## The Cure For

Scrofula was once supposed to be the touch of royalty. To-day, many grateful people know that the "sovereign remedy" is Ayer's Sarsaparilla. This powerful alterative extirpates "the evil" by thoroughly eliminating all thestrumous poison from the blood. Consumption, catarrh, and various other physical as well as mental maladies, have their origin in

### SCROFULA

When hereditary, this disease manifests itself in childhood by glandular swellings, running sores, swollen joints, and general feebleness of body. Administer Ayer's Sarsaparilla on appearance of the first symptoms. "My little girl was troubled with a painful scrofulous swelling under one of her arms. The physician being unable to effect a cure, I gave her one bottle of

### Who He Is.

When one talks of hereditaments, misprisions and indentures, Of chattels and of mortgages, of choses and debentures. Of assumpsit, debt and covenant, of trespass and attainders, Of writs and habeas corpus, of revisions and remainders, Of attaching and conveyancing, of signing and endorsing, Of femes, both sole and covert, separating and divorcing, Of words of twenty letters, which you'd think would break his jaw, You will then know that the fellow's just began to study law.

### Our Dreams Which Often Make Us Awake With a Tired Feeling.

Perhaps the most practical lesson taught at the Royal Institution lecture, says the London Telegraph, was one which may assist us to know, which of our dreams are signs that something is wrong with our bodily organization. As a rule said the learned lecturer, it is best not to dream at all; dreamlessness is usually a sign of good all-round health. A child's dreams are invariably a sign of disturbed health, and should be regarded with anxiety. For adults it is a good thing to know that we may be sure that our brains are being overstrained when our nightly dreams relate to the events of the day; and if we actually seem in our sleep to be continuing our daily work, this is a danger signal we must never disregard.

When we feel worried in the morning very likely it results from dreams that have been forgotten, and then the best thing to do is to take exercise. Without coming to any decided opinion as to the supernatural meanings attributed to dreams, we can at least profit by these practical hints. Considered as products of bad digestion, dreams cannot be expected to tell us anything of a useful character, or to supply us with any warning, except one directed against the continuance of depraved dietetic habits.

If it is true that the sleep of health is dreamless, then it becomes difficult to believe that the only visions in sleep vouchsafed should be to victims of indigestion. It is always a puzzle for persons of an imaginative turn of mind to understand how the future, which does not yet exist, can be supposed to have any effect on the present; and it must be admitted that dreams of warning are much harder to believe than the "brain waves" and "thought transferences" which members of the Psychical Research Society take as matters quite in the ordinary course of things.

There is a considerable mass of testimony in favor of the power of the mind to produce results at an enormous distance by some system of psychical telegraphy, of which nobody has yet discovered the secret. A man who goes to sleep and dreams that his brother is being killed by a wild tribe in Central Africa, and who afterwards hears that he did meet with that fate at the precise time at which the vision occurred, need not fly to any supernatural explanation to the phenomenon.

It is quite different when a dream tells of something that is going to happen in a few months time. In the latter case most people will prefer to join with science in attributing the fact either to the law of coincidence or to a simple delusion. We must do science the justice to admit that, if she increases the gloominess of life in some directions, as by her doctrine of the struggle for existence, she decreases it in other respects, one of which is by aiding in the gradual banishment of any confidence in visions and omens and "weirdness" generally.

### True.

"The patent medicine man usually has the good sense to confine himself to ordinary everyday diseases. He leaves to the physician diseases from which there is an immediate danger to life, such as violent fevers. He does this, because in the treatment of such cases, there are other elements of importance besides medicine, such as proper dieting, good nursing, and a knowledge of the patient's strength and so on. Where there is no absolute danger to life, where the disease is one which the patient can diagnose for himself or some physician has already determined, the patent medicine maker says fearlessly: 'I have a preparation which is better than any other known and which will cure you.' In nine cases out of ten his statement is true."—N. Y. World Interview. It is absolutely true as regards St. Jacob's Oil, the great remedy for pain.

