

# THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach & Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar.  
It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nerve tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

## IT IS A GREAT REMEDY FOR THE CURE OF

Nervousness,  
Nervous Prostration,  
Nervous Headache,  
Sick Headache,  
Female Weakness,  
Nervous Chills,  
Paralysis,  
Nervous Paroxysms and  
Nervous Choking,  
Hot Flashes,  
Palpitation of the Heart,  
Mental Despondency,  
Sleeplessness,  
St. Vitus' Dance,  
Nervousness of Females,  
Nervousness of Old Age,  
Neuralgia,  
Pains in the Heart,  
Pains in the Back,  
Failing Health,  
Broken Constitution,  
Debility of Old Age,  
Indigestion and Dyspepsia,  
Heartburn and Sour Stomach,  
Weight and Tenderness in Stomach,  
Loss of Appetite,  
Frightful Dreams,  
Dizziness and Ringing in the Ears,  
Weakness of Extremities and  
Fainting,  
Impure and Impoverished Blood,  
Boils and Carbuncles,  
Scrofula,  
Scrofulous Swellings and Ulcers,  
Consumption of the Lungs,  
Catarrh of the Lungs,  
Bronchitis and Chronic Cough,  
Liver Complaint,  
Chronic Diarrhea,  
Delicate and Scrofulous Children,  
Summer Complaint of Infants.

All these and many other complaints cured by this wonderful Nervine Tonic.

## NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDVILLE, IND., Aug. 20, '86.  
To the Great South American Medicine Co.:  
DEAR GENTS—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.  
J. A. HARRIS, Ex-Treas. Montgomery Co.

## A SWORN CURE FOR ST. VITUS' DANCE OR CHOREA.

CRAWFORDVILLE, IND., June 22, 1887.  
My daughter, eleven years old, was severely afflicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for indigestion and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause.

JOHN T. MISH,  
State of Indiana,  
Montgomery County, ss:  
Subscribed and sworn to before me this June 22, 1887.  
CHAS. W. WRIGHT, Notary Public.

## INDIGESTION AND DYSPEPSIA.

### The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynesboro, Ind., says: "I owe my life to the Great South American Nervine Tonic. I had been in bed for five months from the effects of an exhausted stomach. Indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a cure for all forms of failing health. It never fails to cure indigestion and dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.

Large 16 ounce Bottle, \$1.00.  
EVERY BOTTLE WARRANTED.

W. W. SHORT,

Wholesale and Retail Agent for Kent County, N. B.

### Micro-Organisms in Health.

Some very startling facts have lately been discovered with regard to the part played by micro-organisms in plants and animals in health and disease. New thoughts, new ideas, lead to experiment, and sometimes the results are disappointing; on the other hand, it is never the expected that happens in nature. Within the past year a decided advance has been made in investigating the question, as to whether the inexhaustible store of nitrogen in the air could be utilized by plants, and, if so, by what process this nitrogen was made available as plant food.

For many years experiments in micro-organisms have shown that some particular kinds of plants have the power to acquire and fix in the soil, by means of these organisms, the store of nitrogen found in the atmosphere (the root tubercles of most of the leguminous crops, pea family more especially); and that there are a great number of different organisms which accomplish the work for different kinds of plants was well known. Thus, if we wish to produce tubercles on the roots of lupines, we must grow the plants in soil which contains the lupine bacteria or micro-organism, for a rootlet requires at the spot where it touches the soil a most minute quantity of food, but it is necessary to its functions and its very existence that this minimum be found exactly at this spot.

Already it has been shown in a few trials that an increase in the yield of leguminous crops can be caused by spreading small quantities of soil from fields where legumes have previously been grown over ground where another crop of the same kind of legumes was to be grown.—Ex.

### Investigation Invited.

Of course it is proper to inquire about what any man says. Is it true?

The most rigid investigation is invited into the testimonials published in behalf of Hood's Sarsaparilla. Special attention is called to the high character of the persons whose testimonials are published by the proprietors of this medicine, as evidenced by their occupations or indorsements. In fact, no matter where a testimonial in behalf of Hood's Sarsaparilla may be from, it is reliable and as worthy of confidence as if it came from your most trusted neighbor.

With the exception of the Great Eastern, the "Campania" is the largest steamship that has yet been built. She measures 620 feet long, 65 feet 3 inches broad, and 43 feet deep. Each of her huge funnels is nineteen feet across, and in total length measures 120 feet. The banquet hall, an apartment done in dark mahogany, is 100 feet long by 64 feet in breadth, and its seating capacity is for 430 persons. All together, ample accommodation is afforded for 460 saloon, 180 second cabin, and about 540 steerage passengers. The captain's bridge is situated at a height of 60 feet above the sea level, whilst the crow's nest, where the forward look-out is posted, is 40 feet higher still, and commands a radius of 15 miles. The vessel possesses two sets of the most powerful triple expansion engines in existence, each one, it is said, capable of indicating 14,000 or 15,000 horse power. Between these two sets of engines there is a dividing centre line bulkhead, fitted with watertight doors. In most vessels, the rudder is so placed as to be only partially under water, but in the "Campania" it is so entirely; immediately above it is a well rounded portion of the hull structure. The rudder, which weighs twenty-four tons, is of the single plate type, and is formed of a heavy steel casting with massive arms, between which there is a thick plate fitted and rivetted. Nothing has been omitted in the "Campania" to ensure safety as well as speed. Her bottom is fitted with the cellular system for water ballast, whilst a great feature is its arrangement of small watertight subdivisions.—Scientific Am.

