WOMAN'S SUFFRAGE.

Woman suffrage has recently gained a great victory in Colorado. At the election in that state on the 7th instant an amendas men, was voted on and adopted by a majority of about 5000. This law will of the state, and should the Colorado women see fit to take an active part in politics it is not improbable that next enfranchising women who possessed the good catch this winter. necessary property qualifications, was opposed by the government and defeated by a vote of 147 to 126. whole.

The Conservatives encountered a severe defeat in Winnipeg last week. The constituency was opened by the resignation of Hugh John McDonald who was elected at the last general election by a majority of five hundred and nine. The Liberals put up as their candidate in the late contest Hon, Joseph Martin, ex-Attorney General of the province of Manitoba, and author of the Manitoba School Law, and succeeded in electing him with a decisive majority, the vote standing Martin, Liberal, 2208; Campbell, Conservative, 1770. The Liberal candidate was by far the more popular man, and was backed by the Canadian Pacific Railway influence, and in 1 to 3 days. Its action upon the system supported by the two daily papers of the city. Under these conditions it was exfew expected so large a Liberal vote. Signs of extreme old age are unquestionably creeping on apace with Mr. Gladstone.

In predicting the result of an election it is not always safe to base calculations on the result of the previous contest. The city of Winnipeg, which elected a Conservative in 1891 by a majority of 509, hagone Liberal less than three years later by a majority of 438. The County of Kent which in 1891 elected a supporter of the Biair government with a majority of 800, reversed its decision less than twelve months later and buried the friends of the government under an adverse majority
