

**Dalhousie.**

DALHOUSIE, March 14.—Our North Shore people are all making preparations for spring, which from present indications we shall have early. The three new mills which have been put up since last fall, are very well advanced, and will be ready to commence the summer's work about the first of May. Mr. Moffat's, the largest of three, is built on the site of the old one, which was burned last fall. The machinery in it was taken from the O'Leary mill, at Mission Point, and the capacity will be above that of the old mill. Mr. Moffat makes a specialty of deals, which are all shipped to the old country. Mr. Wallace is going in for a shingle mill, which is getting to be quite an industry on the north shore. The third, Messrs. T. Reid & Son's, is being built about a mile above the town. Mr. Reid is removing the machinery from his Eel River mill to the new one, and will continue his old business, sash and door factory and cedar shingles. Mr. Nadeau's shingle mill has been running all winter, and makes the third shingle mill in our little town. All this promises to make a very good season here next summer, which is very much needed, as the winter has been very dull.

Owing to the very mild weather, the ice is rapidly assuming a liquid shape, and our friends in Bonaventure who have any hauling, better do it pretty soon or they will get left. They have been so excited over the elections lately that they have let all other matters rest, but they had better get around now, for Mercier will not transport their produce across the river when the ice is gone.

The hotel business is getting a little brisker than it has been, and they deserve it too, for the Dalhousie hotels, are a credit to the North Shore. Murphy's is too well and favorably known to require description and occupies a commanding position on the Bay front. Wm. McIntyre, the genial proprietor of the Chaleur, keeps a first class house near the railroad station and steamboat landing. It is inconveniently situated for commercial travellers and business men, and all classes are well taken care of. Besides its mills and hotels Dalhousie has many natural advantages, it has one of the finest harbors in Canada, a delightful climate and is surrounded by some of the most picturesque scenery in the Dominion.

The many friends of Mrs. Wm. McIntyre will be glad to hear that she is rapidly recovering after having been sick for nearly six months.

Sheriff Philips who has also been in very delicate health since last fall, and has been confined to the house for the last two weeks is improving and we hope to see him among us in a short time.

The sick list has been unusually large this winter, but we hope that the coming of spring will give the doctors a rest.

Rex.

**A Boy's Idea of Breath.**

A little boy in the North Side Public School recently handed in to the teacher the following composition on "Our Breath."

"Our breath is made of air. If it were not for our breath we would die. The breath keeps going through our liver, our lights and our lungs. Boys shut up in a room all day should not breathe; they should wait till they get out doors. Air in a room has carbonic acid in it, and carbonic acid is poisoner than mad dogs.

Once some men were shut up in a black hole in India, carbonic acid got into that there hole, and afore morning nearly every one of them was dead. Girls wear corsets and squeeze their diaphragms too much. Girls cannot run and holler like boys, cause their diaphragms are squeezed. If I was a girl I would just run and holler so my diaphragm would grow.

That's all on breath."—Minneapolis Journal.

**Charges Against the Blair Government.**

Fredericton Gleaner, March 9: 1. Through manipulations of Mr. Blair and a colleague in the Government a New Brunswick capitalist was forced to contribute \$2,000 to a local election fund to secure within a certain time a certain lot of provincial bonds for the construction of a line of railway in this province.

2. That two members of the present Government pocketed, or enjoyed between them, at least \$10,000 out of the horse importation for which the province was charged \$30,000.

3. That large sums of money charged as having been paid in the construction of Fredericton bridge were in reality paid into the local election funds for the benefit of Blair and Wilson.

4. That large sums charged as having been paid to the Florenceville highway bridge, were also, in reality paid into the election funds.

5. That the syndicate who undertook the construction of the Central Railway did not get the contract till they arranged to pay to Fred. P. Thompson, a relative of Mr. Blair, \$4,000 in cash and \$4,000 in bonds of the company, and \$4,000 in a promissory note.

6. The payment of the Robinson & O'Brien's bill of \$10,000 for bridge extras was made in order to retain Mr. Blair in power; and was made after a distinct declaration that there was no merit in the claim for extras.

7. That Mr Blair was party to an arrangement whereby J. D. Leary was to

receive a contract from the provincial government in consideration of certain sums being contributed to the election funds of St. John and York, and that in accordance with this arrangement a messenger delivered at Mr. Blair's office to Mr. Blair's partner a package of \$5 bills, six inches long, six inches high, and six inches wide.

**Portland, Me.**

Mar. 5.—Last Monday evening several of our N. B. friends assisted at a private assembly of the Drexel club. The Hall in Deering St. was engaged for the purpose, and a delightful evening was spent by all. The Chief Marshal was P. A. Cameron, Benj. J. Holland assistant; Aida, P. F. Crosby, George Foley, Joseph Hanlon, Wm. Holland, C. McIntosh and Joseph L. Ross. There were, we think, about twenty-four or five couples present. Two barges were engaged for the conveyance of the party, and the ride was very much enjoyed. Games were numerous, but dancing was the chief amusement of the evening.

