Bathurst.

It is some time since Bathurst was represented in the columns of THE REVIEW, so I think a little news from our town would not be amiss this week.

The much-talked-of school investigation has come to a finish here. While it lasted it certainly made our town appear unusually lively.

Judge and Mrs. Fraser, Miss Risteen and all the lawyers who took part in the inquiry, have returned to their respective homes.

I heard of a very pleasant picnic which was held at Tecouche one day last week. Although the ladies were very much in the minority—something that does not often happen—the party enjoyed the outing immensely.

Although it is nearly two weeks since the Division S. of T. gave an entertainment in their new hall, still I think it is not too late to congratulate them on the success, financially and otherwise, of their concert. I trust there is truth in the rumor that they are preparing another which they will present in the near future.

Mr. J. M. McGinley went to St. John Thursday.

Mr. George Frost was here during the week.

Mr. F. Barton, principal of the Grammar school, Miss McDonald, Miss Garrett and a few others, attended the examination in Chatham, for a higher license than they now hold.

Mr. J. McManus spent a few days with his brother, Hon. F. J. McManus, this week.

Mr. J. F. Barry and family have moved

into the house on Water street lately occupied by Mr. G. A. Dudley.

Mr. A. J. H. Stewart made a short visit to Kent County last week.

FOLIO.

Rogersville News.

John Maloney has gone to Boston on business.

Rev. Father Fitzgerald, of Pokemouche, was here on Tuesday.

Several parties left the past few days for the Eastern States. Jos. Cormier, who left for the same parts a fortnight ago, has just returned home. He could not find employment, and he says he saw hundreds of provincialists there out of work.

Farming operations are much advanced. Seed oats and potatoes are scarce. Everything is growing well.

A Scot Act case against F. E. Landry, is on the tapis for next Tuesday. There are several ways of importing and selling liquors, and there are also various manners of getting paid for the same.

One of our aspirants to public office, etc., is now on the L. C. R. staff. He went to Newcastle on Friday, and went on duty Saturday. They say the job was well done; although there was no necessity to cut down the price when there was no opposition to him.

Two car loads of flour have arrived here this week; one for Chappell Bros., the other for P. Hennessey.

I. C. U.

IN MEMORIAM.—The following letter from Pickard L. O. L. No. 40, addressed to Brother Daniel McGinnis on the death of his wife has been sent for publication in THE REVIEW. The demise of Mrs. McGinnis, who formerly resided in this county was previously referred to in the columns.

MARYSVILLE, N. B., May 1, 1893.

Dear Sir and Brother:—We, the members of Pickard L. O. L. No. 40, desire to extend to you our sincere and heartfelt sympathy in the loss of your beloved wife.

When Jesus was about to depart with the disciples He told them He went to pre-

pare a place for them. He is also preparing a place for us, and besides preparing the place, He is preparing it with those whom we loved here below. He is calling from our midst those whom we love that we may have a greater interest in our Heavenly home.

In obedience to the call of our Heavenly Father your wife has gone to her long home. But we rejoice to know that she was long prepared for that great change. She was held in high esteem and tender regard by all who had the pleasure of her acquaintance.

You will miss her very much in the home circle when the children gather there; but though you meet her here no more, we hope it will be your blessed privilege to meet her in the home beyond the skies.

May He who comforted the sorrowing disciples, comfort you and the members of your family; and may He assist you all to prepare to meet her in the bright home above.

Signed on behalf of the members of the Lodge.

CLAUDE D. CLAYTON.
HARRY OSBORN.
GEORGE F. ROURKE.

A ROYAL ORDER.—An order received in a recent European mail, by The Dr. Williams' Medicine Co., of this town, probably stands unique in the history of Canadian or American proprietary medicines. It came from St. Petersburg, Russia, enclosing a rouble note (65 cents) for a box of Dr. Williams' Pink Pills, the sender being the Count de Bodisco, Grand Chamberlain to His Majesty the Czar of Russia. It would appear that even royalty, in far away St. Petersburg, has learned of the virtue of this remarkable Canadian remedy, and turn to it for relief in preference to others. It is more than probable that in the near future, this unequalled blood builder and nerve tonic will be the standard remedy throughout the civilized world, as it is to-day in Canada, the United States and Great Britain. Its virtues cannot be too widely made known. The

rouble accompanying the order is a fair sample of Russian bank notes, and in this country is somewhat of a curiosity. The note is at the company's office and may be seen by any one who have not had an opportunity of examining a specimen of Russian currency.—Brockville Times.

The advice with each bottle of Johnson's Anodyne Liniment is worth many times the cost.

STALLION GOLDLEAF.

The Stallion Goldleaf will stand in Richibucto and Kingston during the first part of the season, viz:—In Richibucto on Friday and Saturday of each week, in St. Louis on Mondays and Tuesdays, and in Buctouche on Wednesdays and Thursdays, for the service of mares at the fee of \$5.00 for single service, and \$8.00 for the season.

Goldleaf is the son of Rysdyk, 653, Sire of Clingstone, 2.14, Victor, 2.21, Geo. M. Rysdyk, 2.25, Maud A., 2.26, Bertrac, 2.27, Dam, Oakleaf, by Sunshine, (thoroughbred.) He is bay in color, with two hind ankles white. He stands 16 hands high and weighs 1100 pounds. He is perfectly sound, and has an excellent set of feet and legs, with plenty of bone and substance, good back and loin, well muscled and springy ribbed, splendid head and neck, well put on, oblique shoulders, and deep chest, and a fine main and tail. His finish style and action are perfect, and though never handled for speed, he shows a natural and frictionless gait, and will go fast if developed. He can now show a 2.40 clip. He has good stifle action, and opens up wide when he moves.

Goldleaf is bred for speed, his veins being rich in the famous Hambletonian blood flanked by the very best strains of imported thoroughbred. He took first prize at the Sackville, N. B., Exhibition in 1886 and 1888. (He was not shown in 1887.) He is 12 years old on June 20th, 1892, and for so young a horse is a remarkably successful one.

Goldleaf's colts are claiming attention wherever shown, and carry off honors in the face of the weightiest competition. Mr. H. A. Whitney, Mechanical Superintendent of the Intercolonial Railway, Moncton, has two fillies sired by Goldleaf, aged four and five years respectively, full sisters and well matched, that were driven in double harness on the streets the past winter, and pronounced by all to be a very handsome team. Warden J. B. Foster, of the Dorchester Penitentiary, has a five-year old that took first prize at the Sackville Exhibition. Many more of his get might be mentioned, but suffice it to say that the best guarantee that his stock are appreciated is the fact that trotting and carriage horse breeders have patronized him three years consecutively. Breeders may rest assured that they can make no mistake by stunting their best mares to this handsome and finely bred young stallion.

The season will commence on May 1st, and end on July 31st.
