A Freak.
Mr. Paul Legooof has in his possession a curious freak in the shape of a calf, resembling strongly in some respects a bear, by which animal the cow had probably been frightened while grazing in the woods. Paul intends to communicate with Barnum & Bailey with a view of making arrangements to exhibit the freak.

He Agreed With the Preacher.
We take the following from a St. John paper: Last Sunday morning a Richibucto preacher was discoursing from the story of Ahab and Jezebel. Towards the close of the sermon he addressed himself particularly to the male portion of the congregation, exhorting them to choose for their life partners the quiet, meek, plain woman and not be attracted by great show of dress and ornaments, which should rather serve as a reason to warn them away. At this juncture a gentleman who has been on the sea of matrimony and is said to be seriously thinking of making another voyage, cried out in an election campaign voice, "Hear! hear!"

Exodians Still Returning.
The number of families who are returning from the States, where they don't make their fortune, to their old homes in the maritime provinces where they can live comfortably, is very large this spring. As already noticed several times, lots of household furniture come in by the International company's steamers at nearly every trip, and there are also the household goods of many more coming in on the cars from different parts of the States. A great many of these families who are thus moving back to settle in these provinces permanently are from the country and are taking up farms which they deserted some time ago. Only yesterday there were three whole carloads of household effects passed through here from some parts of the States to Nova Scotia, one car being for Joggins and the other two for Berwick.—St. John Gazette.

PERSONAL MENTION.
Col. W. A. D. Stevens returned from his trip to the old country on Wednesday last, looking hale and hearty. We are indebted to the colonel for files of British newspapers received during his absence.
Colonel S. U. McCully, of Chatham, was in town last week.
Mr. Daniel Sullivan, lumber operator, of Kouchibouguac, accompanied by his wife and son, was in town on Friday.
Mr. Charles J. Enslow, representing Richard Sullivan & Co., wine and spirit merchants, of St. John, was doing Kent last week.
Mr. Wilnot Brown spent Sunday last in Moncton.
Mr. Arch Cowan, of Cowan, Ellis & Co., wholesale hardware merchants, of St. John, was here Tuesday on his way north.
Mr. J. G. Johnson has returned to Richibucto much improved in health.
Ex-collector Rusk leaves for Ireland, his native place, Saturday.

The Ottawa Journal remarks: "With a reduction of over five million dollars in the estimated expenditure for the coming Dominion year, and a surplus which will amount to several millions for the present one, this country may be considered to be doing pretty well in the way of national finance."

MRS. ROBINSON, Hopewell Corner, writes: Dear Sir, I have used your British Liniment for one year, and must say it surpasses all the Liniments I have ever used for Sore Throat, Lamé Back, Pains in the Side, and all complaints for which a Liniment is needed. I had a pain in my side so bad that I had to give up work. I gave my side a good bathing with your Liniment and it gave me immediate relief so that in twenty minutes I was able to go about my work.

NUGGETS.

—Eighty-five in the shade Friday. The hottest this season.

—Salmon struck in earlier on this coast this season than for many years.

—The blood-thirsty mosquito is on deck armed with a more murderous proboscis, apparently, than ever.

—We are always glad to receive items of news from our readers. Send them along; we cannot be everywhere at once.

—In overhauling his gasperaux net at an early hour one day last week, Mr. John T. Bell, found entangled therein a fine salmon.

—The west and south west winds lately have been very favorable to our fishermen as they keep the water clear and calm and they are enabled to overhaul their nets and traps as often as advisable.

—Work has been commenced on the telephone line, which the management expect to have in operation by the first of July. The line will extend from Kingston to Kouchibouguac, and connection will eventually be made with Chatham.

—Edward Jack, Esq., of Fredericton, spent a portion of last week here, the guest of Mr. John Stevenson. Mr. Jack was here in the interest of the American syndicate who are negotiating for the purchase of the "Beaches" hotel.

—Eye sight renewed by buying spectacles from W. A. MacLaren, Richibucto drug store, who has in stock a fine line of the celebrated "Laurance glasses," and is selling out the stock to clear and is not asking Jew prices either. "Give us a call."

—A druggist at St. Mary's York county, nearly died from the effects of a dose given him by a school teacher of that place who has been studying medicine for the past six months. It appears that the druggist was ill and, in the absence of his clerk, the medical student compounded the medicine with the above result.

—Mr. G. I. Irving, of Buctouche, who went West some time ago, has returned to his former home. He reports business very quiet on the Pacific slope. A number of others who joined the exodus last spring returned and are now quite content with New Brunswick.

—Salmon plentiful. There was a good number in market this week. Sellers are asking 15 cents per pound. A very fine one weighing 20 pounds was sold by an Indian. When challenged by the fishery officer how he got it, he said: "Sartin, net," but he could not tell who owned it.—World.

—At a meeting of representative citizens held at Chatham last Thursday it was unanimously resolved to celebrate Dominion day in Chatham in fine style. Water sports, horse races, open air concerts, fireworks, etc., will be provided in abundance, and as all Miramichi will be invited to co-operate, the celebration will be a big thing.

—A French boat with boiled lobsters, undersized and berried, (or full of spawn), were being sold at the Muirhead wharf. A good many citizens escaped the fine of \$20 each, as well as the vendor, who hoisted sail and put to sea, when he heard that the fishery officer was on his track. Lobsters 9 inches and over without berries, may be legally sold in the market.—World.

—The yacht "Good Intent" arrived at Richibucto from Miramichi on Saturday last. She is Mr. L. O. Armstrong, the lecturer's vessel and carries a party of five on board including the captain and crew. She is a trim little craft, 27 feet in length and 8 ft. 10 inches beam. Mr. Armstrong purposes making a tour of the Maritime Provinces in his little craft and left Tuesday morning for Summerside, where he will deliver his next lecture.

—The Dominion fisheries report has just been issued. The total value of fisheries for 1890 is given as \$17,714,902, as against \$17,655,256 in 1889, showing an increase of \$59,646.30. The total value of the marine fur fisheries in the Behring Sea and adjoining waters was \$510,111, showing a total catch of 54,853 seals. The number of fur seals caught by foreign vessels and disposed of in Victoria was 3,474, of which all but 294 were caught in Behring Sea. The total value of the Canadian seal catch was increased \$177,651, owing to the advance of \$1 per skin and an increase of 11,181 skins in the catch.

—The lecture, illustrated with lime light views, "To Ireland and Back," given by Mr. Armstrong in St. Patrick's hall on Monday evening was attended by a large audience and was intensely interesting and listened to with rapt attention throughout. Starting in British Columbia Mr. Armstrong gave a number of views of lumbering and fishing operations on the Pacific, after which he started east on his journey, and for about two hours took his audience with him through Canada to Ireland, giving many beautiful and interesting scenes on the way. After doing Ireland pretty thoroughly, the lecturer started over to Scotland, and from there went to England giving some views in Liverpool and London. His illustrations of the life boat service at Dover were very thrilling. Mr. Armstrong gave a number of views in France, Rome and Austria. The evening's entertainment closed with a view of the Beaches hotel, which was greeted with loud applause.

To do the sample business right requires the carrying of a large stock—this we do, and the way our samples are made up does away with the difficulty so often met with in selecting from samples. The old style of sending clippings of stuff does not do nowadays, as they fail to give a fair idea of what the goods look like in the piece.
