Mr. Wells objected to Rose having an interpreter, as when he was examining her in Moncton before the magistrate she began to tell it all off before the interpreter had time to translate it. His honor decided she could have the interpreter as she alleged she

Her evidence was very similar to that given before the magistrate, with the exception of the following in answer to the question asked by juror Frier: "Mrs. Stevens told Railway, a quantity of me one day before Christmas when alone that she used to lock Mabel in her room and take the key out so her little boy would not unlock it. I never saw her locked in her room." The above is the only important part of her evidence.

Agnes Shea was next called. To Mr. Pugsley-I used to work with Mrs Stevens. I left Mrs. Stevens on May 25th, 1892. 1 noticed Mabel looked sick about two weeks USE SKODA'S DISCOVERY, before she died.
