

they came to the style. They were indulging in a parliamentary trick to induce the government to appear, by negating their amendment to be declaring itself in favor of direct taxation, which the paragraph did not necessarily imply.

Mr. Hanington—Don't you intend direct taxation?

Hon. Mr. Blair—The hon. member has no right to be informed of the intentions of the government at the present time, and he was unwilling to allow the government to tell the House just what its intentions were.

Mr. McGeown attacked the government and was replied to by Hon. Mr. Tweedie. Messrs. Hibbard, Rynn, Atkinson and others continued the discussion until two o'clock this morning, when the House divided, 13 to 21 against the amendment. The address then passed and the House adjourned.

The vote was: Yeas—Hanington, Stocton, Melanson, Turner, Phinney, Alward, Atkinson, Lewis, Smith, Rouke, McKeown, Shaw, Perley—13. Nays—Blair, Mitchell, Ryan, Pugsley, Tweedie, Labilliois, Wilson, Hibbard, Palmer, Douglas, Ketchum, Porter, O'Brien, Anderson, Legerre, McQueen, Colter, Porrier, Russell, Therault, Harrison—21. Burchill and Powell paired.

FREDERICTON, March 7.

A resolution passed that a committee of seven be appointed to consider and report on the question of changing the system of local expenditures of bye-road grants.

Phinney gave notice of a motion for a return giving particulars of the \$4,000 advance to the Central Railway Co.

Burchill gave notice of a motion that maritime union is desirable and would be in the public interests.

#### For Young or Old.

GENTLEMEN.—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B. B. B. with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old.

March 7, 1892.—We have had the largest snowstorm of the season here during the past week. The clerk of the weather was evidently in a generous mood, and supplied us liberally with samples of his stock in trade. It was rather unfortunate that the first call for the new fire engine was made when the storm was at its fiercest. The call, albeit sudden and unexpected, received a quick response, and in a very short time the engine was on its way to work, followed by an excited crowd of small fry. A few buckets of water, and the sound of the engine whistle, were sufficient, fortunately, to subdue the flames, for the powerful machine "failed to connect," and a snowbank claimed it for its own before it reached its destination. A set of double harness has been ordered by the fire department, and will probably be a rather useful addition to the furnishing of the engine next time it's called for.

Mr. K. F. Burns, our M. P., left for Ottawa on Wednesday last.

The C. R. R. train did not make the usual trip to Caraquet on Thursday, on account of the storm. She is making regular time now, however.

Miss M. Romeril has opened a kindergarten school, and has a goodly number of little pupils.

Mr. John W. Lowe, of Amherst, is in town to-day.

There were no services held either in the Wesleyan or Presbyterian churches yesterday, on account of the absence of the pastors, Revs. Mr. Allan and Mr. Thompson.

Little Miss Lulu Ramsay, who sustained some injury of the face, while coasting with some of her schoolmates last week, is recovering.

Rev. T. F. Barry, rector of the R. C. church, celebrates to-day the twenty-sixth anniversary of his ordination to the priesthood. He held a reception at the rectory, which was attended by many of his friends, both of his own congregation and of other denominations. There were a number of clergymen from the districts present.

Our merchants are beginning to open up spring importations, and already some splendid lines of goods are displayed on their counters. The outlook for a good season's trade is very bright.

#### A SARATOGA CO. MIRACLE.

HELPLESS FOR YEARS AND EXCLUDED FROM HOSPITALS AS INCURABLE.

The Remarkable Experience of Chas. Quant as Investigated by an Albany (N. Y.) Journal Reporter—A Story of Surpassing Interest.

[Albany, N. Y. Journal, March 4th.]

