are of the opinion that the split that has taken place in the Irish Home Rule ranks will weaken the Gladstonian party as to ensure its smashing defeat in the coming general election.

stonian side was shown has greatly encouraged Liberal Union hopes. We think it likely that squabble over Parnell will have a serious weakening effect on the Gladstonian strength.

THE EDUCATIONAL SUPERINTENDENCY.

It is rumored that Mr. Crockett's displacement from the Educational Superintendency has been effected or determined upon, and that Dr. Inch, President of Sackville University, has been selected as Mr. Crockett's successor.

Mr. Crockett's displacement will not, we think, be generally regarded with satisfaction. He is well fitted for the office of Superintendent of Education, and has done good work in it.

THE WORK OF RECONCILIATION.

Reports from France as to the position of negotiations between Mr. Parnell and Mr. W. O'Brien looking to a reconciliation between the mutually exasperated Home Rule factions sound rather promising. A perfect or at least a working reconciliation looks possible, but must be considered rather improbable.

Our Dominion representative will soon go to Ottawa to look after the interests of Kent in the Federal Parliament. Would it not be a good move to provide him with a numerous signed petition to place before the Government urging necessary improvements of our harbor.

He is anxious to do all in his power for the welfare of the county, and should be assisted as far as possible by his constituents.

Why Money is Scarce.

"Why is it," people are asking every day, "that there is such a dearth of money? It has not been hoarded?" Not at all. There is just as much money in circulation, probably more than ever.

How it Feels to be a Millionaire.

Mr. George M. Pullman, the possessor of \$50,000,000, recently said to a correspondent when asked how it feels to be a millionaire: "I have never thought of that. But now that you mention it, I believe that I am no better off—certainly no happier—than I was when I didn't have a dollar to my name and had to work from daylight until dark."

A Novel Offer.

We note that the publishers of the Dominion Illustrated have originated a plan by which over \$3,000 worth of prizes are to be distributed among the subscribers to that paper, subject to their correctly answering simple questions on the current contents of each number.
