The most complicated watches, clocks, and jewelry repaired and guaranteed.  
W. R. GOULD, Chatham.

**The English Wood Market.**  
Latest advices from the English lumber-centres report trade in a most demoralized condition. As a result of the many failures that have taken place of late on the other side, the opinion here is that owing to the continual decline of values, both shippers and receivers must have been pretty well cleaned out of all profits made previously. Holders of deals in market are not attempting to make sales, for the reason that no one wants to buy, says the Montreal Journal of Commerce.

**Fatal Accident on the B. & M. Railway.**  
On Friday last a young man named Wm. Wry, son of Mr. John Wry, of Buctouche, while acting in the capacity of brakeman on the B. & M. railway, fell on the rail and a car passed over his leg from the foot to the groin completely severing the flesh from the bone. A special train brought Drs. Smith and Sayre, of Moncton, who with the assistance of Dr. King, of Buctouche, amputated the leg at the hip joint, but it was impossible to save his life. He died at 10 o'clock the same evening. The deceased was about twenty-two years old and had only been on the train for a few days.

**St. Mary's Church, Richibucto.**  
Rev. Henry Hackenley, rector of the parish, occupied the pulpit of St. Mary's church at both the morning and evening services on Easter Sunday. The reverend gentleman was greeted by large and appreciative congregations and the discourses delivered by him were full of deep thought, rich truths and valuable instruction. Since Mr. Hackenley has been rector of this parish there has been a noticeable increase in the congregation, and he has made many warm friends not only amongst his own people but also amongst the member of all other churches here. At the morning service, the choir, under the leadership of Miss Hannah, the efficient organist of the church, rendered a very pretty anthem in a manner which did them much credit.

**A Credit to Canadian Journalism.**  
Those persons who have not seen the Dominion Illustrated since it has been so enlarged and improved should secure a sample copy at once. Both from the literary and artistic point of view the Illustrated is a credit to Canadian journalism. The prize competition which has been inaugurated with the double purpose of conferring benefit on readers and publishers, consists in finding in current numbers of the journal the answers to thirty-six questions, six of which are published every month. The prizes aggregate over \$3,000 in value. There are one hundred in all, the lowest being valued at \$5. The first is \$700 in gold. On receipt of 12 cents in stamps the publishers (the Sabiston Litho. & Pub. Co., Montreal), will send to any address a sample copy with full particulars.

**Burned to Death.**  
A melancholy accident occurred at an early hour Friday morning whereby Mr. John Spence an old man living on the City Road, lost his life. On Thursday evening Mr. Spence fell down a stairway in his house and sustained some severe injuries. Dr. Simon was summoned, and after he had bandaged up the wounds he was put to bed and for some time he rested quite easily, and his family thought he was not seriously affected by his injuries. About four o'clock next morning, however, Mr. Frank Hayward, who lives in the lower flat of Mr. Spence's house, heard the sound of a heavy fall and the crash of glass. He jumped hastily from his bed and ran to the kitchen, from whence the sound came. An awful sight met his gaze. Mr. Spence lay prostrate on the floor enveloped in flames, and close beside him a broken lamp on the point of exploding. Mr. Hayward's first act was to seize the lamp and throw it from the window. He then hastily rolled Mr. Spence in a blanket and extinguished the flames. This was all done in a remarkably short space of time, yet the unfortunate man was frightfully burned about the body. Drs. Simon and Emery were called and did all in their power to alleviate his sufferings, but without avail. He lingered, suffering great agony, but perfectly conscious, until Saturday morning, when death relieved him.—St. John Globe.

The statement in a Philadelphia despatch that the arrival there of a tank steamer loaded with molasses in bulk was an entirely new experiment is not correct. Some ten or twelve years ago the Messrs. Nash & Co., Boston merchants, had a vessel built for this very purpose, and several cargoes of molasses were brought from Havana in iron tanks by her. For some reason this method was abandoned, but the experiment has been repeated, and a schooner filled with wooden tanks was despatched from Boston to the West Indies only a few days ago for a cargo of molasses to be shipped in bulk.

—The wholesale clothing manufactory of Clayton & Sons, Halifax, takes a prominent rank among establishments of the kind in Canada. They employ between three hundred and four hundred hands and turn out every description of clothing for men, youths, and children.
