

THE GREAT SOUTH AMERICAN NERVINE TONIC

Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.
It is Pleasant to the Taste as the Sweetest Nectar.
It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDSVILLE, IND., Aug. 20, '86.
To the Great South American Medicine Co.:
DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.

A SWORN CURE FOR ST. VITUS' DANCE OR CHOREA.

CRAWFORDSVILLE, IND., June 22, 1887.
My daughter, eleven years old, was severely afflicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic
Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and only one great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynesboro, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, indigestion, nervous prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."
No remedy compares with South American Nervine as a cure for the Nerves. No remedy compares with South American Nervine as a cure for the Stomach. No remedy will at all cure indigestion and dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon. If you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.

The Bathurst Schools.

remember of the Catholic catechism were the first two questions and answers as to the creation of the world, with which all Christians agree. As to the prayers all they had power to act and the complaints had any just ground, had acted and acted promptly. In the case of the memorial of December, 1890, protesting against the employment of Sisters of Charity in the Bathurst schools and praying that they prevent the school trustees from employing the said Sisters, he argued that the subject matter of the memorial was not within the power of the Board, and that the Board would have had no right to grant any such prayer, and it was for this reason that the Board declined to take action thereon. With regard to the allegation that the public school buildings in Bathurst town afforded all the accommodation that was needed without the use of the rooms in the convent, Mr. White held that there was only seating room for 198 pupils in the public school building, and that the use of the convent was necessary for the accommodation of a large number. The Solicitor General in resuming his argument in behalf of the Board of Education this morning addressed himself to the subject of the observance of the Roman Catholic holidays in the Bathurst schools. He contended that the school trustees had authority whenever it was apparent that the pupils could not or would not attend, whether because of a Roman Catholic holiday or a circus day or anything else, to allow the schools to be closed and the time made up on Saturdays. He argued that the opening of the schools on any day when the pupils could not be got to attend (and in Bathurst districts the very large majority of pupils being Roman Catholics could not be got to attend on holidays) would be utterly useless, for all the instructions that would be imparted in the absence of so large a majority of the pupils would have to be gone over again upon the return of the absent ones. Taking up the charge that the grading of the schools was conducted in an unlawful manner for the purpose of advancing the interests of conventual schools the Solicitor General held that the complainants had utterly failed to establish the charge, and that on the contrary the evidence had proved there was no wrongdoing in this connection. Speaking to the allegation charging the employment of inferior and incompetent teachers, he held the Sisters were duly qualified to teach under the law, and that there was no evidence of any incompetency on the part of any of them. With reference to the charge that the establishment and maintenance of conventual schools had increased the school taxes he claimed there was only an actual increase of \$350—from \$1,100 to \$1,450, and that this was occasioned not by the establishment of the convent schools, as charged, but by an increase in the number of pupils, there being eighty more pupils now than there were before the increase of assessment. He contended that the per capita tax was actually less than before the establishment of conventual schools. The charge that the conventual schools were established for the especial benefit of the Roman Catholic church, he contended, had been conclusively disproved. As to the alteration of Regulation No. 10 of the School Manual for 1892 while passing through the press, Mr. White claimed that the fact was that Chief Supt. Inch had been authorized by the Board to draft certain regulations
