## THAT DOCTOR'S LETTER.

An Important communication from a prominent physician, that excites widespread interest. Its contents will be good news to sufferers from kidney disease.

TORONTO, Dec. 4th, 1893 .- The letter from D. A. Rose, a fac-simile of which appeared lately in the leading Canadian papers, is well worthy of consideration. The doctor lives in Portland, Ont., where he has a large practice. He stated in his and blood-poisoning by Dodd's Kidney Pills. As he is well-known throughout the province as a reliable man, his statement stamps the remedy as one of remarkable value. Kidney diseases are more prevalent to-day than any other, and Dr. Rose's experience will prove of use to many other victims of kidney disorder, by directing them to a reliable remedy.
