A TRUTHFUL TALE SPEEDS BEST WHEN PLAINLY TOLD.

WE do not pretend that these children of nature, the Indians, possess supernatural powers, or that they have stored their minds with medical lore from misty volumes in the cellars of their white brethren. No! they have been the pupils of Nature, and their books the grassy fields, the shaded woodlands, and the traditions of their tribes from time immemorial. Where do we find such fine examples of health, strength, and activity as among the native Indians, undefiled by the ways of the white men? They do not suffer even to-day with chronic diseases. Why? because Nature has provided a cure for all the ills of humanity, and they have learned her secrets. Not only do they know the proper herbs to use, but they know at what season they should be gathered, how they should be preserved, and, best of all, how to prepare the medicines from them to secure successful results. These things they know as no other people on the face of the earth know, or probably ever will, as, unlike the white physician, they do not divulge their secrets. If a white doctor finds, as he thinks, some new cure, he is bound by the medical laws of his society to tell them fully, so that, except in a matter of personal opinion, one doctor is as good as another. With the Indians, their ways are kept to themselves, and it was not until that intrepid scout, "Texas Charlie," who lived among this ancient tribe of Kickapoos, — one of the oldest tribes extant, — and won their love and friendship, were any of these secrets known, and no other man on earth has yet acquired them. It is to him the people of the United States and other countries are indebted for the blessings of this knowledge, and so wonderful are the cures which have been effected through their introduction that to-day they are a standard article in every drug store throughout the civilized world, and have won their way solely on merit to this proud position in ten short years. Is not that the strongest testimony that could be produced?

A Sound Stomach and Healthy Liver means Long Life and Perfect Health. More than that: It means Happiness and Contentment.

Nothing so quickly strikes the Root of Disease as the Kickapoo Indian Remedies. No trace of mineral poisons are contained therein.

KICKAPOO INDIAN SAGWA "Nature's Greatest Gift of All."

Blood-Making
Blood-Cleansing
Life-Sustaining
THE rare combination of the best of the vegetable kingdom, gathered, cured, and prepared into medicine by the native skill of those versed in Nature's ways, has been given to the world in this preparation. Nothing equalling it for the cure of the ills arising from impure blood, torpid liver, diseased kidneys, deranged stomach, and the nervous system, and especially for those ailments peculiar to women, has ever been known. Its fame has spread like a prairie fire from one end of the continent to the other. The cures which have been wrought by this remarkable preparation are marvellous. In the older cities of the East — ay, in Europe even — its wonderful properties of curing has made it the most popular remedy on the market. Some of the stories told of its miraculous powers have astounded the wisest professors of botany and medicine. Our repeated offers of \$5,000 in cash for any improvement in our formula has never yet been taken. "It is an impossibility," say all; "your combination is so absolutely perfect that it would be like painting the lily or gilding refined gold." If you are suffering from any of the ills of humanity reached through medicine, do not fail to take Kickapoo Indian Sagwa, and note its quick effect. It is Nature's own Tonic and Blood Purifier.

Be not Afraid. The Kickapoo Indians are on a Mission of Health and Healing, and come among you for the Benefit of the Sick and Suffering.

The Wonders of the Vegetable Kingdom are offered to the Human Race by the Children of the Field and Forest.

It is Nature's own Tonic and Blood Purifier.

NATURE'S BLOOD PURIFIER

ADVERTISE IN THE REVIEW.

Clifton.
FEB. 10th.—I have this week to report two deaths. Mr. Thomas Knowles died on the 27th ult., of consumption, and on the 4th inst. Robert Sealy, of Canobie, passed away after a few days illness. The funeral, which took place Monday, the largest ever seen in Canobie, attests to the estimation in which deceased was held.

Messrs. A. & W. Ellis, of Bass River, have placed a new engine in their flour mill. The dam was carried away by the floods last August, but everything has been repaired and the mill is again in working order. They have now in connection with it a rotary saw and shingle machine, and promise to have a carding mill running next week.

G. J. Daley and John Smith are hauling fenders for the Clifton Breakwater. They are needed very much, and if some repairs are not put on it next season it will stand a good chance of being carried away.

Mr. John Fitzpatrick informs us he has started a sleigh factory in connection with his shop. R. Dempsey has charge of the carpenter work and R. Doncaster of the rigging. Sleighs furnished at the shortest notice. This will supply a long felt want.

Mr. Ernest Smith, Methodist theological student, preached his first sermon in the Methodist church, Stonehaven, on the 22nd ult.

District Division S. of T., No. 8, Gloucester, held its annual meeting at Stonehaven on the 14th January. The meeting was the most practical one the order has ever held. Business was put through systematically, and the following officers elected for the ensuing year:

Henry Scott,	D. W. P.
Herbert Ramsey,	D. W. A.
F. H. Lowe,	D. R. S.
E. Ramsey,	D. F. S.
F. H. Smith,	D. Treas.
E. Stout,	D. Chap.
J. Meloin,	D. Cond.
H. Hornback,	D. P. W. P.

A public meeting was held in the evening, when a good programme of songs, recitations and temperance addresses was presented. Rev. Mr. Seller gave a stirring address. The next meeting is in the North Star Division in April.

The Bathurst school question is still the principal topic of conversation around here. Some time ago, it was feared that there would be no grammar school. It now appears, however, we are to have two, one taught by ex-inspector O'Brien, recognized by the trustees and receiving government aid, the other, hired by private individuals and paid by private subscriptions. To all appearances the end is not yet.

Our veteran hunter, has again been on the war path and has returned with three fine foxes, one a beautiful silver gray.

Miss B. J. Breckenridge has just returned from visiting friends in Jacquet River.

COUGHS AND COLDS.—At this season when coughs are so prevalent, an effectual remedy, and one easily obtained, is *Perry Davis' Vegetable "Pain-Killer."* It is no new nostrum, vended by unknown agents, but has stood the test of over fifty years; and those who use the article, internally or externally, will connect with it grateful recollections of its worthy inventor.

Charlo Station.
FEB. 2.—A nothing from this section has appeared for some time, I take the liberty of sending you a few notes, trusting you will find space for them in your columns.

And first a word concerning certain correspondence from the vicinity that has lately appeared in some of the papers. We would like to know what the Virginia reel is, if it is not a dance. If a preacher were to pronounce himself in favor of a certain place of amusement as a correspondent seems to think he should, he would be held responsible for, and quoted in favor of everything done there, and all

its associations—a responsibility which through knowing too much or too little, he might not feel willing to assume. While he might be an enthusiastic admirer of wholesome sport, he might be forced to check his approbation if he thought he saw honest sport tending to worldliness, and a neglect of christian duty, among his young people.

It is understood that John K. Hamilton, of Charlo, and Mr. Mowatt, of Chatham, have purchased a shingle mill on the Miramichi River, and that Mr. Hamilton will take up his residence in Chatham. We will all be sorry to lose him and his estimable family.

The shingle mill at Eel River is for sale and it is to be hoped that some Restigouche capitalist will get control of it. It is not unlikely however, that some enterprising "rustler" from Ucle Sam's territory will gobble it up.

W. H. Grey, of Boston, has bought the mill at Charlo, formerly known as the Hays Co mill.

Despite the vein of plagiarism running through the correspondence above referred to, we are pleased to note that the writer has suddenly developed into an authority on weddings, school exams, music, smelts, etc., etc.
