Fishing Tackle—Wholesale and Retail.
Sportsmen are enquiring where is the best place to purchase fishing tackle. The question is easily answered—call upon or correspond with R. O'Shaughnessy, St. John, N. B.

Mr. O'Shaughnessy's combination rod is unsurpassed. We have seen numerous letters testifying to the excellence of this style of rod. His make of flies never fail to give satisfaction. He has a splendid assortment of baskets, reels, landing nets, &c. He keeps also a fine stock of trunks, valises, satchels equal to any in the market. Read his advertisement elsewhere.

—In the case of G. W. Robertson vs. Joseph Landry and C. Landry, on review, Judge Landry has ordered that the judgment entered for plaintiff for \$28 be set aside and a judgment entered for defendants for costs with costs of review. It will be remembered plaintiff sued defendants some time ago, before Commissioner John T. Caie, for the amount of a promissory note; defendants paid \$18.00 into court, which plaintiff refused to accept; a jury was empanelled, and a verdict rendered for the plaintiff for the full amount of the note. Judge Landry's decision sets aside the verdict.

—A prominent Halifax gentleman who visited Fredericton this week, thus gives his impression of our law-makers. There are more members in the New Brunswick House than in the Nova Scotia Assembly, and consequently a large number of "back numbers"—men who appear to think that legislation is their heaven inspired calling, without, however, having the faintest qualification for the business. But I must admit that in one respect the contrast between the two legislatures is in favor of your own. In debating talent I think it has the advantage. Such speakers as Blair, Stockton, Powell, Finlay (no doubt our correspondent refers to Mr. Phinney—Ed.), Pugsley, Alward, Tweedie and Mitchell cannot be duplicated by a like number of orators in the N. S. assembly, though Longley, Fielding and Cahon would rank with the average of them no doubt.—Progress.

—New Glasgow is a progressive town. Its water system cost \$100,000, but is now self-sustaining. The council lately asked the ratepayers for \$50,000 for sewers, and they voted 75,000.

—The Manitoba government introduced its redistribution bill in the legislature last week. The representation is increased from 38 to 40. It is based entirely on the system of representation by population.

—Wm. Forbes, Fred McDougall, Gordon Holloran and George and James Amereaux spent the greater part of last week at Kouchibouguac Beach shooting wild geese. They brought home twenty-six geese and a number of ducks.

—The new hotel project at Dorchester has reached the stage of calling for tenders, and advertisements to that end have been inserted in the papers. Much credit is due to Messrs. Palmer, Wilbur, and others for the energy they have displayed in promoting the enterprise.

—John Parchat, son of Charles Parchat of Harcourt, was killed last week while working on a brow of logs of Coy Brook Stream, a branch of Lake Stream, Chipman, Queens county. The body was taken to Harcourt for burial. Deceased was twenty years old.

—The barque C. S. Parnell, 744 tons register, built at Richibucto in 1880 has been sold at Garston for £2,400. She was formerly owned by Henry O'Leary. Six years ago she was wrecked at the mouth of Richibucto harbor, and condemned and sold for the benefit of the underwriters. She was bid in by E. Lantalum & Co., of St. John, who succeeded in getting her off and getting a new register for her. It is said that Captain N. O. Kverndal, of the barque "Codan," the vessel wrecked on the South Beach, Richibucto, last fall, is the purchaser.

—An Ottawa despatch says: The redistribution bill is the general topic of discussion. Among many conservatives there was a feeling that this bill should be held over until the next meeting of parliament. This, however, cannot be done. The constitution is very clear that a redistribution bill must be brought down in the session after the population has been enumerated. Whatever the bill may be, it must come this session; but it is understood that there will be no disturbing changes found in it. As far as possible the present constituencies will be left intact, and this view appears to meet the general approval of members.
