A SPLENDID RECORD. A Provincial Industry Trebles Its Business in the Last Three Months. Some three months ago this journal informed its readers that a new provincial industry, that of the Hawker Medicine Company of St. John, had completed its first quarter's business, and that its book showed a development of trade and a record of sales that was not only gratifying but really astonishing.

H. H. JAMES, Barrister at Law, Notary, SOLICITOR AND CONVEYANCER, Referee in Equity. JUDGE OF PROBATES. BUCTOUCHE, N. B. C. RICHARDSON, Barrister, SOLICITOR, NOTARY PUBLIC Referee in Equity. RICHIBUCTO, N. B.

Another three months has now elapsed and the company have balanced their accounts for the six months. The results show that in the last three months they have trebled the business of the first three; they have about doubled their working staff and work has been carried on in the packers room till 11 o'clock every night in order to fill orders promptly. From all parts of New Brunswick, Nova Scotia and P. E. Island, from Newfoundland and parts of the United States, the orders have rolled in. The business is now firmly established. The experimental stage is past. Repeat orders come in constantly, showing that where once the remedies are introduced they win permanent favors with the people, who know as soon as they have given any of them a trial that these standard remedies are all that they are claimed to be. Indeed, this last might readily be assumed without a trial, and judging solely from the character of the gentlemen who form the Hawker Medicine Co., as they are numbered among the leading citizens and most honorable and successful business men of St. John.

R. HUTCHINSON, Q. C., Clerk of Peace, VICE CONSUL FOR SWEDEN AND NORWAY, LLOYD'S SUB-AGENT. Divisional Registrar Births Marriages and Deaths. RICHIBUCTO, N. B. Geo. V. McInerney, Barrister, Attorney, Notary, &c. Solicitor for the Merchants Bank of Halifax. RICHIBUCTO, N. B.

The Hawker Medicine Company are now patenting their remedies in Great Britain and will presently extend their operations there, as well as more extensively to the United States. About the middle of this month Thomas Rankine, who so successfully introduced the Hawker remedies in Newfoundland last spring, will start and traverse the western part of Canada, from Montreal to Vancouver in the interests of the company. With such a record as that of their first six months now closed, the Hawker Medicine Co. are evidently destined to achieve a great success. They control standard remedies which have received the endorsement of leading physicians in Canada and the United States, as well as the fervent praise of sorely afflicted people who have by their means been restored to health.

There is no complaint so offensive, disagreeable and unhealthy as Catarrh. The offensive discharge from the disease poisons and vitates the blood, disturbs and sicken the stomach and in many cases induce fatal lung troubles. If afflicted do not trifle with it, Hawker's Catarrh Cure is a perfect and positive cure, try it. Sold everywhere, only 25 cents. Paris Eats 20,000 Horses A Year. The appetite for horseflesh which Parisians cultivated perforce during the siege twenty-two years ago seems on the increase. There are 150 butchers who sell horseflesh only, and more than 20,000 animals were consumed last year. It appears, further, that it is not the poorer part of the population which consumed the larger portion. It is most largely eaten by tradespeople who have several or many assistants whom they have to feed. Cheap eating houses also serve it as beef. It sells at about half the price of beef and mutton.

Toothache, the most common and one of the most painful affections, is instantly cured by the application of Polson's Nerviline. Polson's Nerviline is a combination of powerful anodynes, and it strikes at once to the nerves, soothing them and affording in one minute total relief from pain. Mothers, try it for your children's toothache. Nerviline is sold in 10 and 25 cent bottles by all druggists.

Take Care of Your Old Mother. A well-known bishop, suffering from impaired vision, was recently holding a levee, and one by one his guests were being ushered into his reception room. At length one arrived and said: "How do you do, my lord? My mother wishes to be kindly remembered to you." "Ah!" said the bishop, "that is very good of her. And how is the dear old soul? Nothing like a good old mother! Be sure and take care of your old mother. Good morning." The bishop did not in the least know who his visitor was, and said to his footman, "Who was that?" The servant replied, "The last gentleman who left your lordship's reception is the Duke of Connaught."

