THE DISMISSAL OF SHERIFF WHETEN.

Last week's Royal Gazette contains the following announcement:—"In the County of Kent—Auguste Leger to be Sheriff in room of William Wheten removed."

For several days prior to the official notice, the government newspapers stated that Sheriff Wheten had been dismissed because of his failure to furnish the necessary bonds, but inasmuch as the Gazette assigns no reasons for the removal, we are left in doubt as to the true cause for his sudden decapitation in the middle of the official year. It may be that the government, which, if we are correctly informed, has retained Sheriff Wheten in office for several years and repeatedly re-appointed him without requiring any bond, can now justify, on the alleged ground, his dismissal from office without giving him any warning; but it may also be that some individual members of the government have personal grievances against Mr. Wheten which they seek in this way to cover. Whatever the cause of his removal, it is certain that there is a very great deal of public sympathy for him throughout the county, and many who have received fair and generous treatment from Sheriff Wheten in the discharge of the important and often difficult duties of his office have learned of his dismissal with great regret. His political career in this county, in the interest of Mr. Blair, is generally believed to have been a pretty expensive one, as in addition to several elections of himself and Mr. LeBlanc, in which Mr. Wheten had to foot the bills, he was called upon to meet the costs of election petitions pressed against him with great persistence and personal bitterness by the opposing candidate—a gentleman who could then find no language too strong in which to denounce "Blair and his party," but whose subsequent conversion has given him far government offices in this county while Sheriff Wheten steps down and out. Such is the irony of politics.

Of the new appointee we have nothing particularly to say. Through the generosity of Mr. Blair and Mr. Labilloy, who personally superintended the judicious distribution of the resources of civilization in this county, liberally provided by their friends, aided by other influences of an unusual character, Mr. Leger was elected and occupied a seat in the House of Assembly for one session. It is said that during that brief interval he and Mr. Labilloy had their eyes on the sheriff's office, but it was not then deemed prudent to remove Sheriff Wheten. In the general election which followed, Mr. Leger was defeated, and has since no doubt, been waiting to be rewarded. Sheriff Wheten has now accordingly been retired to make room for him. Of his qualifications for the position we cannot now speak. The office is one requiring for the proper discharge of its duties, good business abilities and sound judgment. Kent has not always been fortunate in this respect in the choice of its sheriffs. Mr. Leger may develop special aptitude for the position.

In seeking for reasons for the appointment of Mr. Leger just at the present juncture, the report reaches us that Mr. C. H. Labilloy was particularly anxious for it. Since the elevation of Judge Landry, this politician of unsavory reputation, has been exceedingly desirous that he shall be regarded as the leader of the French Acadians in this province. He has now arrived at the conclusion that the subordinate position he occupies in Mr. Blair's cabinet does not afford scope for his special legislative and administrative abilities, and he is looking for an opportunity to step into the larger arena of Dominion politics. Restigouche, he regards as a somewhat uncertain constituency and he has concluded that if he can only make himself strong in Kent, he might succeed in having himself foisted on this county. The recent appointment, he probably regards as a step in this direction. It will, however, in our judgment, be a long time before the electors of Kent, either French or English, will open their arms to receive a man who has so disgraced a representative position as Labilloy has.

THANKSGIVING IN THE WESTERN STATES.

The collapse of the silver industry in the west, and the staggering blow given to it by the repeal of the Sherman Act, have brought about a very serious condition of affairs in that section of the

neighboring republic. Thousands of people are thrown out of employment, and many have been compelled to return east, while others are being supported at the expense of the state. A very bitter feeling prevails amongst both Democrats and Republicans against President Cleveland, and finds expression in the public utterances of prominent men of both parties. The latest development in this direction is the Thanksgiving proclamations issued by the Governor of Colorado and the Governor of Oregon. We publish the former in another column. It is an extraordinary document to be penned by the chief executive officer of the state. If Governor Waite is correct, the dangers which threaten the state and nation are very grave indeed, and Canadians amongst other causes for thanksgiving should feel grateful that their lot has not been cast in a country ground down by "tyranny and corrupt and unconstitutional legislation," and where "the common people" are being "fast reduced to pauperism" as the Governor alleges in the case in Colorado.

The Ottawa Anglican rural deanery has decided against prohibition, the vote being almost unanimous. They also condemned the present license system, and declared in favor of the bishop of Chester's scheme of placing the sale of liquors in the hands of government officials, and somewhat similar to the Gothenburg system.

A Cure for Coughs.