F. A. DYKEMAN, Commercial Traveler, St. John: "I have been troubled with dyspepsia and bilious attacks for some time and have tried many things for relief. Five doses of your K. D. C. have done more for me than all other medicines I have tried. My mother has been a sufferer for twenty years. I procured for her some of your K. D. C. and after taking only a small quantity she enjoys better health than she has had for many years."

An excited German rushed into police station No. 4 yesterday afternoon and demanded of Inspector Breckenrid that he be given protection against bed bugs at his boarding house on Lewis street. He showed the astonished official a paper containing the remains of a half dozen choice specimens of the insect, which, he said, had kept him awake for two nights and had caused him to lose a day's work for want of sleep.—Toronto Empire.

### ALL SORTS.

McLean's Vegetable Worm Syrup is original safe, pleasant and effectual remedy.

The authorities of Meran, in the Austrian Tyrol, have forbidden the outdoor wearing of long trains by women.

No other Sarsaparilla absolutely cures all diseases caused by impure blood and it builds up the whole system.

The will of the late Hon. Alex. MacKenzie disposes of an estate of the total value of \$53,000. The widow is to receive \$1,500 per annum.

Every mother should see that their children get McLean's Worm Syrup when needed.

"Do you use night caps?" asked his sweet-heart. "Yes, 'love,'" he replied, "With a little sugar," and she couldn't think what he meant.

School teacher.—"Johnny, what is the second letter of the alphabet?" Johnny "Don't know." "What flies about the garden?" "When?" "In the spring." "Oh, I know—mother after the hens."

Some laugh at school remedies. Do Modern ones equal Johnson's Anodyne Liniment?

"Is this a healthy portion of the state?" asked a traveller in Arkansas. "Well, I should say it is. There has been nobody hung about here for three months."

The use of Hall's Hair Renewer promotes the growth of the hair and restores its natural color and beauty, frees the scalp of dandruff, tetter and all impurities.

Dr. Griffin—I must say the world is very ungrateful toward our profession. How seldom does one see a public memorial erected to a doctor? Mrs. Golightly—How seldom? Oh, doctor, think of our cemeteries!

"Excuse me, George, but when I saw you a year ago your face was covered with pimples; it seems to be all right now." "Yes, sir; because I stuck to Ayer's Sarsaparilla, the greatest blood medicine in the world. I was never so well in my life as I am now."

"I think I have the most tender-hearted husband in the world," remarked Mrs. Glim. "He can't bear to beat the children, even when they need it ever so bad." "That's nothing," replied Mrs. Glanders, "my husband is so tender-hearted I can't get him to beat the carpet."

"So you enjoyed your visit to the Zoological gardens did you?" inquired a young man of his adored one's little sister. "Oh, yes! And do you know we saw a camel there that screwed its mouth and eyes around awfully; and sister said that it looked exactly like you when you are reciting poetry at evening parties."

"I sutt'y do hate to hear things mispronounced," said Uncle Jasper. Whose been a mispronouncing?" asked his wife. "Jenkins Walker. He was talking 'bout de convention, an' said 'enthusenasm' twice 'stead of 'enthusiasm.'"—Washington Star.

Nova Scotia lobsters are bringing good prices in London. Mr. McGray sent some samples of live lobsters to the Queen through Gen. Laurier, and received the following acknowledgement from the Queen's private secretary:

WINDSOR CASTLE, May, 20, 1892.  
DEAR GENERAL:—I am glad to inform you that the lobsters arrived to-day for the Queen, and they will be served this evening at Her Majesty's table.

Yours faithfully,  
J. C. CAVEL.

United States Judge Tourgee made the prediction at Minneapolis on Monday that, "If there is not a marked change in the attitude of the country towards the colored race, we shall have within the next 10 years a massacre unparalleled since the French revolution. I am amazed that the negro has been as patient under the persecution he has had to endure." This prediction of Judge Tourgee has caused a sensation.

Taking experience as the test there can be no question about the superior qualities of the "Myrtle Navy" tobacco. From the first year of its manufacture the demand for it has steadily grown. Even in the years which were marked by our business depression, there was no pause in the increase of the sale of it. In the dull years of 1876-'77 and '78, the sales of it were vastly greater than in the prosperous year 1873.
