THE FOSTER BANQUET.

The complimentary banquet given to Hon. Geo. E. Foster, in St. John, last Thursday evening, was well attended by leading Conservatives from all parts of the province. Mr. Foster, we are told, does not enjoy a very large share of popularity in Kings, his native county, and from the narrowness of his majority in that constituency in the last general election there would appear to be some truth in the assertion. Whatever may be his standing in Kings, it is certain that throughout the province at large he is recognized as one of the ablest men in the Dominion government, and is deservedly popular. The main object of the visit of the finance minister to the lower provinces is to make inquiry and gather information relating to the proposed revision of the tariff, and no doubt many of those who attended hoped to hear him declare in favor of a liberal measure of tariff reform. If there were any who went there with that expectation they were disappointed. During the course of his remarks Mr. Foster took occasion to review the record of the Conservative party since its advent to power in 1878, and made out a strong case in its favor on its past record. In treating of the future policy of his party in regard to the tariff and the promised revision, he did not hold out to his hearers the hope that any very sweeping changes would be made. He is evidently pretty well satisfied with the existing state of affairs, and does not propose changing them to any great extent. He wished it distinctly understood that the principle of the national policy would be strictly adhered to, and from his criticism of the position of Dalton McCarthy on the tariff question, it can only be inferred that the government is not prepared to go to the length proposed by that gentleman in cutting down the duties. The only change that need be looked for if Mr. Foster's remarks can be accepted as authoritative, is a revision in a few minor details to conform to the conditions and circumstances of the present time, as he expresses it. The rate of taxation he declared had been reduced from an average tariff of 21 per cent, to 17 1/2 per cent in five years, and this he considered as great a reduction as could be expected in that period. It is evident from the remarks of the finance minister, that the changes will be few and unimportant, notwithstanding the promise made to a number of kickers who last session threatened to follow Mr. McCarthy into opposition unless a very material reduction were granted. The "infant industries," which the tariff of 1878 was designed to protect, have not yet laid aside their swaddling clothes. They do not appear to be any more able to take care of themselves than they were fifteen years ago.

YORK COUNTY LIBERALS.

A few years ago the Liberals of the County of York were numerous and aggressive. A call for a county convention to elect delegates to attend a National Liberal Convention, would have been responded to by hundreds. Only twenty-seven attended the convention called for that purpose in Fredericton last Saturday. Nine of the thirteen parishes of the county were unrepresented, we are told, and the lack of enthusiasm throughout the proceedings was marked and emphatic. The best men of the party have been driven out of it. They have no desire to be classed as political associates of Mr. Blair and his clique in York and they have accordingly withdrawn from the party. They have to a certain extent lost faith in the political honesty and integrity of the so called Liberals of this province. The course of late pursued by some of the leading Liberal organs is not calculated to inspire confidence in their sincerity. In one breath these journals condemn in unmeasured terms the extravagance and corruption at Ottawa and in the next support with the greatest enthusiasm the shady and corrupt practices of the provincial administration. For years they denounced in the most violent language the Queens County steal, and then turned around and lent their support to a more glaring outrage in the County of Carleton. The people of York know Mr. Blair and his methods better probably than he is known elsewhere in the province, and they decline to co-operate with him. He has killed Liberalism in the County of York. St. John, which only a few years ago returned three staunch opponents of the government, has been handed over to the Conservatives for the same reason, and in the County of Northumberland, where in 1887 an opponent of the government was

elected by a majority of nearly 800, a Liberal convention has not been spoken of. By the terms of the notorious "Northumberland Deal," the leading Liberals of that county bartered away their political principles, and they are not certain where they now stand or on which side they will be at the next election. Mr. Blair has certainly proved an expensive luxury to the Liberals of New Brunswick.

THE QUEEN.

Yesterday, the 24th, was the seventy-fourth anniversary of the day of the birth of our Sovereign Lady Victoria by the Grace of God of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, etc., as it is expressed in legal phraseology. Queen Victoria was called to the throne at the early age of eighteen, and has continued to preside at the head of affairs of State for nearly fifty six years, a longer reign than that of any other sovereign with the exception of George III. During this long period many changes have taken place. Statesmen have sprung into prominence and passed away. Administrations have been formed and defeated. The names of some of England's greatest statesmen, Melbourne, Peel, Russell, Derby, Aberdeen, Palmerston, Disraeli, Gladstone, and Salisbury, are connected with the history of the reign of Victoria. Many great measures have been brought forward during the same period; perhaps the greatest is the one now agitating the British public—the bill providing for Irish Home Rule. The progress made by the nation in the various elements of civilization, especially in that of material prosperity during this period has been unparalleled. It has been said concerning the Queen that no former British monarch has so thoroughly comprehended the great truth that the powers of the crown are only held in trust for the people. If her early political training leads her to sympathize with the Conservative party, she never shows her preference in her official relations with her advisers. Her enlightened policy in this respect has endeared her to her subjects and brought about a greater measure of political contentment than was enjoyed during any previous reign. She is said to be enjoying the best of health, and there is every prospect that she will continue for a number of years to come at the head of British affairs.

USE SKODA'S DISCOVERY, The Great Blood and Nerve Remedy. THREW AWAY HIS CRUTCHES AFTER YEARS OF TERRIBLE SUFFERING. AN INTERESTING HISTORY.

STATEMENT OF MR. WM. McNECE.

For eight years I was troubled with a sore on my leg which resulted from having it broken. The doctors kept me in bed five months trying to heal it up, but all to no purpose. I tried all sorts of salves, liniments, ointments, pills and blood medicines but with no benefit. In 1883 it became so bad that I had to sit on one chair and keep my foot on another for four months. I could not put my foot on the ground or the blood would rush out in a stream and my leg swelled to twice its natural size.

ELEVEN RUNNING SORES developed on it which reduced me to a living skeleton (I lost 70 lbs. in four months). Friends advised me to go to the Hospital; but I would not, for I knew they would take my leg off. The doctor then wanted to split it open and scrape the bone, but I was too weak to stand the operation. One old lady said it had turned to black erysipelas and could never be cured. I had never heard of Burdock Blood Bitters then, but I read of a minister, Rev. Mr. Stout, who had been cured of a severe abscess on the neck by B.B.B., after medical aid had failed, and I thought I would try it. I washed the leg with the Bitters and took them according to directions. After using one bottle I could walk on crutches, after taking three, I threw away the crutches, took a scythe and went to work in the field. At the end of the sixth bottle my leg was entirely healed up; pieces of loose bone had worked out of it and the cords came back to their natural places again. That was nine years ago and it has never broken out since. I can walk five miles to-day as fast as anyone, and all this I owe to B. B. B., which certainly saved my leg, if not my life. I cheerfully recommend it to all sufferers. Give B. B. B. a trial, it will cure you as it did me.

Yours truly, Wm. McNece, St. Ives P.O., Ont. Mr. F. C. Sanderson, the druggist of St. Marys, Ont., certifies to the entire truthfulness of the remarkable statement made by Mr. McNece and says that several other wonderful cures have been made in his district.
