RICHIBUCTO, N. B., MARCH 10, 1892.

MR. LABILLOIS' DENIAL.

The recent Kent election campaign and the utterances alleged to have been made by several of the speakers therein, came up for discussion in the House of Assembly last Friday, and the issues of that contest were there fought over again. Mr. Labilloy made a half-hearted denial of the charges made against him, concerning his statements at St. Louis, St. Mary, and other places in this county, and denied that he had sought to arouse race or religious strife until forced to do so in self defence. The language alleged to have been used by Mr. Labilloy at St. Mary is very strong, very bitter, and very fanatical, and we sincerely hope that he may be able to disprove it. But his mere statement is not enough. We have the direct and positive assertions of Mr. Phinney, Dr. Stockton, Father Ouillet, the parish priest at St. Mary and several others who were present, that Mr. Labilloy did on that occasion use the language attributed to him. We have the statement of Dr. Legere, M. P. for this county, that he was present at St. Louis, and that Mr. Labilloy there used language even stronger and more fanatical than that alleged to have been used at St. Mary. The doctor declares he then and there wrote down the words, and has left at the office of THE REVIEW a statement of the same over his own signature. A number of the most respectable men of St. Louis, who were present and heard Mr. Labilloy speak, corroborate Dr. Legere's statement. Against all this we have the unsupported denial of Mr. Labilloy. The people of this province, Catholic and Protestant alike, have a right to know the truth of the matter. Mr. Labilloy is a member of the executive council of this province, and Mr. Blair, who is responsible for all his acts and utterances, owes it to the country to institute an inquiry to ascertain the truth or falsity of the charges.

DR. STOCKTON'S UTTERANCES AT BASS RIVER.

Mr. Blair repeated in the Assembly the statements made by him to the electors of Buctouche on the evening after the recent local election in this county. He there declared that Dr. Stockton had a few days before at Bass River made a most inflammatory speech, endeavoring to arouse religious pre-judices, referring to the Bathurst school difficulty, and on these grounds urging the Protestants to vote against the government. Mr. Stockton was not present at Buctouche on that occasion, but he took the earliest opportunity afterwards to deny the accusation, and has now on the floors of the Assembly denied that he ever used such language, and demanded from the attorney general his authority for the statement. Mr. Blair in reply stated that Charles J. Sayre and John Stevenson, were present at Bass River and heard what Dr. Stockton had there said, and were prepared to make oath to it. Dr. Stockton then read the affidavits of a number of the electors of Bass River, who had been present at his Bass River meeting, each and all of them declaring the absolute falsity of the charge. He then challenged Mr. Blair to produce the affidavits of Mr. Stevenson or Mr. Sayre in support of the charge. The attorney general will have some difficulty, we fear, in producing these affidavits, for two very good reasons. In the first place, Dr. Stockton never used any such language, and secondly neither Mr. Stevenson nor Mr. Sayre were present at his Bass River meeting. It is true that Mr. Sayre was in Bass River that evening in the interest of the government candidate, using arguments, no doubt, more persuasive than those used by Dr. Stockton, but he was not present at the meeting and could not and did not hear the words which are alleged by Mr. Blair to have been there used. Mr. Blair is either making a statement which he knows to be untrue, or has been misinformed by Mr. Sayre.

AT THE DOOR.

There is a deficit in the Provincial revenue. How large it is does not yet certainly appear. Premier Blair puts it at seventy thousand dollars. We may be sure that he minimizes rather than exaggerates. Some of his opponents swell the figure to about two hundred and twenty thousand dollars. The truth lies probably somewhere between the figures. We may fairly infer that the exact shortcoming may be measured by an amount considerably over the sum named by Mr. Blair.

If very decisive means are not immediately resorted to, on the one hand to lessen the expenditure, and on the other to enlarge the revenue, the deficit will spread with lightning like rapidity, and the Provincial debt will mount as if by magic. Curtailment of expenditure seems possible in almost every direction. It seems to us now that from the outset of our Confederate career the Provincial money has been scattered with a too lavish hand. Much greater economy might have been practiced by all concerned. It is time now to deal with the matter in an heroic fashion. The pruning should be severe, where practicable, applied with a fearless hand. The process will naturally be painful, but it will be found easier to lessen the expenditure than to augment the revenue. Augmentation means direct taxation. All parties shrink from that. But to all appearances it must come. It is already at the very door, and is likely to force its way in presently. Had due economy been practised from the outset, direct taxation might be yet far in the future. There has been a plethora of talk round and round the question—great cry but mighty little wool. Men having charge of Provincial affairs direct or indirect, should wake up to the reality, and bestir themselves in downright earnest. Warning should be taken from the deplorable condition of affairs in Quebec.

