It appears to be settled that Hon. Mr. C. Jean is to become Lieutenant Governor of Quebec.

"I am convinced of the merit of Hood's Sarsaparilla, after having taken but a few doses"—this is what many people say.

The date for hearing argument in behalf of the petition re the Manitoba school question will probably be fixed this week.

The body of another murdered woman has been found in Whitechapel. It is believed to be the work of "Jack the Ripper."

C. P. R. Traffic Manager Old says that his line has already carried 5,000,000 bushels of grain from Manitoba and the North-west this season against 3,500,000 bushels last year.

Last year United States pensions were \$118,000,000. This year's estimate is \$186,000,000, or nearly one-half the revenue. Uncle Sam will have a large deficit this year and a larger next year.

Three Rivers, Quebec, experienced an earthquake shock a few days ago. The sound and shaking were violent enough to waken some out of their sleep. Nothing more serious than the shaking of houses and rattling of dishes occurred.

Three large blocks of granite from one of the New Brunswick quarries were shipped from St. John, N. B., on Nov. 17 to Ottawa for the base of the monument to be erected on the Parliament grounds in memory of the late Sir John Macdonald. The weight of the three pieces aggregated a little over twelve tons.

One hundred girl students at the Ohio University have struck and left the institution because President Scott refused to comply with repeated requests to put their reception, study and lunch rooms in proper sanitary condition. President Scott promptly excused them from receptions until further notice.

The provincial government has issued a proclamation offering a reward of \$100 to any one, not being the guilty party, who will give such information as will lead to the discovery, arrest and conviction of the author, or authors, of the attempt to rob the mail carrier travelling between Campbellton and Paspebiac on the 6th of October last.

A scheme is on foot to form a Dominion Liberal-Conservative Association, having for its chief object the general welfare of the party and the closer union of all clubs associated with its cause throughout the various provinces of the confederation. It is proposed to hold a convention in Montreal on January 11th, 1893, to inaugurate the movement.

Prof. C. M. Snyder, instructor in astronomy at the high school in Philadelphia says that the earth on the 23rd inst. collided with a stay comet wandering through space without a fixed orbit of determined destination. The comet was in the Andromeda group. The force of the contact shattered the comet to pieces. An evidence of the collision was visible last night in the great number of shooting stars or meteors that fell from the heavens.

By a simple system of registered numbers Messrs. Tucket and Son can tell which of their workmen manipulated any particular plug of their "Myrtle Navy" tobacco, if the caddy which contained it is known. Should any imperfection be found in any plug, therefore, they can at once single out the workman—from among their 400 hands—who is responsible for it. This system works so thoroughly that the complaints do not average one for every 200,000 plugs turned out.

It is now pretty well known that Buck, now under sentence of death at Dorchester, has not yet given his real name except to the sheriff, who will not reveal it until after the execution. Buck gave the name of Robert Olsen, but the sheriff's officers say that's not his name. Stipendiary Wortman has received a letter written at the request of Mrs. Smith of Fenelon Falls, Ontario, saying that her son, James Smith, and another known as Buck, left their home last spring and she had not

heard of them since. She believes from the description that Buck and Jim are her sons, and is in great trouble.

Three hundred representative colored men met at Atlanta, Georgia, last week in response to a circular calling on them to memorialize the legislature on the subject of wrongs to their race. Resolutions were adopted for presentation of a memorial to the Legislature protesting against their military companies being excluded from the benefits of the state encampments, demanding first-class accommodations where first-class fares are charged, and protesting against the lynch law. The last resolution highly compliments Governor Northern for the part he took against the attempts at lynching, and while admitting that many negroes have committed heinous crimes urges that they be legally, not illegally, punished.

We are sorry to have to state that the post master at McNairn's has left, and taken up his residence in the village of Buctouche, followed by the good wishes of the community. Before leaving McNairn, he transferred the postoffice to Wm. Johnson, Esq.

The late rain has been a boon to the mill owners. A. Johnson is running his shingle mill day and night, yet he is unable to supply the demand.

Duncan McEachern, one of the highly esteemed young men of the place has started out selling nursery stock for Chase Bros., Toronto. His quiet, retiring disposition, and gentlemanly bearing, together with his truthfulness and honesty, will, when he becomes acquainted with him, admit him to any society. He has only to be known to be appreciated. Success to you Dunk.

Robert Amos paid his friends at McNairn a visit; all were pleased to see him. He returned to River Hebert, N. S., where he works.

St. Mary.

Mr. McInerney addressed a large gathering of electors here yesterday, and was warmly received. He spoke at some length and made his points well. He devoted his remarks to the political questions of the day, only alluding to the two other candidates in a complimentary manner and was listened to throughout the course of his remarks with attention by all, and judging by the many who surrounded him at the close to shake him by the hand and wish him *bonne chance*, in his election, we would conclude that Mr. McInerney will occupy the foremost place on the returns of St. Mary on the 6th of December.