SARATOGA, March 4th.—For some time past there have been reports here and elsewhere in Saratoga county of a most remarkable—indeed, so remarkable as to be miraculous—cure of a most severe case of locomotor ataxia, or creeping paralysis, simply by the use of a popular remedy known as "Pink Pills for Pale People," prepared and put up by the Dr. Williams' Medicine Company, Morriston, N. Y. and Brockville, Ont. The story was to the effect that Mr. Chas. A. Quant, of Galway, who for the last six or eight years has been a great sufferer from creeping paralysis and its attendant ills, and who had become utterly powerless of all self-help, had, by the use of a few boxes of the Pink Pills for Pale People, been so fully restored to health as to be able to walk about the street without the aid of crutches. The fame of this wonderful, miraculous cure was so great that the Evening Journal reporter thought it worth his while to go to Galway to call on Mr. Quant, to learn from his lips, and from the observation and testimony of his neighbors, if his alleged cure was a fact or only an unfounded rumor. And so, he drove to Galway and spent a day and a night there in visiting Mr. Quant, getting his story and interviewing his neighbors and fellow-townsmen. It may be proper to say that Galway is a pretty little village of about 400 people, delightfully located near the centre of the town of Galway, in Saratoga county, and about 17 miles from Saratoga Springs. Upon inquiry, the residence of Mr. Charles A. Quant was easily found, for everybody seemed to know him, speak well of him and to be overflowing with surprise and satisfaction at his wonderful cure and restoration to the activities of enterprising citizenship, for Mr. Quant was born in Galway and had spent most of his life there. Mr. Quant was found at his pretty home, on a pleasant street nearly opposite the academy. In response to a knock at the door it was opened by a man who, in reply to an inquiry if Mr. Quant lived there and was at home, said: "I am Mr. Quant. Will you come in?"

After a little general and preliminary conversation, and after he had been apprised of the object for which the Journal reporter had called upon him, he, at request, told the story of himself and of his sickness and terrible sufferings, and of the ineffectual treatment he had had and of his final cure by the use of Dr. Williams' Pink Pills for Pale People, and cheerfully gave assent to its use for publication. He said: "My name is Charles A. Quant. I am 37 years old. I was born in the village of Galway, and, excepting while traveling on business and a little while in Amsterdam, have spent my whole life there. My wife is a native of Ontario. Up to about eight years ago I had never been sick and was then in perfect health. I was fully six feet tall, weighed 180 pounds and was very strong. For 12 years I was a traveling salesman for a piano and organ company and had to do, or at least did do, a great deal of heavy lifting, got my meals very irregularly and slept in enough 'spare beds' in country houses to freeze any ordinary man to death, or at least give him the rheumatism. About eight years ago I began to feel distress in my stomach and consulted several doctors about it. They all said it was dyspepsia, and for dyspepsia I was treated by various doctors in different places, and took all the patent medicines I could hear of that claimed to be a cure for dyspepsia. But I continued to grow gradually worse for four years. Then I began to have pain in my back and legs and became conscious that my legs were getting weak and my step unsteady, and then I staggered when I walked. Having received no benefit from the use of patent medicines, and feeling that I was constantly growing worse, I then, upon advice, began the use of electric belts, pads and all the many different kinds of electric appliances I could hear of, and spent hundreds of dollars for them, but they did me no good. (Here Mr. Quant showed the Journal reporter an electric suit of underwear for which he paid \$124.) In the fall of 1888 the doctors advised a change of climate, so I went to Atlanta, Ga., and acted as agent for the Estey Organ Company. While there I took a thorough electric treatment, but it only seemed to aggravate my disease, and the only relief I could get from the sharp and distressing pains was to take morphine. The pain was so intense at times that it seemed as though I could not stand it and I almost longed for death as the only certain relief. In September of 1888 my legs gave out entirely and my left eye was drawn to one side, so that I had double sight and was dizzy. My trouble so affected my whole nervous system that I had to give up business. Then I returned to New York and went to the Roosevelt hospital, where for four months I was treated by specialists and they pronounced my case locomotor ataxia and incurable. After I had been under treatment by Prof. Starr and Dr. Ware for four months, they told me they had

## "August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear water. Sometimes a deadly Sickness at the Stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. McHenry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. Signed, JOHN D. COX.