REVOLT IN THE SENATE.

The venerable men who compose our Dominion House of Lords experienced a scare a few days ago. One of their number Hon. Mr. Bolton, rose in his place during the debate on the address in revolt against the Government and its policy with startling vehemence. The true cause of the trouble is merely hinted at. It is rumored that what Mr. Bolton chiefly objects to is his non-reception into the Cabinet. The rumor may be unfounded. Be that as it may frightful results are not looked for.

THREATENED PROSECUTION.

The prosecution of Messrs. Mercier, Pacaud and others associated with them in boodling transactions in Quebec has been repeatedly threatened. The threats seem to be serious—to mean business in fact. A successful prosecution should be possible. Beyond doubt, the Quebec treasury has been robbed right and left in the most daring manner for years. The sum total of the robberies appears to have reached a vast sum. Punishment by law ought to be possible. For all that, it is to be hoped the Quebec Government will not move hastily in the matter. They should see their way clearly to success before taking action. It would be very bad policy to transform these audacious boodlers into patriotic martyrs, and thus increase their capacity for mischief.

MARITIME PROVINCE MEN ON THE STUMP IN THE UPPER PROVINCES.

Leading Maritime Province orators have done good work on the stump in Ontario and Quebec during the electoral season. Messrs. Thompson and Tupper from Nova Scotia, Messrs. Foster, Costigan and Weldon from New Brunswick have rendered splendid service in various electoral fights in those Provinces. They contributed, no doubt, materially to the remarkable series of victories won for the Dominion Government.

THE GREAT FIGHT IN QUEBEC.

The great fight in Quebec came off, as expected, on Tuesday. As we go to press at an early Wednesday we are unable to give the result.

Truro Letter.

QUEBEC ELECTIONS.—On the eighth of this month, the people of Quebec will be called upon to decide whether DeBoucherville or Mercier will rule the destinies of that province. We make no predictions, but are inclined to believe that the child of the people will be relegated to the cool shades of opposition. The fact of six seats being carried by the DeBoucherville government is no index that the government is safe. The local government of N. B. at the last general election in that province, carried more seats than that, and still were defeated at the polls, and were only continued in power by the celebrated Northumberland deal. I wonder what the purists would say if the DeBoucherville cabinet, being defeated by the free and independent electors, should continue themselves in power by making a Northumberland deal.

FIRE.—The main building of the Peg and Last Factory, owned by J. Lewis & Son, was nearly destroyed by fire last night. The engines in the I. C. R. yard first sounded the alarm, and was quickly followed by the regular fire alarm. The firemen were having a ball at their rooms when the alarm sounded. Three streams of water were soon playing on the burning building, and the fire was confined to the main building, although the machine shop was joined to it. The loss is estimated at \$5,000; insurance, \$3,000.

On the 2nd July, 1888, a fire occurred at this factory, which completely destroyed all the buildings and their contents. Loss at that time was estimated at \$30,000. No insurance. The firm, with the pluck and perseverance

they have already shown, are making arrangements for rebuilding. The contract having been awarded to Mr. Archibald.

MATTERS POLITICAL.—It is reported that when the late Sir John A. Macdonald heard of the Conservative losses at the general election, he said "wait for the action of the courts, we will win them all back."

His prophecy, so to speak, has been in a large measure fulfilled, the courts have decided against the self-styled party of purity, and the contingencies are by their votes sustaining the action of the courts. After looking at the record we must come to the conclusion that there is something wrong in the state of Denmark.

The Conservatives to date have captured ten seats, or twenty on a division, and, if this continues, there will be very few left to turn the rascals out.

