

LOCAL & GENERAL.

Repairing.
The most complicated watches, clocks, and jewelry repaired and guaranteed.
W. R. GOULD, Chatham.

A Fact.
The Liberal party has never had a day's luck from the time they deposed Alexander Mackenzie after defeat in 1878.—Toronto World.

Young Bass.
Chatham Advance:—About the meanest law-breakers on the Miramichi are those who are engaged, who'veeale, infatigating young bass, which weigh from half a pound to a pound and a half. Is it any wonder the authorities sometimes deal stringently with such people?

Senator Cochrane's Ranch.
Senator Cochrane was in the city to-day. He was asked by a Witness reporter if he found the ranching business a profitable one. He replied that it was—very. The Company with which his name is prominently identified was formed with a capital of \$250,000. It is now \$400,000, and the Senator says they will pay a fifteen or twenty per cent dividend this year. Last year and the one previous he shipped about a thousand cattle from the Cochrane Ranch at Fort McLeod. These cattle are well thought of in Great Britain, and brought good prices. This year, 1,500 head from the same ranch will be exported about the month of September. Senator Cochrane predicts a great future for the trade.—Montreal Witness.

Fire at Kingston.
Early Sunday morning fire was discovered in the Kent Northern Hotel, of which Mr. John McAlmon is proprietor, and had made such headway when discovered that the family barely escaped with their lives. Mr. McAlmon's loss is very heavy as nearly the whole contents of the building including the clothing of the family was consumed. The fire spread rapidly and in a few minutes several buildings were enveloped in flames. The Morrell house, occupied by Mr. David McAlmon, was also burnt to the ground, but nearly all the furniture, etc., was saved. Six buildings (including barns) in all were burnt and the loss will be heavy as the total insurance was but small. Mr. McAlmon, who was in Chatham at the time of the fire, has the sympathy of the entire community, as he had no insurance and his loss is very serious.

Easter Millinery.
This is the day for the Grand Easter Opening at H. G. Marr's well known millinery establishment. The Eastern window presents a magnificent appearance with its clusters of ostrich plumes, while the Western window is filled with different styles of trimmed hats. Flowers of most natural appearance abound on every hand in utmost profusion. The store, itself is decorated with beautiful colored ribbons and quaint millinery productions. The show at the rear is well worthy of special inspection. A glance at its contents reveals that this season's bonnets run small; that the hats are lower in the crown than ever before and that some are perfectly flat. In size, several were shown more like a doll's hat than a mature lady's and others in design present the quaintest conceits possible. Flowers seem to be the leading trimming and are employed in marked profusion. Ribbons are still a great deal employed and the shades remain about the same as in recent years. Mr. Marr this year certainly has the best show he has ever made and presents more goods and more patterns imported direct from London and New York and also a larger Paris consignment than ever before exhibited in Moncton. Most of the novelties come from Paris.

This feature of special and direct importation enables Mr. Marr to offer lower prices than ever attempted before. Among the most beautiful articles shown is a line of imported laces from London. These laces are imported in gold and silver with flowers of acorn and many other designs. They are really beautiful and naturally prices are high compared with the ordinary run of importations. Gold and jet ornaments and also in gold and pearl are among the finishings.

From the opening exhibition it is evident that feminine Moncton will pretty generally visit this establishment within the next few weeks.—Moncton Transcript.

Humanity Blown to Atoms.
SAN FRANCISCO, April 1.—Advices from Valparaiso state that the ironclad Blanco, belonging to the insurgents, attempted to blow up the armed government tug Florence with a fish torpedo, but the torpedo missed the boat and struck the big floating dry dock, blowing it to pieces. The Florence and a torpedo boat attacked the Blanco, when a heavy shell from the latter struck the Florence, blowing her entirely out of the water and killing or wounding every one of her crew of 17 men, while a broadside from the Blanco's consort, the O'Higgins, knocked the torpedo boat all to pieces. Fire was opened from the forts and a shell went through the O'Higgins, and the gun on the quarter deck exploded, the deck being literally torn out of the vessel and nine men out of the gun's crew of 12 were blown to atoms.

Miss Mary Mazerolle, teacher of Kouchibouguac, and her sister Lizzie, teacher at St. Marguerite, spent Easter at home.

Our lively little town is getting dull just now. Owing to the railway being blocked, our merchants have to haul their goods from Rogersville station, I. C. R., a distance of 25 miles. Nevertheless they are not getting discouraged.

We had a visit from Mr. Henry Burke on Saturday. Mr. B. is trying to form a company to extend the St. Louis railway to Chatham in connection with the telephone company.

Mud-digging is being carried on vigorously here this spring. No less than ten diggers can be counted from the bridge. St. Louis farmers are finding that mussel mud is very profitable on their clay land.

Feed is a little scarce here this spring. Gus. expects to have for sale a couple of carloads of hay as soon as the K. N. R. is open.

The Yatisi Corset, owing to the peculiar diagonal elasticity of the cloth will fit the wearer perfectly the first time worn, no matter what her style of form is—either long or short waisted.

The Yatisi Corset does not stretch at the waist, requires no breaking in, fits comfortably the first time worn. As it gives to every motion of the wearer it will out-last any of the old style rigid Corsets.

The Yatisi Corset is made of the best materials, and being elastic, (without rubber or springs) is invaluable for invalids, as it cannot compress the vital parts of the body. They are recommended by the most celebrated physicians in all the leading cities.

The Yatisi Corset is the only one that the purchaser can wear ten days and then return and have the money refunded if not found to be the most perfect fitting, healthful and comfortable Corset ever worn.
