JUDGE KING'S APPOINTMENT.

The agony is over at last, and Mr. Justice King of the New Brunswick Supreme Court succeeds the late Judge Patterson in the Supreme Court of Canada.

While Judge King's appointment is therefore highly acceptable, we cannot overlook the fact that there are many reasons why the promotion of Mr. Justice Palmer would have been equally as satisfactory.

The influences at Court have, however, gone in favor of his brother King, and Judge Palmer will remain upon the New Brunswick Bench, as one of its strongest jurists.

In this connection it may be remarked that the wire-pulling and political engineering which have been developed on the part of members of the Bench or their friends for their promotion, during the past few weeks, is not calculated to increase the respect hitherto generally entertained for our Judges.

JUDGE LANDRY'S APPOINTMENT A LESSON.

THE REVIEW was the first, and only, English newspaper in the province to advocate the promotion of Judge Landry to the Supreme Court, and in congratulating him on his elevation, we take the liberty of adding that there is, intimately connected with his appointment, a lesson, which the various elements of our population may read with profit and advantage.

Buctouche, Sept. 23rd.

Reports from Ottawa are to the effect that Mr. W. W. Wells, Q. C., of Moncton, will be the next County Court Judge for the counties of Westmorland and Kent.

Severe Diarrhoea Cured. GENTLEMEN,—I was troubled with chronic diarrhoea for over three years and received no benefit from all the medicine I tried.

"D" Replies to Mr. Barnes.

To the Editor of The Review: My brief report of the LeBlanc-Barnes railway incident in connection with the Moncton Liberal rally, has after considerable delay, brought a weak denial from Mr. Barnes in your issue of the 21st inst.

Reading between the lines, however, it is quite evident that, even according to Mr. B. himself, the principal facts reported by me are correct. Mr. LeBlanc, as the Kent Liberal leader, was not communicated with in any way by Mr. Barnes.

That Challenge. In answer to the challenge of George Amiraux which appeared last week, in which he says he prefers to sail against the I. X. L., I have only this to say:—If I accept his challenge I am not afraid to give the name of my boat as he was.

Rich. Red Blood. As naturally results from taking Hood's Sarsaparilla as personal cleanliness results from free use of soap and water.

The highest praise has been won by Hood's Pills for their easy, yet efficient action. Sold by all druggists. Price 25 cents.

Justice Ferguson Sees a Bonanza.

Having made a study of cranberry culture during the last six months, with a view of starting a meadow in this county, I take every opportunity of enlarging my knowledge of the manner in which this valuable crop is grown.

There is much land in this county that could be made to grow a profitable crop of cranberries, but the greater portion would be too expensive to cultivate having

too great a depth of muck (the greater the more expensive).

One day last week I visited a small meadow of about two acres owned by John Fraser. Part of this is cultivated and set out in vines, but the greater part of it is in vines of natural growth.

The finest berries and the greatest growth I have ever seen are there, notwithstanding the heavy frost of July which damaged a great many of the blossoms. Last year Mr. Fraser measured two square rods and then measured the berries picked off them, the yield was at the rate of 200 bushels per acre; and a gentleman from Boston, Mr. Henderson, who saw the meadow, said that he never saw finer berries in the Boston market.

Besides this piece under cultivation Mr. Fraser has 30 or 40 acres of ground that could at a moderate expense be made to grow a large crop of berries. In the States the average value of cultivated meadow is \$1000.00 per acre, and I know of no reason why it should not be as valuable here.

Rheumatism Cured in a Day.

South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears.

The word, breeches, trousers and pantaloons are now used interchangeably, but originally the significations were quite different. Pantaloons were at first nothing but long stockings, worn in Italy as a sort of religious habit by the devotees of St. Pantalon.
