Pokeshaw Notes.

March 15th.-Seeing that there are notes from all along the coast, and as your paper is drawn by almost every resmight not be amiss from here either.

This has been a glorious winter down tioning, a large amount of lumber of every description has been got out, and the Pokeshaw boys have got their share of it,

Business has been about as usual this spring and a good demand for fish, things are beginning to assume a much livelier | Toronto, Ont.

Mr. Jos. Poirier, M. P. P., intends to can all the fish he can get this year, and is giving out traps to every one that wants them, he has several crowds of men making traps, nets, &c.

Mr. J. E. Baldwin is also going to have his mackerel traps out again.

John Windsor, of Petit Rocher, and several others, are also going at the fishing again this summer.

Mr. J. E. Sullivan has been making some good improvements on the interior of his store, which adds greatly to its appearance. He has a full supply of spring goods in now, and would like a call from every one.

Mr. Thomas W. Reardon's grist mill, under the supervision of Mr. Ellis, has been doing first-class work in turning out the best of flour.

F. H. Foley, Michael Foley, Barth Whaelton, although they commenced lately, have been rushing the woods business. They have out about 1000 sleepers, with about the same amount of posts and

Robert Cushing has also got some fine piles, Simon Sisk and Dan J Sisk have done immense.

Timothy and Thomas Coughlan have also done quite a stroke of lumbering this winter. Timmy often takes a trip up over Pokeshaw hill. It is reported he means business after Lent.

The smiling and familiar face of Bernard Sisk is once more to be seen around Pokeshaw, having returned home from California, where he says times are good, that is, in his line, which is railroading. Barney says he is not going to do any thing for the spring but "mash" the fair

Aleck P. Foley arrived home from the the shiretown, where he was spending his vacation. He is looking well and hearty as usual. He says he is going back to Ontario about April 1st.

Inspector Mersereau was here inspecting our school on the 11th. He praised Miss Figzgerald's teaching highly, and said the pupils had improved wonderfully since his last visit. I think Miss Fitzgerald deserves all the praise she received as she is a model teacher in every sense of the word. In Miss Hannah Ahern's school, Upper Pokeshaw, he also said she had done excellent work.

There are some very promising threeyear-olds in Pokeshaw this spring, some of them from pretty good stock. A few of them are pretty speedy already, but they're "not in it" when Mike Foley gets round with his trotter, "Greased Elec-

J. J. Ahern is improving somewhat from a severe fall which he received about three weeks ago, in which he injured his hip.

A flock of wild geese passed over here on the 11th, going north. It is something remarkable to see them about here so early in the season.

Mr. Day, engineer, took a survey for the breakwater at Big Pokeshaw. He says it is a splendid place for one.

R. J. Salter expects to have his lobster factory running in full bloom as soon as

About twenty-five of the young folk gathered at Timmy Coughlan's on Sunday evening, where a few very enjoyable hours were passed in playing different games, the "blind postman" causing the most merriment. When leaving they told your correspondent to give their best wishes to THE REVIEW, and wished it every success. Yours,

It Leads the Leaders.

The foremost medicine of the day, Burcompound possessing perfect regulating will be no trouble in this direction. The powers over all the organs of the system habit is more easily prevented than cured. and controlling their secretions. It so purifies the blood that it cures all blood humors and diseases from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulat- Hood's Sarsaparilla fairly and according to ing, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, render it unequalled as a cure for all diseases of the skin. From one to two bottles will cure boils, pimples, blotches nettle rash, scurf, tetter, and all the simple forms of skin disease. From two to four bottles will cure salt rheum or eczema, shingles, erysipelas, ulcers, abcesses, running sores and all skin eruptions. It is noticeable that sufferers from skin diseases are nearly always aggravated by in-tolerable itching, but this quickly subsides on the removal of the disease by B. B. B. Passing on to graver yet prevalent diseases, such as scrofulous swellings, humors and scrofula, we have undoubted proof know," said James. "Well, suppose I that from three to six bottles used inter- gave four apples to Harry, eight apples to nally, and by outward application (dilut- Charlie, and one to you, what would it ed if the skin is broken) to the affected be?" "A cold day for me," whimpered parts, will effect a cure. The great mission of B. B. is to regulate the liver, James.

kidneys, bowels and blood, to correct acidity and wrong action of the stomach and to open the sluice-ways of the system to carry off all clogged and impure secretions allowing nature thus to aid recovery and ident in Pokeshaw, I think a few notes remove without fail bad blood, liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disorder of here, only one or two storms worth men- the liver, kidneys, bowels, stomach and

We guarantee every bottle of B. B B. Should any person be dissatisfied after using the first bottle we will refund the money on application, personally or by letter. We will also be glad to send testimonials and information proving the efwinter, but with every prospect of an early | fects of B. B. in the above-named diseases on application to T. MILBURN & Co.,

Campbellton Notes.

