

Cocaine.

I am pleased to note that Miss Agnes St. Peter, so dangerously ill for the past fortnight, is, under Dr. Bellevue's skillful treatment, in a fair way of recovery, to the gratification of her many friends.

Mr. Fearman Gallant, an old and much respected resident of this vicinity, passed away on the 11th in the 96th year of his age. Mr. Gallant was one of the first men who settled in this village, where he was at one time in possession of a large tract of land, which now comprises some of the finest farms in the parish.

The spirit of improvement is still manifest among the people of this vicinity. Mr. Gogan, who has recently acquired himself with such skill and great taste on one of the principal blocks in town, is now doing a "brushing" business on the exterior of the Episcopal church, the effects of which have already lent a charm to the appearance of the building as well as to the town in general.

Mr. Bilodeau has a number of men employed at the basement of his new building which will be ready for the carpenters in a few days.

Our lobster packers were not so generally successful this season as last, although the extension of time, which has been so justly granted, may in a large measure supply for the days lost through stormy weather.

Crops in general looked poor here for a time, owing to the continued dry weather which prevailed all through last month, but during the past week a decided change has taken place, and, although hay is light, wheat, potatoes, and, in fact, all other crops are in excellent condition.

Mr. Theophilus Bilodeau, as is well known, is, and has been, having a hard and painful experience with his face for the past few weeks. Notwithstanding the fact that he has consulted with the best medical advice in the country, no favorable change has, as yet, taken place. Mr. Bilodeau has been advised by different physicians to proceed to Montreal, where his recovery would be speedy and certain, but whether he is to act on the suggestion or not has not, as yet, been definitely decided.

Probably because the authorities have not been duly warned, or through some other misunderstanding, our bridge has, for some months back, been in a very unsound, and, for the last few days, in an extremely dangerous condition, which was too plainly proved on the morning of the 13th inst., when stringers, trusswork, and all gave way under the weight of a loaded wagon. The bridge is now, to say the least, absolutely unsafe, and may tumble over any moment during a gale. This proves rather a serious obstacle to the travelling public, who will be forced to cross the river up at Smith's Mills until the necessary repairs are made.

DIXIE.

July 13th, 1891.

Moncton Matters.

The shade of the late Premier look down on the composer who prefixed the wrong vowel to the word efficient, (in my last letter), making it read inefficient instead of efficient. May he yet attain pre-eminence in his chosen profession.

Having done with abuse in that quarter, let me express the displeasure experienced on Thursday by the many readers of THE REVIEW when they discovered the paper had not reached here. The delay is attributable to some individual. May his tribe decrease, and his shadow never grow larger.

Monctonians were all "in the swim" on Saturday. Not on the placid waters of the Petitcodiac, but under a canopy of pine boards overlooking the far-famed baseball diamond. The first of a series of league games between two of three amateur nines brought the crowd together, and they enjoyed the fun, particularly in the sixth inning, when five valiant men slid home like a toboggan off an iceberg. To miss a game of baseball in Moncton is like going to a circus and coming away without seeing the clown, and, of course, the game would not be complete without a young lady who feels it her duty to talk loud about everybody and everything. She serves the purpose of a brass band. When Rippley made a home run in the fourth inning she exclaimed: "Isn't he just delightful? Oh, don't you just dote on him? I do!"

Rev. Geo. M. Campbell preached his farewell sermon Sunday evening to a non-sectarian congregation that completely filled the church. Mr. Campbell goes to Exmouth street Methodist church, St. John. Both he and his estimable wife will be much missed by their large circle of friends.

The Commercial and Brunswick hotels registered upwards of sixty-five arrivals on the 10th.

"Our boys" never miss their half holiday plunge. Among those who measured their length in the water at Point du Chene, Saturday, were Messrs. Hamilton, Taylor, Wilkinson, Boyd and Ellis.

I know a strapping young man in town who is much annoyed, in fact, rampant, about my non de plume. He says it's suggestive of his own fair name, and has threatened to stab me, like the fiery rapier of the rockets stabbed the night of the nation's holiday. Now, I would not attempt an attack that would dim the glory or tarnish the splendor of a youth of his age. Besides, remembering that discretion is the better part of valor, and that my chief need is brain fibre rather than muscular, I will let him down easy, and waver my boots that, although his name is Billy, he's not so gold darn silly as

SILLY BILLY.

Moncton, July 14th, 1891.

P. S.—Weather magnificent.

Canada's International Exhibition.

Our readers should remember the date of the second "World's Fair" which will be opened at St. John N.B. on Sept. 23rd, and continued until Oct. 3rd. All application for space should be made at once. The competition is open to the world. Space and power are furnished free.