BEWARE OF GREEN FRUIT.—Now that the heated term is approaching, people should pay particular attention to their diet, above all things avoiding unripe fruit and stale vegetables, which invariably bring on Cramps, Cholera Morbus, or Diarrhea. Children are particularly subject to complaints of this kind, and no mother can feel safe without having a bottle of PERREY DAVIS' PAIN KILLER within easy reach. It is a safe, sure, and speedy cure for the disorders named, and no family medicine chest is complete without it. Ask for the Big 25c. bottle.

After the calf arrives on the scene, care must be given it if good results are expected. We quote the following excellent advice from the Farming World:—"A prime requisite in successful calf-raising is regularity; let the calves be fed at the same time and in the same order every day. Next to regularity, regard the amount of milk fed; while 15 lbs. to 18 lbs. of full milk is a ration, with skim milk from 18 lbs. to 24 lbs. may be fed, depending upon the ability of the calf to assimilate its food. More calves are killed by overfeeding than underfeeding. Milk should be fed at blood temperature say 95° to 100° F., and a thermometer should be used to see that it is right. The feeding pail is often neglected; it should receive a daily scalding, and be kept always scrupulously clean. Scouring, the bane of calf rearing, usually indicates indigestion, and is often brought on by overfeeding, irregular feeding, giving the feed too

cold, or the animal getting chilled or wet. To check indigestion, a tablespoonful of lime water in each feed is very satisfactory. Successful management of the calf lies at the very foundation of the live stock business, and calls for regularity of attendance and watchfulness, discerning, at once all the little wants of the animal, and a general disposition to supply every need as soon as apparent."—Ex.

### How To Cure a Corn.

It is one of the easiest things in the world to cure a corn. Do not use acids or other caustic preparations, and don't cut a hole in your boot. It is simply to apply Putnam's Painless Corn Extractor, and in three days the corn can be removed without pain. Sure, safe, painless. Take only Putnam's Corn Extractor.

The spring is the most critical time of the year with most farm stock, coming out of a long winter on dry feed and still waiting for the first appearance of new grass. Calving time, too, is at hand. Of course much of the success of this season's calf crop depends on how the dam was cared for during the past winter; if she has been well wintered, there is little danger of her going wrong at calving time. Linseed cake will be found of great value if fed in moderate quantities to coming-in cows, regulating the bowels and keeping the system cool. Mr. John Boyd, a noted American breeder of Jerseys, has been very successful in the use of linseed meal as indicated. His treatment is as follows:—"Three weeks before the cow is due to calve commence to feed one handful of pure linseed meal in each regular feed, gradually increasing the amount until she gets about twice or three times as much the day or day before calving. As soon as the calf is dropped and before the cow 'cleans,' give a warm mash, very thin, nearly as thin as gruel, made as follows: Four quarts coarse bran, half pint linseed meal, one tablespoonful of salt, one tablespoonful of arnica, warm water to suit. If the cow does not clean readily, give her from four to six quarts of whole oats, dry."

### Severe Accident.

David A. Pinkney, of Bear River, N. S., seaman on the schooner Cathy C. Berry, fell from the poop to the deck of the vessel with his entire weight falling on one hand. The wrist was so severely sprained and swollen that he was compelled to leave the vessel on his arrival at St. John. He went to a drug store and got a bottle of Dr. Manning's German Remedy. Its applications reduced the swelling and removed the pain in one day, though before that he had been unable to open the fingers of that hand. He returned to his work on the vessel the next day.

### Will Wonders Never Cease?

The Cosmopolitan Monthly Magazine of New York City has been considered for some time the brightest periodical in the list of great magazines and it has always been in the first rank of illustrated publications. Its subscription price for one year is \$3, and on this account the wonderful offer made by the publisher of Progress of St. John comes in the nature of a surprise. It is well known that Progress has built up a great circulation at a subscription price of \$2 and now it proposes to still further increase its readers by offering the Cosmopolitan for one year for 85 cents additional. To explain further, any one not now a subscriber to Progress who sends \$2.85 to the publisher of that bright weekly, will not only receive the Cosmopolitan Magazine for one year but Progress as well for the same time.

### W. C. Rudman Allan,

Dear Sir,—This is to certify that I have suffered intensely from Rheumatism in my feet and ankles for over twelve years, and I take great pleasure in stating that two applications of SCOTT'S CURE FOR RHEUMATISM immediately relieved me and one bottle entirely cured me.  
ELIZABETH MANN,  
Stanley Street, St. John, N. B.  
August 1, 1890.

### The Sambre Lighthouse

Is at Sambre, N. S., whence Mr. R. E. Hart writes as follows:—"Without a doubt Burdock Blood Bitters has done me a lot of good. I was sick and weak and had no appetite, but B. B. made me feel smart and strong. Were its virtues more widely known many lives would be saved."
