

# THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach & Liver Cure

The Most Astonishing Medical Discovery of  
the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar.  
It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nerve tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

## NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARBERT E. HALL, of Waynesboro, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, indigestion, nervous prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a wondrous cure for the Stomach. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. ## A Woodville Miracle.

### THE REMARKABLE CASE OF LITTLE GEORGE VEALE.

After Three Years of Illness His Friends Despaired of His Recovery—Restoration Came When Hope Had Almost Fled—The Little Fellow is Now as Lively as a Cricket—A Story That Will Bring Hope to Other Parents.

Woodville Independent.

The Independent has published from time to time the particulars of some very remarkable cures following the use of Dr. Williams' Pink Pills for Pale People. These cases have been so fully verified as to leave no doubt that this now universally favorite remedy is one of the greatest medical achievements of an age that has been remarkable for the wonderful discoveries of science. Possibly some of our readers may have thought that the virtues of this medicine have been exaggerated, but there are many among them who can testify to its virtues, and now The Independent is enabled to give the particulars of a cure occurring in our village quite as remarkable as any that has hitherto been published, and which may be so easily verified by any of our readers that skepticism must be silent. We had heard that little George Veale had been cured through the use of Dr. Williams' Pink Pills, and as all our people know that little boy had been ill for a long time and his recovery was thought to be hopeless. The report of his cure therefore created so much astonishment that we resolved to ascertain the facts, and accordingly we called upon Mr. Veale to get the particulars. Mr. George Veale has been a resident of this village for years, is a wagon-maker by trade, and is well known to all our citizens, as well as to most of the people of the surrounding county. He has a family of young children who unfortunately lost their mother some six years ago. One of these children named George, is about seven years of age, and some three years ago was taken ill and has since been practically helpless, and as a result much sympathy was felt for the family owing to the child being motherless. The case of the little fellow was considered hopeless and no one ever expected to see him able to rise from his bed again. On asking Mr. Veale about the report we had heard of the boy's recovery, he said it was quite true, and expressed his willingness to give us the particulars, declaring that he had no hesitation in saying that it was owing to the use of Dr. Williams' Pink Pills that the lad was now better. He said that some two and a half years ago little George was taken ill with inflammation of the bowels, and received good medical treatment. After being ill for some time, the trouble seemed to take a new form and settled in his bones which became diseased. During the summer he got a little better but when winter set in he was taken down, and the disease became worse. Swelling arose over the body, and several small pieces of bone came out. He could take but very little sustenance, and for some months could not stand on his feet. He had to remain in bed or be carried in his sister's arms. All the medicine he got did him no good and his case was given up as hopeless, and it was thought that he would not long survive. Mr. Veale had read of the wonderful cures effected by the use of Pink Pills and decided that all things else having failed he would try what they would do for his boy. Accordingly he purchased some at Fead's drug store, and began giving the to his son. After about two weeks he found that there was an improvement in his condition, which warranted the further use of the Pink Pills, and accordingly he procured another supply. "And now," said his father, "the little fellow is running about as lively and as mischievous as ever."

"There is no doubt about the matter," said Mr. Veale, "Pink Pills cured my boy when all other remedies failed, and I am glad to give this information so that it may be of benefit to others."

We called upon Mr. Fead the druggist, and asked him his opinion of Dr. Williams' Pink Pills. He said that the demand for them was so great as to be astonishing, and that those who once use them buy again thus proving their value. Mr. Fead said he sold more Pink Pills than any other remedy, and the demand is still increasing and he thought no better evidence could be given of their value as a medicine than this.

The Dr. Williams' Pink Pills for Pale People are manufactured by the Dr. Williams' Medicine Co., of Brockville, Ont., and Schenectady, N. Y., a firm of unquestioned reliability. Pink Pills are not looked upon as a patent medicine, but rather as a prescription. An analysis of their properties show that these pills are an unfailing specific for all diseases arising from an impoverished condition of the blood, or from an impairment of the nervous system, such as loss of appetite, depression of spirits, anaemia, chlorosis, or green sickness, general muscular weakness, dizziness, loss of memory, palpitation of the heart, nervous headache, locomotor ataxia, paralysis, sciatica, rheumatism, St. Vitus' dance, the after effects of la grippe, all diseases depending upon a vitiated condition of the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sgl-

low cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature. These pills are not a purgative medicine. They contain only life giving properties and nothing that could injure the most delicate system. They act directly on the blood, supplying its life-giving qualities, by assisting it to absorb oxygen, that great supporter of all organic life. In this way the blood, becoming "built up" and being supplied with its lacking constituents, becomes rich and red, nourishes the various organs, stimulating them to activity in the performance of their functions and thus eliminate disease from the system.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper, (printed in red ink.) Bear in mind that Dr. Williams' Pink Pills are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. The public are also cautioned against all other so-called blood-builders and nerve tonics, put up in similar form and intended to deceive. They are all imitations whose makers hope to reap a pecuniary advantage from the wonderful reputation achieved by Dr. Williams' Pink Pills. Ask your dealer for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address, at 50 cents a box, or six boxes for \$2.50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

## Cow, Calf, and Express Train.

The train crew of the Flying Yankee had a funny experience on one of their west-bound trips upon reaching Gardiner one afternoon last week. The train was an hour late, and tearing down the line at a great rate, when a most ambitious milky cow and her calf, which, it seems, had inherited something of the same quality, concluded to try a race with the Maine Central's pride. They started, making good time, but the train soon gained a lap and the cow was struck by the engine and actually turned end for end, but, strange say, was little injured. The calf turned around, addressed some loud bovine language to the train and showed fight, but the train had passed before he finished the preliminaries of an attack.—Portland (Me.) Argus.