Mr. Maxwell Mowatt, of New Westminster, B. C., who has recently returned from a trip to England, is spending a few days in town with his father, John Mowat, Esq., before leaving for the west.

Miss Florrie A Murray is visiting friends in St. John and Yarmouth.

Mrs. George Moffat and Miss Hamilton, of Dalhousie, spent a few days in town

Miss Ellie Caldwell, of Dalhousie, is in town the guest of her cousin Miss Kerr. Miss Ruth Chandler spent several days

in Dalhousie last week, the guest of Miss Barberie at "The Birches." Rumor says there is to be another Carnival soon, under the auspices of the C. C. Club. It is hoped that the weather will

continue cold, and that it will prove as great a success as the last. Rev. James Simonds, rector of Dal-

housie, spent Monday in town. John Barberie, registrar of deeds, was

also in town on Monday. MOLLY BAWN.

Bass River Fragments.

Isn't it great crust now! is the common every day salute at present.

Mr. Editor, if you happen to see any solitary individuals, very early in the morning, crossing over fields, and hurriedly cuttting around corners, do not be mystified; it is only some of the young men taking a constitutional before break-

La grippe has got in its work here as elsewhere, but seems to be dying away, although, as usual, it has left many delicate people behind it, and not a few empty places in the family circle.

We regret to state that Isaac W Murphy, teacher, has been confined to the house nearly all winter from ear and eye trouble. In December, he got his right ear injured from the explosion of a firecracker. The ear gathered, producing deafness in both ears. The inflammation extended to his eyes, causing the most intense suffering. He is about to consult a specialist on the matter.

Fires seem to be one of the orders of the day. Mr. James Marsh's house was burned to the ground on the 15th inst. The fire took place about 1 o'clock, p. m., and as there was a strong breeze the flames spread rapidly. But by the prompt assistance and energetic efforts of their neighbors, the Messrs Robinson, all the moveables down stairs were saved. The origin of the fire is unknown, and as Mr. Marsh had just completed the building quite lately, the loss is quite heavy. understand that it was partly covered by a policy in J. McC Snow's office.

Fowls Eating Feathers.

Every case of depraved appetite in an animal is due to some craving induced by a want of sufficient variety of food. Fowls must necessarily be supplied with a large quantity of nitrogenous matter and some sulphur to provide the materials for their feathers and eggs, which contain a large proportion of these substances. If this nutriment is not supplied the birds are uneasy and the health will fail until they cannot produce the plumage or the eggs. Both of these necessary elements of nutrition are supplied by fresh meat, and hence fowls are instinctively consumers of small animals and insects. When they cannot procure a supply of these they must be furnished with a substitute. In practice it is found that fowls that have a regular supply of animal matter do not exhibit this habit of eating feathers or eggs. If a regular feeding of fresh bones with meat on them and finely broken is dock Blood Bitters, is a purely vegetable given from the beginning of winter there

Have you seen Hood's Rainy Day and Balloon Puzzle? For particulars send to C. I. Hood & Co., Lowell, Mass.

Hood's Pills cure liver ills, jaundice, biliousness, sick headache, constipation.

"James, how much is four plus eight plus one?" asked the teacher. "Don't

Officer A. H. Braley of the Fall River Police

Is highly gratified with Hood's Sarsaparilla. He was badly run down, had no appetite. what he did eat caused distress and he felt tired all the time. A few bottles of Hood's Sarsaparilla effected a marvellous change. The distress in the stomach is entirely gone, he feels like a new man, and can eat anything with old-time relish. For all of which

cordially recomcordially recommends Hood's Sarsaparilla. It Sarsaparilla. It is very important that during the months of March April May the blood should be thoroughly purified and the system be given strength to withstand the debilitating effect of the changing season. For this purpose Hood's Sarsaparilla possesses peculiar merit

he thanks and

and it is the Best Spring Medicine. The following, just received, demonstrates its wonderful bloodpurifying powers:

"C. I. Hood & Co., Lowell, Mass.: "Gentlemen: I have had salt rheum for a number of years, and for the past year one of my legs, from the knee down, has been broken out very badly. I took blood medicine for a long time with no good results, and was at one time

obliged to walk with crutches. I finally concluded to try Hood's Sarsaparilla, and before I had taken one bottle the improvement was so marked that I continued until I had taken three bottles, and am now better than I have been in years. The Inflammation has all left my leg and it is entirely healed. I have had such benefit from

Hood's Sarsaparilla

that I concluded to write this voluntary state ment." F. J. TEMPLE, Ridgeway, Mich. HOOD'S PILLS acteasily, promptly and efficiently on the liver and bowels. Best dinner pill.