Cultural Notes on Potatoes. The subject of the potatoes was thoroughly discussed at one of the last of the Wisconsin farmers' institutes. Here are a few of the more important points gleaned from a report of this meeting. Superintendent Morrison said in regard to cutting seed that it is a question of choice with the grower whether he would feed the young plant with the substance in a large seed piece or with extra fertilizer in the hill. He thought the fertilizer the cheaper. Mr. Martin said it was much easier to increase the quantity of yield than to increase the acres. He would never cut seed in advance of planting. Mr. T. W. Terry increases the yield per acre and decreases the cost of production of potatoes by making his land very rich and by using tools and horse-power in cultivation. He can grow the heaviest crop on any given area by hand planting, but not enough extra to pay for the extra expense. He makes it a rule never to let a weed see daylight, and he never lets the surface crust. He does the most of the fitting of his potato field after the crop has been planted. This prepares the ground just as effectively and so disturbs the surface that no weeds can grow. Professor Goff said there was no longer any more doubt that the bordeaux mixture properly applied, would prevent blight, or that paris green would kill "bugs." He favored the use of a more diluted mixture and in more copious quantity. Mr. Woodward of New York said that by cutting old potatoes into pieces and dipping them in a strong paris green water and scattering them about the field early millions of beetles would be killed. Don't Forget. That to remove corns, warts, bunions in a few days, all that is required is to apply the old and well-tested corn cure—Putnam's Painless Corn Extractor. Sure, safe, painless. Putnam's Corn Extractor makes no sore spots hard to heal, acts quickly and painlessly on hard and soft corns. Blair Don't Like Anything with Pitts in It. It is told to-day on the streets that the end men of a local minstrel show in one of the neighboring towns struck the appreciative chord of their audience on the evening in which the result of the How-Pitts libel case was announced by the following: Jack—Say, Sam, do you take an interest in orchards? Sam—Well, I should think I did. Why Jack, I have the greatest orchard of apples in this country, and I excel the world in cherries. I take more interest in cherries than apples. Last week I plucked some of my best cherries; they were beauties. I was proud of them. I at once put them up carefully in a neat box and expressed

GENERAL NEWS. Fleming the negro who stabbed and killed Mr. Mincher Monday night, was taken from the officers by a mob of two hundred men Thursday night and hanged. His body was then riddled with bullets. The reichstag Thursday passed the first article of the army bill, 198 to 187. The article fixes for two years the peace effective force at 479,229 men. The volunteers for the year are not included in this number. This practically amounts to the passage of the whole bill. Cholera morbus and diarrhea yield to Johnson's Anodyne Liniment taken often internally. The Hon. C. H. Tupper says the arbitrators in the Berryng Sea case are considering the judgment now, and the British case looks well. The decision will probably be reached by the end of July. Sir John Thompson and Mr. Tupper expect to return to Canada by the first week in August. Ward of Spring diseases by taking K. D. C. It restores the stomach to healthy action, a healthy stomach tones the system, Try K. D. C. When the house of commons went into committee of the whole Thursday on the home rule bill, Mr. Gladstone announced the withdrawal of the "in and out" subsection of class nine. By its withdrawal the eighty Irish members to be retained in the imperial parliament will have rights fully equal to those given the British members. GEO. F. BAIRD, M. P. for Queens County, N. B., says: I have used Hawker's Catarrh Cure for violent cold in the head and found it a perfect cure for attacks of this kind. Lady Derby has published a letter thanking the women of Canada for the subscriptions to the Princess May wedding present. The total amount was thirty-seven hundred and eighteen dollars. The order for the sleigh, robes harness and bells were given by Montreal and Quebec firms. The stomach defiled by poorly cooked food can be cleansed by K. D. C. Restore the stomach to healthy action by taking K. D. C., the King of Dyspepsia Cures. A Philadelphia despatch says the brig Adonilla, Captain Holland, has arrived from Santos, Brazil. Captain Holland is the only survivor of the original crew, eight men having died from yellow fever. The Captain says thousands of deaths have occurred in Santos from the dreadful scourge. When he left business was at a complete standstill, and there were forty-five vessels lying in Santos river without their crews. It is feared the entire port will in a short time be completely depopulated. RHEUMATISM CURED IN A DAY. South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. For sale by W. W. Short, druggist, agent for Kent Co. USE SKODA'S DISCOVERY, The Great Blood and Nerve Remedy.
