INVALIDS

Gain rapidly in health and strength by the use of Ayer's Sarsaparilla. This medicine substitutes rich and pure blood for the impoverished fluid left in the veins after fevers and other wasting sickness. It improves the appetite and tones up the system, so that convalescents soon

Become Strong

active, and vigorous. To relieve that tired feeling, depression of spirits, and nervous debility, no other medicine produces the speedy and permanent effect of Ayer's Sarsaparilla. F. O. Loring, Brockton, Mass., writes: "I am confident that anyone suffering from the effects of scrofula, general debility, want of appetite, depression of spirits, and lassitude, will be cured

By Using

Ayer's Sarsaparilla; for I have taken it, and speak from experience. "In the summer of 1888, I was cured of nervous debility by the use of Ayer's Sarsaparilla."—Mrs. H. Benoit, 6 Middle St., Pawtucket, R.I. "Several years ago I was in a debilitated condition. Other remedies having failed, I began to take Ayer's Sarsaparilla, and was greatly benefited. As a Spring medicine, I consider it invaluable."—Mrs. L. S. Winchester, Holden, Me.

Ayer's Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5. Cures others, will cure you

A Midland Miracle.

NARRATIVE OF FACTS CONNECTED WITH THE CASE OF MRS. F. A. CHASE.

A sufferer for Over Ten Years—Treated by the Best Doctors in the Place, only to Grow Worse—The Particulars of Her Recovery as Investigated by a Reporter of the "News-Letter."

Orillia News Letter.

What wonderful progress the closing half of the nineteenth century has witnessed! Men still young have witnessed discoveries and inventions, which, while they have fairly revolutionized the methods of human life, are taken almost as a matter of course. New and wonderful discoveries are made almost daily; we quickly adapt ourselves to the changed condition, and even wonder that the inventive genius of man had not long ago penetrated the secrets of nature, almost daily being brought to our aid. While in all directions great advances have been made, perhaps in none have the strides been greater than in the science of medicine. Old methods have entirely disappeared, the days of big, nauseous doses, cupping and bleeding, have passed away and diseases formerly held to be incurable now speedily yield to the treatment of advanced medical science. For more than a year past there have appeared in the columns of the "News-Letter" from time to time the particulars of cures that have been the wonder of all who were acquainted with the persons restored. Perhaps the case of Mr. John Marshall, of Hamilton, was more firmly fastened in the public mind, for the reason that he had been paid a total disability claim of \$1,000, on having been pronounced incurable by a score or more of men who are leaders in the medical profession. As publisher of the "Canadian Workman," the writer has a knowledge of the proceedings under which a disability claim is paid and when it is understood that all such claims have to pass the scrutiny of an investigating committee, the Local Medical Examiner, the Grand Medical Examiner, the Finance Committee and the Grand Lodge Officers, it will be seen that in none but a genuine case of disability could a claim be paid. That the claim was paid Mr. Marshall under this stringent scrutiny was unimpeachable evidence of his total disability; that he was afterwards made a well man was due entirely to a treatment of Dr. Williams' Pink Pills—probably the most remarkable medical discovery of the age. This case was about the first of a series of cures equally remarkable, due to the same grand agency, and each of which has been verified by the most trustworthy testimony. The "News-Letter" in common with many others, has taken a deep interest in noting the testimony given in behalf of Dr. Williams' Pink Pills, hence when the cure of Mrs. F. A. Chase was reported from Midland recently, we decided to interview the lady and verify the truth of the report; with this end in view, Midland was visited, and Mrs. Chase found looking well and happy after long years of suffering, before she learned of the efficacy of Dr. Williams' Pink Pills. Mrs. Chase herself admitted the reporter, who found her a lady of superior intelligence, who, while not wishing for notoriety, was willing to give her candid testimony in favor of Pink Pills for the benefit of other afflicted persons. To the reporter Mrs. Chase said that up to her sixteenth year, she had been a healthy girl, but at that period sickness overtook her, and for the ensuing ten years of her life was one of almsiveness. In January, 1891, she grew worse and finally had to take her bed and was reduced by suffering to the point of death. All the time she was under the treatment of leading doctors. After weary months Mrs. Chase longed for some change and in October asked her doctor if he would consent to her taking a trip to her mother's who lives at Port Hope. This was finally agreed to and on Oct. 3 last she set out for that place. On her way, a lady, a stranger to her, noticing her weak condition strongly urged her to use Dr. Williams' Pink Pills, and again on her arrival at her destination her friends urged her to try this wonderful remedy. On Oct. 10 she consented to give the Pink Pills a trial, and soon found such beneficial effects that it needed no persuasion to continue the treatment. In less than three months she was fully restored, and on Jan. 15 returned to her home in Midland, where her friends were rejoiced and gratified at the wonderful change which Pink Pills had wrought in her health and appearance. Mrs. Chase has since continued to enjoy good health, and says that she cannot too highly praise Dr. Williams' Pink Pills, which have rescued her from almost hopeless illness. Her husband also expresses his thankfulness and appreciation of Pink Pills, and the unlimited pleasure with which he received his wife on her return, looking so well and happy, which was as he truly declared it, "like receiving one from the dead." He said that his wife's condition had been such that he only got a few yards she would be obliged to rest, or obtain help, and before her restoration she had been unequal to the slightest exertion.

