**Chinese News.**

The most common form of putting a man to death in China is taking off his head by the sword, and the extraordinary nerve of the Chinese is shown in this way more than any other. I have seen two men beheaded, one placed before the other. It took three strokes of the sword to kill the first, and while the operation was going on the second knelt down with his neck outstretched waiting his turn. Thinking that the process was slow, he turned to the executioner and asked him if he was going to be much longer with the first. Then, when the executioner came to him, he stretched out his neck again and waited for the blow, which completely severed his head from his body.

**BOAT RACING IN RICHIBUCTO HARBOR ON NEW YEAR'S DAY.**

Henry O'Leary, Jr., and Edward Barnett Win First Money.

A boat race on the Richibucto River on New Year's day, is something previously unheard of in the history of this locality. The extreme mildness of the present season has, however, left our river and harbor entirely free from ice, except along the flats near the shore, and some of our local oarsmen conceived the idea of opening the new year with a rowing contest. A subscription list, under the skillful management of Mr. S. C. Weeks, soon procured the necessary funds, and enabled the committee to offer the following prizes: First, \$25.00; second, \$15.00; and third, \$5.00.

Course, from the railroad wharf, down the river, around the block buoy, and return.

Conditions, two rowers in each boat. The following pairs entered the contest:

- H. O'Leary and Edw. Barnett.
  - John Graham and Wm. Chadwick.
  - R. O'Leary and Michael Long.
  - George Amereaux and D. O'Leary.
  - Robert McKinnon and James Graham.
- The boat rowed by Graham and Chadwick took the lead at the start, and retained it until the buoy was rounded, when H. O'Leary and E. Barnett forged ahead, and kept that position to the finish, Graham and Chadwick a close second, and R. O'Leary and Michael Long third. Sheriff Wheten and Mr. Geo. McInerney acted as judges.

The theory that whisky is necessary in the treatment of pneumonia has received a blow from Dr. Bull, of New York, who discovers that in the New York hospitals 65 per cent. of the pneumonia patients die with alcoholic treatment, while in London at the Object Lesson temperance hospital, only five per cent. die.

The presents were beautiful and numerous, and will materially help them in furnishing their home at 34 Mason St., Peabody, and if good wishes will bring prosperity and happiness they are destined to a long life of unalloyed pleasure.
