CRAWFORDSVILLE, IND., AUG. 20, '86. To the Great South American Nervine Tonic Co. I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing did me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.

A SWORN CURE FOR ST. VITUS' DANCE OR CHOREA. My daughter, eleven years old, was severely afflicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause.

State of Indiana, Montgomery County, ss: Subscribed and sworn to before me this June 22, 1887. CHAS. W. WRIGHT, Notary Public.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRET HALL, of Warrington, Ind., says: "I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, indigestion, nervous prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

No remedy compares with South American Nervine as a cure for the Stomach. No remedy compares with South American Nervine as a cure for all forms of failing health. It never fails to cure indigestion and dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon. If you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. AN OLD MAN'S STORY.

HIS FRIENDS HAD GIVEN UP HOPE OF HIS RECOVERY.

Mr. George Rose, of Rednersville, Relates the Story of His Suffering and Release—Feels as Well as He did at Forty.

From the Daily Ontario, Belleville.

Four miles west of Belleville, in the county of Prince Edward, on the southern shore of the beautiful and picturesque Bay of Quinte, is situated the village of Rednersville, a charming place of about four hundred population, composed quite largely of retired farmers. Of late years the picturesque location of the village has given it some prominence as a summer resort, where may be enjoyed the cool health-giving breezes of the bay. But even in this charming locality disease finds its way, and when the epidemic of la grippe swept over Canada, Rednersville was not spared a visitation. Among those attacked was Mr. George Rose, a life-long resident of the village, who had already reached the allotted span of life. Mr. Rose had enjoyed remarkable health until he was taken down with an attack of la grippe, when grave fears were entertained for his recovery. In a few months he recovered sufficiently to again move about, but not with his accustomed vigor. Mr. Rose had scarcely regained his health when he was seized with another attack of this dread disease, worse than the first. This had a telling effect upon him and his family feared consumption had claimed him for a victim. A physician attended him regularly but seemed unable to give him any relief. However, all that medical skill could do for him was done, but daily Mr. Rose's condition grew worse, and in March of this year his condition was so low that his family, like himself, had given up hope of his recovery. During the last month the general talk about the village and the surrounding country has been the remarkable cure of Mr. Rose by the use of Dr. Williams' Pink Pills. The case created such a sensation that a reporter of the Ontario, personally acquainted with Mr. Rose, determined to call on him and learn the facts of the case from his own lips. Mr. Rose was found a picture of health and activity for one of his years, and expressed his entire willingness to tell his story for the benefit of others. "I am," he said, "a well man, and do not hesitate to give the credit to Dr. Williams' Pink Pills for saving my life. I had three attacks of la grippe and continued to grow worse up to March of this year. At that time I was so reduced in flesh and strength I could hardly stand alone. In fact I was a mere skeleton. I could not eat because I had no appetite. I could not sleep because my legs and feet became so badly swollen and cramped that my wife would have to rub them before I could get rest. The pain was at times so violent that I could not refrain from screaming, and I would tumble about in bed and long for day to come. If I attempted to get up and walk I was apt to fall from dizziness. I took medicine from the doctor, but it did not help me and I was so discouraged that I felt death would be preferable to my misery. I did not think I could live more than a few months when one day I read in the paper of the cure of a man whose symptoms were like mine. I must say I did not have much faith in the remedy, but felt as though it were a last chance. I sent first for a box and by the time it was half gone I found that my appetite was getting better, and in other respects I could notice an improvement in my condition. By the time the box was gone there was a still further improvement. I continued the use of the pills, found that I could now get a good night's sleep and that the cramps and pains which had formerly made my life miserable had disappeared. The swelling left my limbs, the dizziness disappeared and I felt better than I had in four years. I know that it was Pink Pills and them only that brought about the change because I was taking nothing else. I have taken in all seven boxes and I feel as good now as I did at forty years of age. Last winter I was so bad that I could not do my own chores, and now I can do a good day's work. My friends congratulate me on my regained health and I don't hesitate to tell them that I owe my life to Dr. Williams' Pink Pills. Many others hereabouts have found similar benefit. Last spring my niece was looking pale and feeling weak, and I advised her parents who were very uneasy about her to try Dr. Williams' Pink Pills. The result is that she is now the picture of health. You may say that I would not be without Pink Pills in the house, for I firmly believe they will do all that is claimed for them if they are given a fair trial." In fact it appeared that Mr. Rose could not say too much for Pink Pills and as the reporter drove away he again remarked, "do not forget to say that I owe my life to Dr. Williams' Pink Pills." In conversation with several residents of the village the statements made by Mr. Rose were fully corroborated.

Druggists say that Dr. Williams' Pink Pills have an enormous sale, and from all quarters come glowing reports of results following their use. In very many cases the good work has been accomplished after eminent physicians had failed, and pronounced the patient beyond the hope of human aid. An analysis shows that Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life and richness to the blood, and

restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, nervous prostration, all diseases depending upon vitium humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore the glow of health to cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of whatever nature.

Dr. Williams' Pink Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists of direct by mail from Dr. Williams' Medicine Company from either address.

Hood's Cures.

In saying that Hood's Sarsaparilla cures, its proprietors make no idle or extravagant claim. Statements from thousands of reliable people of what Hood's Sarsaparilla has done for them, conclusively prove the fact—HOOD'S Sarsaparilla CURES.

Hood's Pills act especially upon the liver, rousing it from torpidity to its natural duties, cure constipation and assist digestion.

Novel Method of Trial.

In some villages in Japan robbers are tried and convicted by ballot. Whenever a robbery is committed the ruler of the hamlet summons the entire male population and requests them to write on a slip of paper the name of the person they suspect as having committed the crime. The one receiving the largest number of ballots is declared duly "elected," and is accordingly hanged. This system, like all others, has its peculiar advantages. It insures the punishment of somebody for every robbery committed, whereas under the system in vogue in most civilized countries in nine cases out of ten no punishment is inflicted on anybody for the crime. Of course, they may not "elect" the guilty person, but dispose of some other character equally as bad. There is much in the system to commend it to other nations.
