It Steadily Improves.
The energy and ability which characterize the present management of the Dominion Illustrated are more and more apparent each succeeding week and month. Lumbering in Canada, the great Chignecto Ship Railway, the formal opening of the Dominion Parliament, are among the subjects that have been taken up recently and exhaustively illustrated. Both from the literary and artistic point of view this journal is a pronounced success, and in the fullest sense deserving of its steadily growing popularity. The great prize competition is still open to new subscribers. The publishers of the Dominion Illustrated are the Sabiston Litho. and Pub. Co., Montreal.

I Am Master!
DUESSELDORF, May 7.—At a banquet in his honor last evening, Emperor William made a significant speech, in which, after dilating upon his desire for peace and for the protection of the rights of labor, and expressing satisfaction at the conclusion of the commercial treaty with Austria, he said: "As to the home policy which is becoming established, I shall not deviate a hair's breadth from the course I have adopted. I alone am master in this country, and nobody else." His emphatic language in regard to the treaty with Austria, which Prince Bismarck opposes, and also in regard to some affairs, was evidently directed at Prince Bismarck.

Not an Eldorado.
A man named Frederick P. Scott, who was employed on a steamship plying between British Columbia and China, saw a statement in a British Columbia paper that things were booming in St. John, that wages were \$14 per day on the wharves. He immediately gave up his situation and came East, arriving in St. John yesterday morning. He visited the wharves during the day to procure a \$14 a day job. He failed to find such a "soft snap." This so disheartened him that he left for the Pacific coast again last night. It is probable that the item appearing in the British Columbia papers was in reference to ship laborer's wages on steamships, and through an error it was made to read \$14 instead of \$4—a material difference.—Globe.

To the Editor of The Review:
DEAR SIR,—Thinking that your readers outside of this parish might infer from the remarks of Observer in your last that there is worse dissatisfaction with regard to our new Court Commissioner than really exists, I have a word to say. I am not prepared to deny that there may be one important personage in this parish who was not satisfied with the change, but on the other hand I venture to remark that all ordinary people (in the parish) were well pleased with the announcement, and this fact will surely bring both side of the arrangement to an equal balance.

Mr. John Gillis, of Kingston, returned home from New York last week on a sad errand—the death of his mother. His many friends are pleased to see him.
We regret to report that Mr. Edwin Bowser's health is no better. His friends are very anxious concerning his recovery.

The Lobster Fishery in Nova Scotia
SHELburne, May 8.—The Budget says: The lobster catching business is now being pushed vigorously, all along the Shelburne county coast. The steamers between Shelburne, Lockport, and other points in this county and Yarmouth are making four trips each way every week. Since April 20 each steamer has carried an average of about 1350 crates of lobsters each trip from the ports of this county to Yarmouth for shipment to Boston. The shipment of lobsters from Lockport now is about fifty crates per each steamer. The oldest fishermen have no recollection of the time when lobsters were as plentiful as now, or of as large size. All along the shore the quantity now being taken daily is fully double what has ever been taken in any previous season. At Black Point, Ragged Islands, a lucky fisherman caught a milk white lobster last week, and another happy fisherman caught a blue lobster with white under the claws.

THE WORLD OVER.

A Chicago millionaire named Hutchinson, and familiarly known as "Old Hutch," is reported to be to-day not only a financial but a physical and mental wreck. Late dispatches represent him as wandering up and down an American country town in a state of bewilderment, apparently without any purpose or reason. He was the most successful market "cornerer" that the country has seen for a great many years. None of the money that he made was made by legitimate business, but by taking shrewd advantage of other people's necessities. His great success had often been pointed to as reason why laws should be enacted to prevent and punish the cornering of food products. But those who gaze upon him to-day—a financial wreck, cleaned out of every dollar he possessed, will be likely to come to the conclusion that the inexorable laws of trade are sufficient, without the addition of any statute laws, to take care of such cases as his. No legislature would think of imposing a penalty half so severe as the one he has suffered. "Old Hutch" had a checked career and very many of his victims will not regret his downfall.
On Tuesday last several cattle which were on the line of the Intercolonial Railway near St. Andre station, Que., were struck by a train and killed. In passing over the animals, nine freight cars became derailed. No person was injured.
A bear ate up four little pigs in Mr. Humphrey Davis's hog pen, Anagance, at one meal last Saturday night. It also attacked the sow, but the row that ensued brought Mr. Davis on the scene, to the disadvantage of the bear.
Mrs. Martin Hayden, her mother, Mrs. Redden, her son, Martin, of Bridgeport, Conn., and a boarder were poisoned Tuesday morning by eating oatmeal which had accidentally been placed in a bowl in which Paris green had been kept. Mrs. Redden died Thursday after terrible suffering. The others will recover.
The late Charles Pratt, of Brooklyn, who left \$15,000,000, is said to have died from overwork. This is too frequently the trouble with rich men. They devote all their energies to the accumulation of wealth, and they don't know how to enjoy a little leisure. The poor men could give them some useful hints on this subject.
J. M. Keith, a native of New Canaan, Queens Co., has been elected Mayor of Missoula, Montana.
A despatch from Edmore, Montcalm Co. Michigan, states that a prehistoric mound has been discovered near that place. The most remarkable of the articles found is a sealed casket and tablets beneath the skeleton of a man. The skull is very peculiar shaped, and it is thought to show that the man did not belong to the present race of men. The top of the casket is of red clay. Upon it is engraven the figure of a woman in a recumbent position, with her head resting upon a pillow. There is also a number of other figures, including a man in the act of sowing grain, foliage, and three background walls of a castle. In the mound were likewise found several spearheads, breast-plates, tools of tempered copper, pitchers, tablets, inscriptions in relief, and knives still sharp and hard enough to cut steel.

The fall was a bad one and the passengers agreed that had the man been sober he would have been killed. He was taken to Petiteodic and had his wounds dressed by a doctor there. He was bound to St. John to ship.

Mysteries.
"It might have been." We say it oft
With aching heart, with streaming eyes,
We grope with eager, outstretched hands
After another slighted prize.
We call a life a wasted life,
O mourning soul! 't is not too sure,
Out of great darkness may come light,
And after evil, hearts grow pure.
God only knows. We leave to Him
The things that are not what we would
And trust that in his own good time
He will do that which he sees good.
His will be done. The quivering lips
Must say it though with bitter tears,
His will! It is enough, enough
To hush our murmurs, soothe our fears.
He overrules all pain and sin,
Makes dire disgrace work out his word,
Poor souls low down before his might
And trust all mysteries with the Lord.