The Liberals have won one seat, Richelieu, where the baneful influence of the celebrated McGreevy was used against his former associates, and in favor of his new allies and sympathizers. It is now admitted that the victory in Richelieu did the reform party more harm than good, because it would appear that they were prepared to use for their own glorification means that the Conservatives had discarded as unworthy of them or their cause. Among the fallen in the fight, the names Ananias Cameron and Hyman, of beer and pickled pigs' feet notoriety, stand forth more prominently before the public than their fellows. What is the matter in Denmark? Can it be that the great Liberal party of Canada is tottering to its fall, or has the party fallen into the hands of men unworthy to lead it? Men that preach purity, but do not practice it; that denounce hypocrisy, but at the same time practice it?

If the party would abandon their unpatriotic policy, and cease crying blue ruin the state of Denmark might be cleansed. They must have come to the conclusion ere this that there is a chance for this Canada of ours to flourish and prosper without unrestricted reciprocity, and its natural corollary, annexation, partial or complete. There is no doubt that people of Canada, and particularly Ontario, still have a warm and tender feeling for true Liberalism, this is proved by the large majorities Mr. Mowatt's candidates receive, the latest instance of which is afforded by Kingston and North Renfrew. Extremists may choose to speak sarcastically of the result of the bye-elections, and attribute it to corruption and all kind of things, but the fact is patent that at present the Canadian electors from the Atlantic to the Pacific will have none of them.

FIRE INSURANCE.—Mr. J. M. Upham Bliss has been appointed agent of the Atlantic Fire Insurance Company, of London, England, and is prepared to accept fire risks at the current rates in this staunch old English company.

Mr. Bliss has also an agency for the Norwich and Lancashire Accident Company. The Norwich and Lancashire numbers among its Dominion patrons the Hon. Sir S. L. Tilley, C. B. K. G. M. G., Hon. Geo. W. Allen, and the Hon. Mr. Patterson, secretary of state. Policies in this company cover all kinds of bodily injury caused by external, violent and accidental means. Are non-forefeitable on account of any change of occupation.

Also, Mutual Accident Association, limited. Capital, £100,000. Plate glass insured against accident in the above staunch company.

Mr. Bliss is also agent for the Federal Life, a Canadian company. Guaranteed capital, \$700,000. Deposited with the Dominion government, \$57,000.

Heman's popular plan of renewable term insurance by mortuary premiums. Mr. Heman devised this plan with a view of affording life insurance at actual cost, and it has been successful, having brought life insurance within the reach of many heretofore unable to carry it, and having answered the wants of those desiring simple life insurance at a low cost, and, at the same time on a safe basis.

Truro, March 2, 1892. B.

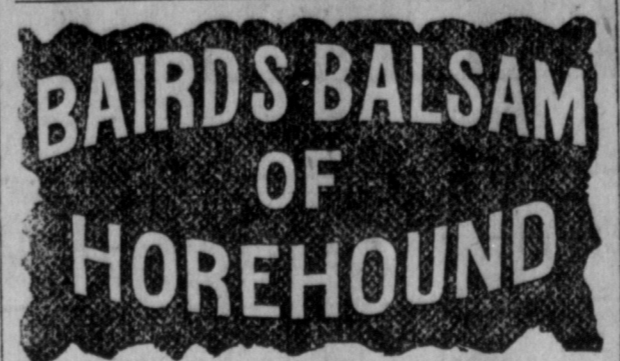

Do not wear impermeable and tight-fitting hats that constrict the blood-vessels of the scalp. Use Hall's Hair Renewer occasionally, and you will not be bald.

We've heard of a woman who said she'd walk five miles to get a bottle of Dr. Pierce's Favorite Prescription if she could not get it without. That woman had tried it. And it's a medicine which makes itself felt in toning up the system and correcting irregularities as soon as its use is begun. Go to your drug store, pay a dollar, get a bottle and try it—try a second, a third if necessary. Before the third one's been taken you'll know that there's a remedy to help you. Then you'll keep on, and a cure'll come. But if you shouldn't feel the help, should be disappointed in the results—you'll find a guarantee printed on the bottle-wrapper that'll get your money back for you.

How many women are there who'd rather have the money than health? And "Favorite Prescription" produces health. Wonder is that there's a woman willing to suffer when there's a guaranteed remedy in the nearest drug store.

Dr. Pierce's Pellets regulate the Stomach, Liver and Bowels. Mild and effective.

When you buy your spring medicine you should get the best, and that is Hood's Sarsaparilla. It thoroughly purifies the blood.