There is no remedy that makes as large a percentage of perfect cures as Dr. Wood's Norway Pine Syrup. In nearly every case of coughs, colds, asthma, bronchitis, hoarseness, croup, etc., its curative effects are prompt and lasting.

Kent County Teachers' Institute.

A meeting of the Teachers' Institute for Kent, was held in the Grammar School room, Richibucto, Nov. 16th and 17th 1893. In addition to the twenty-five members enrolled as teachers there were present, some, or all of the time the Institute was in session, Dr. Inch, Ch. Sup. of Ed., George Smith, Inspector of Schools, J. D. Phinney, M. P. P., the ladies of the W. C. T. U., the Secretaries of the School Boards of Richibucto and Kingston, and several other prominent citizens.

First Session. The First Session opened at 10 o'clock a. m., on Thursday. George A. Coates, Esq., Principal of Kingston Superior School, in the chair. Mr. Coates as vice President of the Institute gave an excellent opening address, after which the following officers were elected for the ensuing year:—Inspector Smith, President; Miss Isabella J. Caie, vice President; H. T. Colpitts, Sect.-Trea.; A. E. Pearson, and Miss Teresa McDonald, Members of the Executive Committee. The Institute then adjourned to meet at 2 o'clock.

Second Session. The Second Session met according to adjournment in the school room. President in the chair. After the roll was called and the minutes read, Mr. A. E. Pearson, Principal of the Sup. School, Buctouche, read a paper entitled "Discipline in Schools." This paper contained some good ideas, with regard to how order may be secured and maintained in our schools and refractory pupils brought into submission. A discussion on this paper was opened by H. T. Colpitts, and participated in by J. D. Phinney, M. P. P., Mr. Coates, and Mr. Ferguson (Kingston.) The latter gentleman spoke at quite a length and made some good points. He held that if trustees were more in sympathy with teachers, it would often be a great relief to them in their arduous task.

A paper prepared by J. E. B. Clarke, Principal of the Sup. School, Bass River, entitled "The Importance of Teaching Temperance in Our Schools," was then read by Miss Maggie Graham. Mrs. Allen, Dr. Inch, J. D. Phinney, Mr. Coates, Mr. Pearson, and others in discussion, all emphasized the importance of teaching temperance in our schools. The Institute then adjourned to meet in the Temperance Hall, at 7.30 p. m.

Third Session. The Institute met according to adjournment in the Temperance Hall, at 7.30 p. m. The chair was taken by the President. The hall was filled by a large and intelligent audience. Addresses were made by the President, J. R. Inch, L. L. D., Geo. V. McInerney, M. P., and J. D. Phinney, M. P. P. These excellent addresses interspersed with suitable music, were eminently practical, and calculated to do much good in the community.

Fourth and Fifth Sessions. The Institute met to complete its work in the school room at 9 o'clock on Friday morning. A paper entitled "A Talk on Grammar," was read by Mr. Goodwin, Principal of the Sup. School at Harcourt. The contents of this paper led to quite an animated discussion in which Dr. Inch, Inspector Smith, J. D. Phinney, Miss Caie, Geo. A. Coates, A. E. Pearson, Hugh A. Ferguson, H. T. Colpitts, and others took part. At 10.45 a. m., on the departure of the Kent Northern, much to the regret of the Institute, the Chief Sup. and Inspector had to leave, after which

the chair was filled by Miss Caie, vice President. The next thing on the programme was a paper promised by Mr. Alward which failed to materialize. Kingston was then chosen as the place for the next meeting. The time was left to the committee of management.

Votes of thanks were passed as follows: To Dr. Inch, Inspector Smith, J. D. Phinney, M. P. P., and Mr. Ferguson, (Secty. of the School Board at Kingston,) for their kindly interest and valuable counsel, to H. T. Colpitts for his trouble in reviving the Institute, to John T. Caie, J. P., for writing some notices of the public meeting which materially aided in bringing out a crowd, and to Miss Isabella J. Caie for the very efficient manner in which she had filled the chair in the absence of the President.

The Institute then adjourned to meet sine die.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At drugists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Sons & Co., Montreal, wholesale agents.

Extraordinary Thanksgiving Proclamation of the Governor of Colorado.

The following is the Thanksgiving proclamation issued by Governor Waite, of Colorado. While he recognizes that the people of the state have much to be thankful for he does not neglect to call attention to the bondage of the people by alleged "tyranny and corrupt and unconstitutional legislation."