VARI ACADIAN.

Buctouche.

Nov. 29.—Sunday was a gala day in Buctouche, as far as concerned visitors. Among those present were Hon. Mr. Costigan, of Ottawa, Ald. Kelly, of St. John, G. V. McInerney, Mr. Henry O'Leary, Mr. W. H. McLeod and others of Richibucto.

Buctouche has been and is building up rapidly. A. D. Cormier has his new store finished and newly and thoroughly stocked. He is to be complimented on the push he has shown in building; it was only two weeks from the time he laid the first stick until he was occupying the lower storey. He intends finishing the upper storey for a dwelling in the spring.

A. Grattan intended living in the house of Chas. Wry, but, having changed his mind, he is now living in a comfortable building which he has built and intends using as a warehouse next summer.

E. J. L. LeBlanc has also a very large dwelling and store now nearing completion, and which he hopes to occupy this week.

V. Bourque is building in his usual style. He does not intend to occupy it until spring.

Our genial postmaster is getting everything in readiness for work in the spring. For the winter he has fitted up one end of his barn for store and post-office. It answers the purpose very satisfactorily.

Our jail is being rebuilt and will also be ready to receive its occupants in a short time, but let us hope it may molder and decay without a single occupant.

J. P. Leger, stipendiary magistrate, has purchased the pacer formerly owned by Conductor B. S. Smith. Squire Leger has hopes which may bring Mr. Irving and himself side by side on the ice. He has about completed the building of a barn.

Capt. John Smith has done a very successful carrying business from this port during the past summer. He has bought a new schooner which he will run next summer, his son taking charge of the old one.

Mr. Finlay has taken charge of the pulpit in the Presbyterian church.

Acadieville.

There is nothing but election talk here now. We expected to have had a visit from Mr. McInerney before this, and I hope yet to see him before the election. If he comes he will get a good reception, as there are a great many here for him this time. We had a visit from Mr. Basil

Johnson and Mr. Pascal Poirier, but as the Acadieville people are about sick of Pascal's politics they refused to give them the school house to speak in. Mr. McInerney will get a good vote here this time.

St. John Notes.

So Mr. Chesley has gained the day and goes to Ottawa, to the delight of many and the regret of his most capable opponent Mr. Robertson's many friends. Personally it seems to me as if Mr. Robertson was the man for the place, he has done so much for the trade and general good of the city. Beyond the indispensable amount of speechifying and a little street gossiping, not very much excitement was exhibited.

It is sometimes amusing to see with what scant respect the small boy regards the majestic policeman. Certainly St. John possesses magnificent specimens of these minions of the law. A large bon fire of barrels, etc., was made on one of the quiet streets recently by some imps in boy form. As soon as it was blazing nicely the inevitable policeman and partner rushed upon the scene. Behold the black sprites disperse in all directions, almost, but not caught by their pursuers, who after carefully extinguishing the fire departed, only to be called back in a minute or so by the boys rekindling the fire amid shouts and yells.

Evidently ex-captain Rawling doesn't like being out of power. He is asking to be made a constable. It must be quite a novelty for him to be a plain citizen after serving in the police force in such important positions for so many years.

Petitions to have the Moncton prisoners "Buck" and "Jim's" sentences lightened have been freely circulated and signed by a large number of influential citizens. A great deal of sympathy is felt for them.

Connelly has been proceeding rapidly with the work of dredging and making the new wharf at Sand Point, Carleton. An attempt was made to float the wharf in place, but it didn't quite suit.

The C. P. R. is to commence operations for building the new grain elevator as soon as agreements are signed, which at present appearances should be done within a fortnight.

The young boys of the Leinster street school are very enterprising. They intend to start a paper, and to secure funds gave a concert at the Mechanics Institute Thursday, which they repeat on Saturday. The boys were the principal performers, and gave violin and piano solos, songs and recitations. What they want a paper for is a mystery, unless they want to have an ever ready outlet for their various griefs.

Most of the Church of England clergymen went to Fredericton on Wednesday to witness the enthronement of Bishop Kingdon.

CARD.

To the Electors of Kent County:

GENTLEMEN:—It will be your privilege and your duty, on the sixth day of December next, to elect your representative in the House of Commons, and, at the earnest solicitation of a large number of the electorate, I announce myself a candidate for your suffrages.

In the exercise of the highest franchise enjoyed by free men in a free country—the choice of a representative in parliament—I trust you may find it consistent with your principles and your interests to accord me a just and even a generous measure of support.

In touch for the last fifteen years with the industrial interests of the people, and, during most of that time, in close official relations with all classes and sections of the county, I can claim a fair acquaintance with the trades and industries, the needs and requirements of this constituency.

As the farmer, the fisherman and the lumberer are the main producers of our country's wealth, I will constantly endeavor to promote such legislation as will tend to their advancement, convinced that from their welfare must flow general prosperity. Kent's representative should stand by Kent's interests, and Kent's interests undoubtedly rest on her Farms, her Forests and her Fisheries. I will favor and support any measure calculated to extend the market for the staple products of our county.