The attendance last year was the largest that ever visited an exhibition in the Maritime Provinces, but it is likely to be much larger this year owing to the special features to be introduced. As an evidence of the unstinted praise given to the management of the exhibition of 1890, we quote the following from the Toronto Daily Globe:

"The exhibition in this city has been a grand success and the association is now on a sound footing. The St. John Exhibition will be hereafter looked forward to, not with anxiety as is the case of the present one, but with that confidence which assures success from the start. The management is simply hilarious over the result, and the future prosperity of the association. The officers are deserving of much praise from the citizens of St. John for their untiring zeal in their behalf. Every officer seems to have done his duty and to have brought some experience with him towards the success of the exhibition. Mr. Ira Cornwall was a commissioner of this Province to the Colonial Exhibition held at London, Eng., and his experience there has been given here towards the success of this exhibition. Mr. J. C. Robertson, chairman of the Machinery Hall committee, was the right man in the right place, he being at the head of one of the largest manufacturing concerns in the Lower Province, brought practical experience with him that ensured success, and Machinery Hall proved to be one of the most important departments in the exhibition, none being better patronized. Throughout the ten days Messrs. Everett, Cornwall and Burdett worked incessantly day and night in their endeavours to make it a success, and even as late as Friday and Saturday of the first week delinquent city exhibitors were brought to the front and made to fill the spaces allotted to them. It must be confessed, however, that these same exhibitors entered into the object of the exhibition with warmth and made up for their sloth on the start. The Ontario exhibitors were warm in their praise of the interest taken in their exhibits by the visitors and of the management for courtesies shown in every desire expressed by them, and every exhibitor will leave St. John, feeling that it was good for them to be there. In this connection we give the words of Mr. James Clark, that exhibitor and visitors alike never received more genuine attention and civility and better accommodations at any exhibition ever held in this country or any other. Mr. Clark was at the Colonial Exhibition, London, Eng., as superintendent of mechanical exhibits under Sir Chas. Tupper, and has had charge of exhibits at the Toronto Exhibition for the last twelve years, all of which should make him a good authority."

Bathurst.

Mr. A. G. Bishop went to St. John, on last Monday, to attend the grand meeting of representative Sons of Temperance held in the Mechanic's Institute there. He returned on Saturday, delighted with his visit. Mr. Bishop is a young man of sound temperance principles, and is sure to win the success in life he deserves.

The Methodist church picnic, held at Alston Point on last Thursday, was very enjoyable. (So say those who were present), only one of the young men got rather more than a fair share of young ladies, having had two of the best looking girls under his care.

Our new bridge is undergoing some much needed repairs, and is slowly but surely assuming the upright position usually considered advisable in constructions of the kind for the convenience of pedestrians. A level bridge is thought by many much preferable to a slanting one.

A fishing party consisting of Misses Josie and Minnie Burns, Dr. McCully, (Moncton), and Mr. T. M. Burns went to Burnsville to-day, to enjoy some of the excellent fishing to be had down there. Mr. Jacob White chaperoned the party.

The farmers have been praying for rain to some purpose, and we are having it now in quantities to satisfy the greediest of petitioners. It's good for the crops; but awfully inconvenient, when one wants to take one's best girl for a drive, and is assured by said best girl with the utmost positiveness of assurance, that *really* rain does not improve the general appearance of the milliner's productions on a hat, whatever benefit it may be to Dame Nature's flowers. "I've been dat," and, I can answer for it, there are not many blessings conferred on rain in a case of that kind.

I saw Mr. Jack Miller in town to-day. He reports excellent success in his line of business down coast.

Mr. Joseph Poirier, M. P., of Grand Anse, was in town last week.

PAUL VASHER.

Bathurst, July 13, 1891.

K. D. C. is guaranteed to cure any case of Indigestion, send for free sample to K. D. C. Company, New Glasgow, N. S.

Potato bugs are doing more damage in Maine than ever known before. The bug is of larger size than usual and is out for business, not pleasure.

At Augusta, Ga., a negro aged 73 was bantered to butt down the door of a saloon for a drink. With two or three lunges he drove his head against the door like a steel hammer, and the panels were splintered. He then took his drink and walked off as unconcerned as if nothing had happened.

The building boom at Edmundston still continues with unabated vigor, in fact, there are more new buildings in course of erection than at any previous time. A number of fine buildings are going up, notably among which are the private residence of Dr. Guy, on one of the prettiest situations in Edmundston, and the large hotel of Mrs. P. A. Babin which will command some of the nicest views in the place.

There were half a dozen balloon accidents in the United States on the fourth of July, several of them fatal, and on Monday the big captive balloon brought from Paris to Chicago was struck by lightning, and its 150,000 cubic feet of coal gas shot up to the sky in a flame nearly a mile high, severely burning the two aeronauts in charge.

And now Yale has admitted a young woman student. One young woman among 1,500 young men will be apt to feel somewhat lonesome, however. She ought to have some company, and she is doubtless destined to have it, now that the ice is broken.

The owner of two of the heaviest cattle ever seen in Kansas—two steers weighing together 8,040 pounds—has refused an offer of fifty cents per pound for them, and proposes to take them to the World's Fair. The larger one, weighing 4,040 pounds, is exactly twelve feet long, and they both stand about six feet high.

The oldest living triplets in Pennsylvania are Rebecca, Benjamin and Samuel Roller of Summeytown, Berks county, who recently celebrated their seventy-seventh birthday anniversary. They are three of thirteen children, and all enjoy remarkably good health.

