USE SKODA'S DISCOVERY,

The Great Blood and Nerve Remedy. The McCarthyites are preparing for an active campaign during the interval between now and the next general election for the house of commons. At meetings of the executive of the association held in Toronto arrangements were perfected to place candidates in the field in thirty

ridings for the commons during 1894. A dispatch from Teheran to the Times says 12,000 people were killed in Kirshan, Persia, by an earthquake last week. Fifty thousand cattle were killed and shocks are felt daily.

It is computed that during the recent storm the Yarmouth fishing industry suffered damage to the extent of £100,000.

Despatches from Scotland report a renewal of the recent gales on the west coast, accompanied in many places by a heavy snow fall. It is blowing furiously and the snow is drifting badly. Steamers between the mainland and outlying islands have ning to Portree, Island of Skye and the Sternoway Highland Railroad Co., are meeting with great difficulty in operating their line. Three trains are imbedded in snow drifts and a large force of men are required to dig them out. The storm extends a considerable distance south of cotland and a very heavy high sea is running in the Iri-h Sea and St. George's Channel. Advices from the east coast

Spanish Senoritas.

After having heard so much about the beauty of the dark-eyed, olive-tinted senoras and senoritas of South America, it is startling to find their natural charms obscured under clouds and drifts of paint and powder, and that the enamels, cosmetics and other French devices, which seem to constitute the most important articles of their toilets, have rendered most of them positively ghastly when -Cold! Suffering Children Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We consulted one of the best physicians in Brooklyn, but nothing did her any good. The doctors said it was caused by a scrofula humor

in the blood. Her head became

One Complete Sore offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or energy. The sores caused great itching and burning, so that at times we had to restrain

her hands to prevent scratching. For 3 years She Suffered Fearfully

with this terrible humor. Being urged to try Hood's Sarsaparilla we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to subside, the itching and burning ceased, and in a few months her head became entirely clear of the sore. She is now perfectly well, has no evidence of the humor, and her skin is clear and healthy. She seems like an en-tirely different child, in health and general
