Conesville. APRIL 10th.—I have not seen any items in THE REVIEW from this section for some time, so I take this opportunity of letting people know that a few of us are here yet.

Spring is advancing very slowly. The sugar makers have been disappointed in their expectation of a good season. The maple sap has so far, refused to run.

A large number of the residents of this parish have left this spring, and taken up their residence in Uncle Sam's dominions. Empty houses abound on every hand. As many as three and four in succession can be counted in driving along some of our roads, and we will no doubt, soon be able to compete with any part of the Dominion in this respect.

Mr. J. E. Coates began sawing last week. He has his usual large supply of lumber ready for sawing, and intends doing a big season's work. He is building a large scow, and will in future deliver his lumber alongside the vessels dry, instead of in rafts as heretofore.

Mr. J. D. Irving has built two booms here on the ice. They will be used to enclose his logs which he intends towing with his new steam tug, instead of running them down in rafts as has been the custom.

Mr. J. B. Coates paid a visit to his friends here last week. He has been for the past two years a resident of the state of Maine. It is reported that he will soon return here for good, and settle on his farm.

Mr. P. J. King has started his steam mill. It is quite cheering to hear the sound of the steam whistle again. X. Y. Z.

APRIL 10th.—I wonder what has happened our correspondent, I have seen nothing from his pen for some time.

Mr. Michael Graham, accompanied by his son Frank, have returned from Tabusintac, where they have been engaged in lumbering operations the past winter.

Mr. Fred Clare who has been ill with inflammation of the lungs, is, we are pleased to say, rapidly recovering.

A number of our young, who have been away in Maine and N. H. for the winter, have returned home and are quite satisfied that there is no place like home after all.

Mr. G. Leger paid a flying visit to some friends in this locality on Friday, and no doubt, one of our fair ones was made happy for the time being.

It is rumored that our new school house which is now ready for teaching, is to be opened on Tuesday. Miss Mary—is to take charge until the end of the term.

"Do you see that stoney corner on the upper side of my lot? Well, that is for a blacksmith shop," remarked the sage, as he pointed to the place mentioned, "and it will be a long felt want filled at last. I shall make the young man a present of it and help him to fit it up." Come right along Jimmy, we wish you success. Bring your harmonica with you.

The weather is cold and backward, And the farmer is ill at ease, For it is getting late in the season, And he longs for the warm spring breeze. N.

APRIL 4.—Travelling is suspended on the river although the mail-carrier crossed this morning at Chatham. The ice seems to be hanging on a thread, the least freshet will start it. We are anxiously awaiting the opening of navigation on the river as we seem to be cut off from intercourse with the outside world. Thursday's mail did not reach here until this morning owing to the bad state of roads, etc.

The Spool mill on Oyster Brook owned by James Aiton Esq., is shut down for the winter season. Probably some of your subscribers would like to know the sawing capacity of the mill, and for their information we can show our week's record of sawing. In fifty-four hours the mill cut ninety-seven and three quarter cords of birch wood, in inch and three eighths, and inch and one eighth sizes. The saws were manned in the following order, namely, by rickerman Wm. Reid; No. 1 bolter, Andrew McCallum; No. 2 bolter, Abraham Aiton. Mr. Aiton says he thinks that he has the banner crew of Northumberland and as the writer only considers them amateurs, he would like to hear from professional sawyers. The engine driving and filing was attended to by Mr. John Dower in his usual good mechanical style.

Mr. John Fraser's teams went up from Oyster Brook on Saturday, having finished hauling birch. The winter was very favourable to them and they just got out in time, before the breaking up of winter. JACK AND JILL.

THE NEW YORK EXAMINERS says: Every mother and housekeeper must often act as a family physician in the many illnesses and accidents that occur among children and servants. For many of these cases I have used Davis' PAIN-KILLER, and consider it an indispensable article in the medicine box. In diarrhoea, it has been used and effected cures. For cuts and bruises, it is invaluable. 25c. for the New Big Bottle.