G. G. GREEN, Sole Manufacturer, Woodbury, New Jersey, U. S. A.

done all they could for me. Then I went to the New York hospital on Fifteenth street, where, upon examination, they said I was incurable and would not take me in. At the Presbyterian hospital they examined me and told me the same thing. In March, 1890, I was taken to St. Peter's hospital in Albany, where Prof. H. H. Hun frankly told my wife my case was hopeless; that he could do nothing for me and that she had better take me back home and save my money. But I wanted to make a trial of Prof. Hun's famous skill and I remained under his treatment for nine weeks, but secured no benefit. All this time I had been growing worse. I had become entirely paralyzed from my waist down and had partly lost control of my hands. The pain was terrible; my legs felt as though they were freezing and my stomach would not retain food, and I fell away to 120 pounds. In the Albany hospital they put 17 big burns on my back one day with red hot irons and after a few days they put 14 more burns on and treated me with electricity, but I got worse rather than better; lost control of my bowels and water, and upon advice of the doctor, who said there was no hope for me, I was brought home, where it was thought that death would soon come to relieve me of my sufferings. Last September, while in this helpless and suffering condition, a friend of mine in Hamilton, Ont., called my attention to the statement of one John Marshall, whose case has been similar to my own, and who had been cured by the use of Dr. Williams' Pink Pills for Pale People.

In this case Mr. Marshall, who is a prominent member of the Royal Templars of Temperance, had after four years of constant treatment by the most eminent Canadian physicians been pronounced incurable, and was paid the \$1000 total disability claim allowed by the order in such cases. Some months after Mr. Marshall began a course of treatment with Dr. Williams' Pink Pills, and after taking some 15 boxes was fully restored to health.

I thought I would try them and my wife sent for two boxes of the pills and I took them according to the directions given on the wrapper on each box. For the first few days the cold baths were pretty severe, as I was so very weak, but I continued to follow the instructions as to taking the pills and treatment, and even before I had used up the two boxes of pills I began to feel beneficial effects from them. My pains were not so bad; I felt warmer; my head felt better, my food began to relish and agree with me; I could straighten up; the feeling began to come back into my limbs; I began to be able to get about on crutches; my eye came back again as good as ever, and now, after the use of eight boxes of pills—at a cost of only \$4.00—see—I can walk with the help of a cane only, walk all about the house and yard, can saw wood, and on pleasant days I walk down town. My stomach trouble is gone; I have gained 10 pounds; I feel like a new man, and when the spring opens I expect to be able to renew my organ and piano agency. I cannot speak in too high terms of Dr. Williams' Pink Pills for Pale People, as I know they saved my life after all the doctors had given me up as incurable.

Other citizens of Galway, seeing the wonderful cure of Mr. Quant by the Pink Pills for Pale People, are using them. Frederick Sexton, a sufferer from rheumatism, said he was finding great benefit from their use, and Mr. Schultz, who had suffered from chronic dysentery for years, said he had taken two boxes of the pills and was already cured.

Mr. Quant had also tried Faith cure, with experts of that treatment in Albany and Greenville, S. C., but with no beneficial results.

A number of the more prominent citizens of Galway, as Rev. C. E. Herbert, of the Presbyterian church; Prof. James E. Kelly, principal of the academy; John P. and Harvey Crouch, and Frank and Edward Willard, merchants, and many others to whom Mr. Quant and his so

miraculous cure by the use of Dr. Williams' Pink Pills for Pale People, are well known, were pleased to have the opportunity of bearing testimony to the high character of Mr. Quant, and of verifying the story of his recovery from the terrible affliction from which he had for so long a time been a sufferer.

Truly, the duty of the physician is not to save life, but to heal disease.

The remarkable results from the use of Dr. Williams' Pink Pills in the case of Mr. Quant, induced the reporter to make further inquiries concerning them, and he ascertained that they are not a patent medicine in the sense in which that term is generally used, but a highly scientific preparation, the result of years of study and careful experiment. They have no rival as a blood builder and nerve restorer and have met with unparalleled success in the treatment of such diseases as paralysis, rheumatism, sciatica, St. Vitus' dance, palpitation of the heart, that tired feeling which affects so many, and all diseases depending upon a watery condition of the blood or shattered nerves.

Dr. Williams' Pink Pills are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excess of whatever nature.

On further inquiry the writer found that these pills are manufactured by The Dr. Williams' Medicine Co., Brockville, Ont., and Morristown, N. Y., and are sold in boxes, (never in bulk by the hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co., from either addresses. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies, or medical treatment.
