The Chignecto Ship Railway.

The work on the ship railway will be suspended at the end of next week, by order cabled from London. There is no failure of contractors or company as has been reported, but in the present state of the money market the company were not able to float their remaining securities without a sacrifice, which they deemed unnecessary. As soon as the present financial crisis passes work will be resumed. It is satisfactory to know that the work is far advanced; the machinery is all on the line; the rails are laid for thirteen miles; the road bed is one half completed; it will require only a few months work now to finish. The contractors' liabilities have all been paid, so no one loses anything, very general regret is felt that the completion will be delayed.

News from Spain.

A few days ago Dr. Olloqui received a letter from the Conservatory of Music, Madrid, Spain, congratulating him for the success of his daughter Helena. The professor says:—"I congratulate you on the brilliant results obtained by your daughter, Helena, at the examination just closed, she having for the second time received the note Sobresaliente (the highest honor) by the unanimous vote of the tribunal of the Royal Conservatory of Madrid. She leaves to-day for Bilbao, in the north of Spain, where she will spend the vacation, returning October 1st to begin her studies for the seventh and last scholastic year. If, in the next year, she achieves as much as in the two preceding ones, she will leave here not only a finished pianist but a great artist." Miss Olloqui will doubtless be the first Canadian to carry off such high honors in that country.