Local public works, such as the construction of public wharves, the erection of public buildings, the improvement of our harbors, the lighting of dangerous places on our coasts, aid to railways—the extension of the road from Buctouche north—the procuring of better freight and passenger facilities at Acadieville Siding, the perfecting of our postal service, &c., are matters that will command and receive my earliest and closest attention.

To this end I will, if elected, give the government a fair and independent support, judging measures on their merits, parties less by their names than by their acts, advocating such legislation as will advance the interests of our common county; unduly favoring no man, sect or nationality.

Respeaking from you a fair judgment of my claims for your support, I am, gentlemen, Your obedient servant,

Geo. V. McInerney, Richibucto, 10th Nov. 1892.

been spending a few days in town. He has some remarkable looking skates of Norwegian manufacture on exhibition, also some snow shoes. In one of the evening papers it was printed immediately under a concert announcement that Hagen was to have a box at said concert, most likely a strong inducement for the public to attend, as local concerts are rarely well patronized, exceptions being the minstrel shows.

The Oratorio society are preparing for grand concerts on Dec. 1st and 2nd. The principal soloists are from Boston and Fredericton, three being local.

We are also to have another minstrel show, the last and the best ever given here. It is very much looked forward to.

The new photographer who has taken the studio lately occupied by Stoerger is doing some very good work. One bears many favorable criticisms of the work he has turned out.

"August Flower"

What is it For?

This is the query perpetually on your little boy's lips. And he is no worse than the bigger, older, balder-headed boys. Life is an interrogation point. "What is it for?" we continually cry from the cradle to the grave. So with this little introductory sermon we turn and ask: "What is AUGUST FLOWER FOR?" As easily answered as asked: It is for Dyspepsia. It is a special remedy for the Stomach and Liver. Nothing more than this; but this brimful. We believe August Flower cures Dyspepsia. We know it will. We have reasons for knowing it. Twenty years ago it started in a small country town. To-day it has an honored place in every city and country store, possesses one of the largest manufacturing plants in the country and sells everywhere. Why is this? The reason is as simple as a child's thought. It is honest, does one thing, and does it right along—it cures Dyspepsia. G. G. GREEN, Sole Man'fr. Woodbury, N.J.

picture of an old Indian, a lovely bit of work, one of the best he has done. I forget what it is called.

T. C. Miles is exhibiting some new paintings in Barnes' window, Prince Wm. street. Mr. Miles is always most successful in black and white oils, in my opinion.

The stores are beginning to put on holiday appearances, though in St. John the windows are always most attractively arranged. Men look cheerful and women are well dressed, and every one complains desperately of hard times. I don't believe a bit of this as they have put new steps on the Sydney street side of Queen square.

If you have as many friends as Johnson's Anodyne Liniment, you are a fortunate person.

I have many other forms and will only be too glad to show them should you think well to favor me with a visit while in town, and if you wish to purchase you can depend upon it that I know what will suit your needs best, and will give you the full worth of your money, and guarantee what I sell to be just what I represent it.

W. TREMAINE GARD, GOLDSMITH AND JEWELLER. No. 81 King Street, St. John, N. B. CARD.

To the Electors of the County of Kent:

GENTLEMEN:—At a meeting composed of delegates from school districts of the county—of all creeds and nationalities—held at Buctouche on the 14th of this month, I had the honor to be the chosen candidate to fill the seat vacant by the lamented death of Dr. Legere.

In accepting this choice and this honor, I make no illusions to myself on the obligations which result by it and on the duty imposed upon me.

So I come to-day to ask the support of electors friendly to the cause for which I am to-day in the field.

It is useless for me, gentlemen, to tell you that if elected—as I hope to be—it shall be my endeavor to advance the interests of the County of Kent, irrespective of creed and nationality.

In politics I am and have been a Liberal-Conservative.

I will favor the expansion of commerce and exchange with the United States, in as much as our neighbors will give us the return of what they will receive from us.

I am in favor of a free trade with the United States in regard to the products of the land, the sea and the forest, in accordance with the programme of the political party now in power at Ottawa; that is to say:—the abolition on each side of all duty on the articles of exportation produced by the farmer, the fisherman, and the lumberman.

I also pledge myself to favor, in a particular manner, the project of having a ferry between Prince Edward Island and Richibucto Cape, corresponding by rail with the Buctouche & Moncton Railway south, and with the Kent Northern, north. This project—I think—can be realized in the probable case when the tunnel between Cape Traverse and Cape Tormentine should be—for cause of excessive expense—finally abandoned.

Before polling day I will have the advantage to visit every parish of the county and make with the electors a better acquaintance.

I have the honor to be, gentlemen, Your obedient servant, BASIL J. JOHNSON, St. Louis de Kent Oct. 31, 1892.
