AT CHAMBERS.—The case of John and George Robertson vs. Oswald Smith came before Judge King at Chambers in St. John, Saturday, on an application of Mr. Sayre to set aside a taxation of costs on the ground that defendant's attorney, J. S. Harquail, had not paid his library fee at the time of taxation. Mr. Phinney, contra. His Honor considers.

WILL LOCATE AT BASS RIVER.—The people of Weldford are fortunate in having secured the services of Dr. J. C. Bowser. Dr. Bowser has had a thorough medical training and is acknowledged to be a very skillful practitioner. Those requiring his attention will find him at the residence of Edward Walker, Esq., Bass River. He will spend Saturdays at the Eureka Hotel, Harcourt.

THE FISK JUBILEE SINGERS.—The famous Fisk Jubilee Singers will appear in the Temperance Hall, Richibucto, on the evening of Thursday, the 20th instant. Admission 50 cents; no extra charge for reserved seats. The plan of seats can be seen at the shop of Mr. R. Phinney, where tickets can also be purchased. Secure your tickets beforehand. This will probably be the only opportunity the people of Richibucto will ever have of hearing these famous singers and they should not neglect to take advantage of it.

JOINED THE EXODUS.—Mr. J. Wright Walker, late of the firm of Curran & Walker, left Kingston Monday with his family for Minneapolis, where he purposes going into business with his brother, Mr. A. D. Walker. His father, Mr. David Walker, and family went to Minnesota about two years ago. A large number of the people of Kingston were at the station to see them off. A few friends accompanied them as far as Kent Junction. Mr. Walker has made many friends in Kingston since he began business there and his departure is regretted.

Mrs. J. S. Allen, C.
Odber K. Black, C.
Miss Hilson, A. C.
John Haekenley, I. S.
George Irving, O. S.
Alex. Leggett, P. W. P.

NEW SCHOONER.—The new schooner being built in Jardine's Yard by McLean Bros. is fast nearing completion. Her dimensions are, keel 72 feet, beam 22 1/2 feet, hold 8 1/2 feet. She is 85 feet on deck and will measure about 80 tons. Her frame is juniper and she is all planked with hardwood. When completed she will be one of the finest vessels of her class ever built on the North Shore. Her model will combine speed with excellent carrying capacity. She will be put into the local coasting trade in summer and the West India trade in winter. Messrs. Bell and Carr are doing the caulking. It is expected that she will be launched about the first of May.

DEATH OF A FORMER RESIDENT OF KENT COUNTY.—We regret to announce the death of Mrs. Eliza McInnis, wife of Daniel McInnis, which occurred at Marysville, York Co., on the 21st March. Mrs. McInnis was formerly a resident of Weldford, Kent Co., but for several years has resided at Marysville, where her kindly disposition had won her many friends. She was a consistent member of the Presbyterian church and while in Marysville had associated herself with the "Woman's Working Band" in connection with the Methodist church, by whom she was much esteemed. The funeral services were conducted by Rev. Mr. McDonald, of Fredericton, and Rev. W. W. Lodge, of Marysville.—Times.

THE B. & M. RAILWAY.—The railway bridge over the Buctouche River is considered unsafe to cross, and all the rolling stock of the road was taken over to the other side last Thursday. Trains have since stopped at the south side of the bridge. On Monday the company began taking up the rails on this side of the river with the object of running a track down to the south end of the Buctouche bridge and thus avoid repairing the railway bridge. Monday evening the citizens of the town called a meeting and made such a vigorous protest against the proposed change that the manager thought it best to abandon the scheme. Trains will stop at the other side until the bridge is put over in a condition to permit trains to cross over.

NEW BOATS.—Some of our yachtsmen will have to look to their laurels the coming summer. Mr. Alex. Fraser, Jr., of Kingston, is having a new 22 feet sailboat built by Messrs. Dean, of Ship Harbor, N. S., which he expects will eclipse anything in this vicinity. Mr. Thos. Jardine, Jr., has a new boat under construction which is expected to be unusually fast. She will be 12 feet keel, 9 feet beam and will draw 4 feet of water aft and 1 foot forward. In addition to a deep keel, she will have an iron centre-board 7 feet long. When this is down she will draw 8 feet of water.