At the Acadia convention held at Kingston on Saturday for the purpose of selecting a candidate for the vacant seat Mr. Goguen received the majority of votes.

The annual meeting of the St. Louis, Richibucto & Buctouche Ry. Co., called for last Monday, was adjourned until Monday, the 20th inst., 2 p. m., at the office of the secretary, Geo. V. McInerney.

BORN

CURWIN.—At Richibucto, July 8, to the wife of John Curwin, a son.

McLATCHY.—At Campbellton, July 4, to the wife of H. F. McLatchy, Police Magistrate, a daughter.

PRICE.—At Campbellton, July 4, to the wife of A. B. Price, locomotive engineer, a son.

McLELLAN.—At Campbellton, to the wife of Conductor Angus McLellan, a daughter.

MARRIED.

ARSENAULT-DAIGLE.—On July 6, by Rev. W. Verner, Albert Arsenault to Adeline Daigle, both of St. Charles.

FALCONER-MORTON.—At the residence of the bride's mother, Mrs. Johnstone, Black River, by the Rev. J. Robertson, John Falconer, Esq., of Douglastown, to Mrs. Annie Morton, widow of the late James Morton, Esq.

Minard's Liniment for sale everywhere.

Rev. Longnecker—"Dear, I do wish I could think of some way to make the congregation keep their eyes on me during the sermon." Little Tommy—"Put the clock right behind the pulpit, pa."

Eriend—"You have only been married two weeks, and you are fighting already so I hear." Mrs. Young—"Yes, life's too short to waste any time. I ought to have tackled him two week ago."

Talk's cheap, but when it's backed up by a pledge of hard cash of a financially responsible firm, or company of world-wide reputation for fair and honorable dealing, it means business!

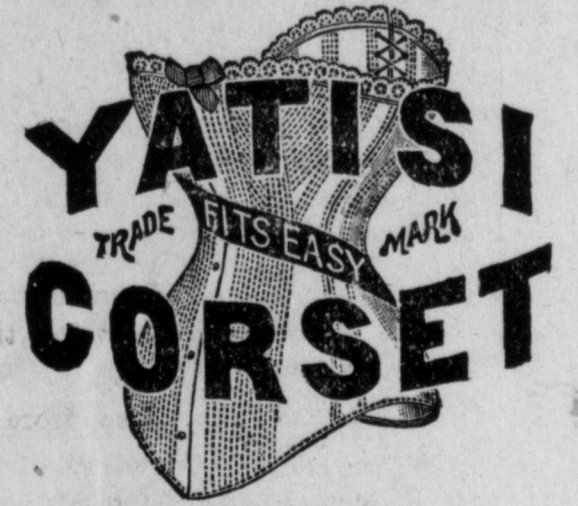

Now, there are scores of sarsaparillas and other blood-purifiers, all cracked up to be the best, purest, most peculiar and wonderful, but bear in mind (for your own sake), there's only one guaranteed blood-purifier and remedy for torpid liver and all diseases that come from bad-blood.

That one—standing solitary and alone—sold on trial, is

Dr. Pierce's Golden Medical Discovery. If it doesn't do good in skin, scalp and scrofulous diseases—and pulmonary consumption is only lung-scrofula—just let its makers know and you get your money back.

Talk's cheap, but to back a poor medicine, or a common one, by selling it on trial, as "Golden Medical Discovery" is sold would bankrupt the largest fortune.

Talk's cheap, but only "Discovery" is guaranteed.

**SPECIAL**

Peters' Mills, Kent County, N. B.

Election Card!

To the Electors of the County of Kent,

GENTLEMEN:—

O. J. LeBlanc, M. P., having accepted a nomination for the late election for the Commons, his seat in the House of Assembly has thereby become vacant and you will soon be again called upon to elect a member to represent you at Fredericton.

The large vote (1203) which I received at the election in January, 1890, (when I was comparatively unknown in some sections of the County) with the solicitations and encouragements I have lately had from a very large number of you, induce me to again offer you my services. I have since that election continued to represent my own parish (St. Marys) at the Municipal Board, and have been honoured with an unanimous election as Warden of the Council, I have therefore become more intimately acquainted with the business and people of the County, and have confidence that I can faithfully serve your interests in the higher position to which I aspire.

If honoured with a majority of your votes my chief aim will be to advance the interests of my native County, and for this purpose I will be prepared to favor all legislation, no matter by whom introduced which in my judgment may tend in that direction.

Your local wants with reference to roads and bridges shall not be overlooked by me, and I will do my utmost to secure for Kent a fair share of public money.

I therefore solicit the active support of all who so generously assisted me in my former contest, as well as all others who are now willing to trust the representation of the County in my hands.

I will endeavor to make a thorough canvass of the County, and trust to have the pleasure of explaining my views to a large number of the electors.

Again soliciting your votes and support I am, gentlemen,

Your obedient servant,
JOHN B. GOGAIN.

St. Mary's March 10, 1891.