While in Midland the writer called upon Dr. McCarthy, druggist, who reports large sales of Dr. Williams' Pink Pills, which the most decided benefits to those using them. From many of our exchanges we have noticed with interest the reports of the great benefit derived from the use of Dr. Williams' Pink Pills, and the case of Mrs. Chase goes to confirm the claim that they are a wonderful discovery in the interest of humanity, restoring vitality to the broken down system. Considering that Mrs. Chase had suffered for ten years, and last October was looked upon as being on the point of death, there must be something of an almost miraculous virtue in the remedy which has raised her to her present condition of health, after she had spent hundreds of dollars in doctoring, and for those so called remedies of various kinds. In fact, Dr. Williams' Pink Pills are recognized as one of the greatest of modern medicines—a perfect blood builder and nerve restorer—curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus dance, nervous headache, nervous prostration and the tired feeling resulting therefrom, disease depending on humors in the blood, such as scrofula, chronic erysipelas, the after effects of diphtheria, etc. Pink Pills restore pale and sallow complexions to the glow of health, and are a specific for all troubles peculiar to the female sex, while in the case of men they effect a radical

cure in all cases arising from mental worry, overwork or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold in boxes bearing our trademark and wrapper, at 50 cents a box or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

A Cheerful Temper.

A cheerful temper, joined with innocence, will make beauty attractive, knowledge delightful, and wit good-natured; it will lighten sickness, poverty, and affliction, convert ignorance into an amiable simplicity, and render deformity itself agreeable.—Addison.

ALL SORTS.

The credit gained by a lie lasts only until the truth comes out.

The Quaker Poet, John Greenleaf Whittier, has passed away at the age of eighty-seven. He was a native of Harverhill, Mass.

Are you troubled with dizziness, emptiness, flatulency? Take K. D. C.—the King of Dyspepsia Cures. It is guaranteed to cure you.

There is a time in every young man's life when for awhile he thinks he is a second Solomon. He soon gets over it, though, when he begins to find out how many kinds of a fool he is.

Thousands of men are like a wax candle in a solitary room, which some one has lighted and placed there. It spends its whole life in burning itself out, and does good to none.

The largest man in Kentucky is Ross Skages of Lawrence county, who weighs 521 pounds and is 6 feet 8 inches tall. His arms measure 2 feet in circumference and his thighs 3 feet. He is 31 years of age.

A farmer asked his local paper the question: "How can I secure the best market for my butter?" He received the following reply: "Make butter that is better than any made by your neighbors, and the market will soon come to you, so fast that you cannot beat it away with a club, or keep it off with an umbrella."

It is education that makes all the difference between the men who dig in the ditch and the man who bosses the job. It is the superior qualities of Ayer's Sarsaparilla that gives it its acknowledged pre-eminence over all other blood-purifiers.

A two-years-old girl died lately at Kiel of shock caused by fright at the noise of the salutes fired by the 40 men-of-war in the harbor when the czar and Emperor William met there a few months ago. Her father, a shoemaker, has brought suit for damages against the German naval departments, and it is said that both the emperors will do what money can to console the Kiel cobbler.

A Canadian blacksmith is said to have discovered the lost art of hardening copper to the temper of the best steel. Others have also been sanguine that they had made a similar discovery, but like philosopher's stone it has never as yet materialized. The Canadian discovery, it is claimed, has favorably impressed experts and the attention of the British Lords of the Admiralty will be called to it. The discoverer recently made experiments which were regarded as conclusive of the value of the invention. He prepared a sheet of his hardened copper one and three-fourth inches in thickness and it was tested at the government rifle range in Quebec. The first shot fired at 40 yards shattered the ball in fragments. The second shot struck the plate squarely and was flattened and embedded in the copper which was dented but not cracked.

T. J. Sullivan was killed by the Puyallup motor last evening at about 12:30 o'clock. The motor was on the run to Puyallup. About a quarter of a mile beyond Jeffreys, a station on the road, there is a sharp curve, and as the motor rounded this curve the engineer saw the body of a man asleep on the track. The man was crushed to death. Coroner Frank was notified, and under his direction the body was removed to Puyallup. Sullivan was a native of New Brunswick, about 40 years of age and unmarried. He has been the foreman of J. N. Foye's logging camp near Jeffreys, for some time. It is not known whether he was the influence of liquor, or merely went to sleep on the track through exhaustion.—Tacoma news Sept 10th.

Three men, the sole survivors of the crew of the barque, Hope, which sailed from Nash's Creek, N. B., on Aug. 15th, bound to Port Madox, South Wales, deal laden, were landed at Halifax by a Lunenburg fishing schooner which arrived from the Grand Banks Thursday. In a gale on Aug. 22nd, 40 miles south of Cape Race, the barque capsized. The crew managed to get on to the keel but were soon washed off into the water. All except the mate got on to pieces of floating deal and securing a piece of rope the three of the crew made a raft which proved the means of saving their lives. The others were washed off the pieces of deal. The three survivors were on the raft four days without food or drink when rescued.
