Lady Jane.

An ower true tale I fain would tell Of Scottish border strife, And how an English Earl did win A Scottish maid for wife.

He was the Lord of Widdington, Her kinsmen were his foes, And she was Fraser's lovely lass, A bonny heather rose.

On Cheviot's flank his lordship's troop Had met the Fraser clan, Were scattered in the headlong charge, And routed horse and man.

And lost and lorn, and wounded sore, A hunted stag at bay, But for a maid who succored him, The Earl had died that day.

She hid him in the rustling corn, And gave him food and rest, The while her baffled clansmen sped Upon their bootless quest.

And in the gloaming, o'er the hills She led him safe and sound, Until he reached the border side, And trod on English ground.

Long raged the fierce and bloody feud Which rent the land in twain, And many a lady mourned her lord, And many a lass her swain.

Until one morn from Teviotdale The word came down the glen That all was lost, and Widdington Held Fraser and his men.

Woe fell on matron and on maid, But Janet sped away, High o'er the Scottish hills she hied To where the English lay.

She bade them lead her where their chief Stood with his kinsmen near, And though her heart beat fast the while, Her voice was calm and clear.

"I am a Fraser's lass, my lord; Your grace I crave," she said, Earl Widdington made answer thus, And bared his stately head.

"Your chieftain's life is safe, my lass; His fetters I will break, And let the men of Fraser's clan Go hence for your dear sake.

You proved a steadfast friend to me, When I was sore beset, I loved you then with all my heart, I love you, lassie, yet.

And here in presence of my kin, That all may understand, I sue you for your pledged troth, I sue you for your hand."

"I crave your pardon if," said she, "I seem distraught in mind, The eagles with the eagles mate, The thrushes seek their kind;

You have your hawks, you have your hounds, You have your bill and bow, Such words will work me harm, my lord, I prithee let me go."

His brother Hugh laughed loud, and said, "Now, by my troth, I swear, My haughty kin would doff the rose, And place the thistle there.

And while his kinsmen by his side Laughed loud with bitter scorn, Lord Widdington, with flashing eyes, Leaned on his saddle horn.

"I give thee escort, gentle maid, And home I go with thee, For by St. Ann, I will not brook These gibes and jeers," quoth he.

One blessed morn the wedding bells Pealed from the castle fan, And he was Lord of Widdington, And she was Lady Jane.

The three year olds record also was broken by Onoqua, an Iowa trotter, who went the mile in 2:11 3-4, and Sidemont smashed the three year old stallion record, making a mile in 2:10 1-2, a full second under the record.

FREDERICTON, Oct. 4.—Charles Wallace, barber, who lives at the upper end of Wilmot Park, upon opening the front door of his dwelling this morning found on the step a basket containing a two or three months old babe. The person who left the child there apparently did not

SAN FRANCISCO, Oct. 4.—The steamer Gallic brings particulars of the burning of the flower boat at Canton, Aug. 31. The fire is said to have been caused by the careless burning of Joss paper on one of the boats. The flames spread to neighboring boats, which were roped together very firmly. The fire engines could not tender assistance, as the fire was beyond the power of their pressure. The fire did not burn itself out for five hours. A large number were rescued but hundreds doubtless perished either in the flames or in the river. The number of lives lost is roughly estimated at a thousand. The property loss is over half a million dollars.

CHARLOTTETOWN, Oct. 1.—News has just come to hand of an exciting scene at Souris, Tuesday morning. The French schooner "Pink Quick," Capt. LeBlanc, with over \$1000 worth of liquors and tobacco was seized by the cruiser Kingfisher. The "Pink Quick," is sixteen tons burden, cleared from St. Pierre and registered at Hawkesbury on her way here. The schooner has been dismantled and is now at Souris, and the seized goods are at the Custom House. She tried in vain to put into Sydney as the cruiser was after her, and effected the seizure when near Souris. There were four of a crew, and the schooner had been caught smuggling liquor to Georgetown.

DIGBY, Sept. 29.—Josiah Tabener is a bright and dashing young Englishman, aged 21 years, who came to Granville recently from the old country to settle, amass a fortune and perpetuate his name; and who, like many another ambitious youth, considered the securing of a fitting, helpmeet as a preliminary step. The mature charms and sunny smile of Mrs. Mary Ellis, a widow who had seen 74 summers fade into autumn, caught the eye and captured the heart of the young man, so he wooed and won her, without apparently exciting much rivalry among the other gallants of the neighborhood. Had Mrs. Ellis' eldest son lived he would have doubtless, notwithstanding the weight of his six and fifty years, attended the wedding of his mother, which took place here Thursday, the ceremony being performed by Rev. H. A. Harley.

HALIFAX, N. S. Oct. 5.—Dartmouth was the scene of great excitement this morning. Alex. McEachern, the report said, had murdered his wife and then committed suicide. When their bedroom was visited a horrible sight was presented: the police and others. Both husband and wife were dead. The body of the husband was on the floor and that of his wife on the bed. A letter was found near the remains and bore the signature of the husband and read as follows: "My wife took poison by mistake, and not caring to be separated from her, I have decided to commit suicide."

The physicians state the woman must have died several hours before her husband. The theory is that the husband, who has been out of work murdered his wife while dependent and then ended his own life. He was an electrician and some years ago received in honorable discharge from the Royal Engineers. The couple leave four children ranging from 8 to 16 years of age.

YOKOHAMA, Sept. 21.—All Japan is ablaze with enthusiasm over the victory at Phinong Yang, which was the first really important action on land and which all the conditions of success appear to have been thoroughly achieved. The sole Chinese army in Corea has ceased to exist.