The Grand march commenced at 8.45, led by Percy Cameron and Miss Flaherty. Besides the officers of the club, there were present Messrs. T. Landers, Griffin McCarthy, A. Cameron, J. Foley, McKenna, Mand, J. Garrity, T. Flaherty, F. Flaherty and others. Among the ladies were the Misses Flaherty, Annie, Minnie and Bessie Holland, Bertha McIntosh, Nellie Gibbons, Annie Duthie, Aggie Cameron, Annie Happen, May O'Connor, Annie Gorman, Annie O'Neil, Miss Madden and Miss McDonald. The costumes were pretty and elegant, and the fair wearers all looked charming. A sumptuous repast was served during the evening, and at a seasonable hour the party broke up, and started on the homeward ride, well satisfied with themselves and the world in general.

On Tuesday evening a musicale was given at the residence of Mr. and Mrs. Logan. Needless to say it was much enjoyed. The guests numbered about fifteen or twenty and among these were our friends Miss R. O'Neil, Miss Nellie Monahan, Miss Aggie Ryan, Miss Aggie Chambers, Miss Mary Rainsborough, Miss J. McDonald and Miss Minnie Holland. The gentlemen were B. and Wm. Holland, L. McIntosh, Paul A. Cameron and T. Landers. Mr Logan is an elegant musician and his guests enjoyed his performance to the utmost. Refreshments were served during the evening, and our friends dispersed to their several homes feeling very grateful to their kind host and hostess for a most agreeably spent evening.

The same evening Mr. and Mrs. John J. Lyons entertained a small party of their friends at their home on Monument St. The ladies who assisted were the Misses M. Creighton, Bessie Vancetown, Katie Rainsborough, Flora Pope, Annie Gorman and Annie O'Neil. The gentlemen present were Messrs. Ben Kavanagh, D. McIntosh, H. Clough and Sir J. Jones. Cards and various amusements were indulged in and all spent a very agreeable time. Coffee, cake and ice cream were served. "175" was performed—absent, but in spirit she assisted, we know, and shared in the fun, which we hope will often again be the portion of our N. B. friends here.

**TWIN SISTERS.****Ford's Mills.**

March 10th, 1892.—We have lots of snow here just now, rather much methinks for "some" as they seem to have much difficulty in getting around.

There has been a great deal of sickness this winter some having died.

We are sorry to state that some of the younger members of Thos. McWilliams' children have the measles.

Frankie Stevenson while on a visit with his mother at Thos. McWilliams' has been very sick but I am pleased to note his recovery.

Mrs. James Cail who has been very sick with bronchitis is recovering.

Mr. Joseph Cail is attending court at the shiretown this week.

Thos. McWilliams still has his men in the woods lumbering.

Our school is ably conducted this winter by Mrs. McCormick, and from what we hear she seems to be much thought of by parents and pupils.

Exasperated Woman of the House—I have told you a dozen times I don't want the machine! Sick him, Tige!

Peddler (while the dog is gnawing his leg)—Don't want the machine, ma'am! Pardon me, you haven't yet seen half its good points. It washes the clothes cleaner than any other, and in less than half the time. It never tears off a button. It —

"Good heavens!" Don't you see what the dog is doing?"

"Yes, quite a playful animal. This machine, ma'am, uses less soap, takes up less room—"

"He'll tear you to pieces if you don't go! Run, for mercy's sake! He's tasted blood and I'm afraid I can't make him stop now!"

"I have to put up with such things, and it's in a good cause. This machine is the best that was ever invented. If I can succeed in introducing it into a family I feel that I have done a benevolent act, you can use any kind of water hard or soft, hot or—"

# German Syrup

**A Throat and Lung Specialty.**

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.

"O! O! O! He'll kill you! What is the machine worth?"

"It's worth a million dollars in any family, but I'm selling it for only \$5, and —"

"Here's your money. I'll take it. Tige! Tige! Let go!"

"Let him chew, ma'am—Let him chew. It's a wooden leg. I've got another at home all ready for use when this one is worn out. Looks as if we were going to have rain."—Chicago Tribune.

**Cocagne.**

A very happy event took place on Monday, 29th ult., in which Miss Madeline Bourgeois and Mr. Charles St. Peter were the principals. After the ceremony, which was performed by Father Cormier, the bridal party drove to the house of the groom.

A very sad affair occurred on Sunday, 28th ult., in which Elizabeth, the ten-year-old daughter of Mr. James Hebert, was seized with a fit, and, despite the efforts made to restore her, she never regained consciousness, but died within a few hours.

Mrs. Thomas Elliot is suffering from a severe attack of la grippe. Dr. White is attending her.

Mrs. Peter St. Peter is on a fair way to recovery from her recent dangerous illness under Dr. Belliveau's treatment.

Mr. Richard Bourgeois has lately returned from New Hampshire, where he cut his foot quite severely.

Mr. James St. Peter also returned home, and his many friends are glad to see him look so well.

One of our young men, talking of the good roads and fine evenings of late, proposed a drive with a party of the "fairer sex," which was agreed upon. But something occurred during that drive by which they were put sadly out of "place," and returned home a little humbled, perhaps, but none the less wise.

Forty Albanians, who were escorting a wedding procession near Kolashin, Montenegro, met a number of Montenegrins

who were employed in building a bridge at Tara. As the Montenegrins were passing the wedding party, several of the Albanians, who were armed with rifles, fired a feu de joie. Unfortunately one of the weapons had been unwittingly loaded with a ball cartridge, and one of the Montenegrins was shot. The comrades of the wounded man poured a volley into the wedding party, killing and wounding 19 of them.