Whereas, The President of the United States has designated Thursday, the 30th of the present month, as a day of thanksgiving and praise, I, David H. Waite, governor of Colorado, do hereby appoint the same day as a day of thanksgiving for this state, and recommend to the good people thereof that they assemble on that day and render unto Almighty God praise and prayer for His blessings. No war, famine, or pestilence has vexed the land during the past year, and the earth has yielded bountifully of her increase. But in this thanksgiving I invoke the people of Colorado to remember especially their "brethren in bonds"—the forty-five thousand miners of silver who, in a land of boundless natural resources, have been deprived of employment by tyranny and corrupt and unconstitutional legislation, and, in many cases, have been compelled to abandon their homes—and agriculturists of our state, whose crops cannot be marketed for the cost of production, and who find, as their products decrease in price, the value of the notes and mortgages which represent their indebtedness correspondingly increase—and the real estate owners and business men of Colorado, who, under a system of trust deeds and attachment laws, the most infamous since the days of Caligula, find their property, when encumbered, often sacrificed at a tithe of its value, and all this injustice is perpetrated to increase the inordinate riches of extortioners whose avarice and greed, aided by corrupt legislation, has grasped in the hands of 30,000 people more than half of all the wealth of the United States, and is fast reducing to pauperism the common people of the world.

I implore the citizens of Colorado, on this day of prayer and praise, most fervently to petition Almighty God that He will arouse the public sentiment to a sense of the dangers which threaten not only our state and nation, but civilization itself, and that in His mercy He will so order it that "this government of the people by the people and for the people may not perish from the earth."

Done at the capitol, Denver, November 8, 1892. DAVIS H. WAITE, Governor of Colorado

Rheumatism Cured in a Day.

South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. For sale by W. W. Short, druggist, agent for Kent Co. *

A NEW THROUGH SLEEPING CAR LINE FROM CHICAGO TO SEATTLE

Via the Chicago, Milwaukee & St. Paul and Great Northern Railways, has been established and first-class sleeping cars will hereafter run daily from Chicago at 10:30 P. M., arriving at Seattle 11:30 P. M., fourth day. This is undoubtedly the best route to reach the North Pacific Coast.

For time tables, maps and other information apply to the nearest ticket agent, or address A. J. TAYLOR, Canadian Pass. Agent, C. M. & St. P. R'y, 87 York St., Toronto, Ont. (6)

How to Measure Hay.

The following rule is given for finding the number of tons of hay in a round stack. It must, however, be taken as only the approximate weight and not the exact weight. The quality of the hay and the time of putting up have much to do with the number of cubic feet in a ton. Five hundred cubic feet is generally estimated as good measure for a ton: The best way is to weigh. The experience of weighing a few stacks will enable any one to judge quite accurately. Another approximate rule for measuring a round stack is this: Select a place which is as near as possible to what the average size would be if the stack was of uniform diameter from the ground to the top point. Measure around this to get the circumference. Add four ciphers (0000) to the circumference at the right and divide the whole by 13,559 to get the diameter. Now multiply half of the diameter by half of the circumference and you have the feet in the circular area. Multiply by the number of feet the stack is high, and you will have the solid or cubic feet in the whole. Then divide by 500 to 512 according to its size and compactness, which will give the number of tons in the stack.

"I feel like a new man." "It will cure any case."

These are the enthusiastic words of the gentleman whose portrait appears with these lines. His own statement is free from any wordiness or "writing up."

G. W. COX.

For the past five or six years I have been troubled with DYSPEPSIA. In the winter of '92 I was completely "used up," so much so that I tried three doctors, without receiving any benefit from their treatment. I tried other dyspepsia medicines without success.

During that period of trial and experiment I was so poorly that I could not work steadily for one half hour at a time without going to my house and lying down.

At last I went to W. E. Thistle's drug store to get something to relieve me, and he recommended GRODER'S SYRUP. I have taken two bottles and am now COMPLETELY CURED. I feel like a new man; I can eat or drink anything and enjoy my food. I have recommended you freely to others. I cannot say too much in its favor. Yours truly, G. W. Cox.

P. S.—I am confident that Groder's Syrup will cure any case of Dyspepsia if it is properly used. Others who suffer as I did should know of the intrinsic merit of your remedy. For some time I have felt it my duty to write you and let you know just what two bottles of your medicine have done for me. This statement is to be used as you think best. It is true in every particular, as my friends can testify.—G. W. C.

Mr. Cox is a well-known carpenter and joiner of Hartland. Hartland, Carleton Co., 7, 90, 1893.

FALL AND WINTER 1893 94.