It is estimated, allowing for exaggerations, that it must have numbered 10,000, and probably exceeded that figure. The opposing force actually engaged is estimated by the best authorities at from 12,000 to 15,000. The entire Japanese body in the peninsula was undoubtedly much larger, but strong detachments were required to hold open the ports and to guard communication throughout the country. All the advantage of position were with the Chinese and for six weeks they had been in possession daily strengthening their defences. Yet no preparation for a battle were anywhere visible when the advancing Japanese came in site of the Tai Tong river.

Although reports of the desperate fighting were telegraphed from the field, the losses of the Japanese side are not reckoned at more than a few hundred killed and wounded and full returns will hardly swell the list to a thousand. The Chinese losses are not known. The majority of the latter are understood to be prisoners.

The assault began on the 15th. On the morning of the 16th, the city was taken. Four Chinese generals surrendered with all the troops they could control, as well as the entire store of arms and ammunition and treasure variously estimated at from \$100,000 to \$400,000. September 20, while the excitement caused by the victory was at fever heat, meagre news was received at Tokio of a brilliant naval success in Korean waters near the Yalu river. At a point 25 miles northeast of Hai-Yang-Tao, the Japanese and Chinese fleets met, the latter consisting of eleven men-of-war and six torpedo boats. After an engagement of several hours the Chinese fled leaving four ships sunk and one burned. The latter is said to have been destroyed by its crew. The Japanese fleet is reported entirely uninjured. Authentic reports are not yet at hand, however.

LONDON, Oct. 3.—The Chinese general whose soldiers murdered the Scotch missionary, James Wylie, in Sine Yang has been promoted to the important post of general commanding the Tartar troops in Fuh Kien province.

LONDON, Oct. 3.—A despatch from Shanghai to the Central news received this morning states that great consternation prevails among the Chinese in Kirin, province of Manchuria, in consequence of Japanese troops landing near Manchun. The government has levied a heavy tax on merchants for war purposes.

A Central News despatch from Shanghai says Han Koo province has been depleted of troops. The victory in anticipation of rebellion is causing construction of fortifications at Woo Chang.

BOSTON, Oct. 3.—A special to the Herald from Shanghai says: It is reported the Japanese have captured Kielen Chen on the eastern side of Yalu river, nearly opposite Wiju. One hundred and fifty thousand men have been gathered at Pekin for defence of the city, but of this number only 7,000 are effectively armed. Only 50,000 soldiers are available for the defence of the province of Chale Li, that of Li Hung Chang, and these are raw levies.

A Japanese army has landed to the north of the Yellow or Hoang Ho river in the southern part of the Gulf of Pe Chi Li to intercept the transport of troops from the south via Guanai canal to Tien Tsin. A Japanese fleet of seventeen ships is now blocking the Gulf of Pechi Li.

Prince Kung is favorable to foreigners and the western development of the Chinese empire. French troops are massing in Tonquin.

LONDON, Oct. 4.—The Post publishes a despatch from Shanghai saying it is reported there that Chinese soldiers who escaped from Ping Yang have taken position at Nyan, where they were joined by troops that were landed on the bank of the Yalu river, and by others from the province of Shun King. They are said to be intrinsching themselves, and it is possible a decisive battle will be fought.

The Times, summing up the war situation in the East, refers to Sir Halliday Macartney's admission of doubt as to the precise number of Chinese prisoners taken at Ping Yang as immaterial. That the victory of the Japanese was complete has been abundantly confirmed, and that the Chinese army in the Corea has ceased to exist is shown by the Chinese accounts themselves. The defeat has been absolute and the exact number of fugitives is of little moment.

The Shanghai correspondent of the Central News says great excitement has been caused in the city of Ning Po by the report that five Japanese warships had been seen near the entrance to Ning Po river. A steamer which arrived at the city on Oct. 2 reports having sighted two Japanese warships a short time previous to entering the river.

According to a Yokohama despatch printed in the St. James Gazette the Japanese government has decided to float a

foreign loan, presumably for the purpose of prosecuting the war against China, and a bill authorizing such action will be introduced in the imperial diet without delay.

SAN FRANCISCO, Oct. 5.—The steamship Gaelic arrived yesterday from Asiatic ports, bringing the following advices from special correspondents of the Associated Press:

A Wonderful Conqueror.

No disease is more common among the people than scrofula. Handed down from generation to generation, it is found in nearly every family, in some form. It may make its appearance in dreadful running sores, in swellings in the neck or groin, or in eruptions of varied forms. Attacking the mucous membrane it may be known as catarrh, or developing in the lungs it may be, and often is the prime cause of consumption.

In whatever form scrofula may manifest itself, Hood's Sarsaparilla is its inveterate foe and conqueror. This medicine has such powerful alterative and vitalizing effects upon the blood that every trace of impurity is expelled, and the blood is made rich, pure and healthy.

A SUICIDE IN ST. JOHN.

Electrician Mount Ends His Life With A Pistol.

ST. JOHN, Oct. 5. [Special].—Persons passing along King street east between 8 and 9 o'clock this morning were startled by the report of fire arms. The noise proceeded from the residence of Frederick Electrician. Neighbors rushed to the scene and were shocked to find that Mr. Mount had committed suicide. It is supposed he was temporarily crazed at the time but up to the railway fore he committed the act and right afterwards man gave afterwards to unsoundness of mind. Before the trial the chamber she was startled by a pistol shot. Hastening to the scene she found her husband lying on the ground apparently dying. Mr. Mount came here from Montreal nine years ago and has been in the employ of gas light works ever since. He was an expert in his profession and a highly esteemed citizen. It is supposed that deceased's mind became unbalanced in consequence of injuries he received some time ago by assaulting falling upon his head.

Is a dangerous condition, directly due to depleted or impure blood. It should not be allowed to continue, as in its debility the system is especially liable to serious attacks of illness.
