**A Native of Dorchester.**  
 A San Francisco paper of the 27th ult, thus refers to the death of Mr. Thomas J. Weldon, a native of Dorchester, N. B., and a cousin of Dr. C. W. Weldon, of St. John: Yesterday morning just before the hour of noon was struck, the report that Thomas J. Weldon had died suddenly was noised about the streets. At first the story was believed to be only an idle rumor, and friends of Mr. Weldon laughed at the idea as ridiculous. But when a second report came the matter was investigated, and then it was found that the news was only too true.

Mr. Weldon was rooming at the Columbia lodging-house on Broadway, opposite the Sixth street market, and yesterday morning his dead and stiffened body was found in bed. The face was somewhat discolored, and a thread of foam oozed from the mouth, while the hands were clenched upon the breast. It was very evident that death had come suddenly, and all sorts of stories of suicide and murder were at once set afloat.

An inquest was held by Coroner Cates. There was only five witnesses examined and the inquest lasted but a short time.

Mr. Weldon had many friends in Southern California. In times past he had been engaged in several important business enterprises, and has been connected in an official capacity with the Farmers' and Merchants' and the California banks. He was a member of the present board of police commissioners.

Mrs. Weldon and the son and daughter of deceased are now in San Francisco, where they received the sad news of Mr. Weldon's death by telegram.

The jury after being in consultation for about 10 minutes, rendered a verdict that the deceased came to his death by "an overdose of morphine, taken accidentally for pain."

The funeral services will be held this afternoon at 2.30 o'clock, under the auspices of the Masonic fraternity, in the Temple, at the corner of First and Spring streets, to which the general public will be admitted. Judge B. N. Smith will deliver an address on the life and character of the deceased, but there will be no religious services. The remains will be cremated to-morrow morning. Mrs. Weldon and daughter arrived from the north yesterday.

**Formal Opening.**

**The Normal School Exercises This Afternoon in the Hall.**

The formal opening exercises of the Normal school were held this afternoon. Among those present were Hon. Lieut. Gov. Fraser, Dr. Harrison, Rev. F. C. Hartley and Rev. Fr. McDevitt.

Addressees were delivered by His Honor Lieut. Gov. Fraser and Dr. Harrison. Dr. Harrison in the course of his remarks said that the presence of evil was a scientific fact and that a person who did not serve God from choice must serve Satan as a slave. This was also a scientific fact.

His Honor's address was also full of good advice to the students. Rev. Mr. Hartley welcomed the students on behalf of the churches.

Principal Mullin in his address gave the following figures:—

**RIDING TO SAVE A LIFE.**—A Georgia newspaper gave an account of the heroism of John Potter, a ten year old boy who rode a horse twelve miles to Macon for the purpose of calling a physician to attend his mother, who was believed to be dying with colic. The doctor could not be found, but a kind druggist gave the lad a bottle of medicine and ordered him to hurry home. The brave lad rode home, delivered the medicine, and then fainted from nervous exhaustion. The medicine cured the sick woman, and the boy as well. It is only necessary to say that the precious medicine was PERRY DAVIS' PAIN-KILLER, which never fails to cure disorders of the stomach. 25c. old popular price, for New Big Bottle.

**Some Great Trotting.**  
 THREE HAUTE, Ind., Sept. 12.—A big crowd cheered lustily today when one world's record was broken, and finally yelled itself hoarse when Alix tied the world's trotting record made by Nancy Hanks over this track two years ago. The first record was smashed by Carbonate, the two year old pacer, bred by Dubois Brothers of Colorado. The gray colt went away with a run, going the half in 1.05. He finished the mile well within himself at a 2.5 1/2 clip.

The wonderful performance of Alix surprised everybody. It was believed the conditions were unfavorable for record breaking efforts. The mare got away well with the runner Ferdinand setting the pace. Around the turn she shied at the scrapers, which had inadvertently been left on the track, and McDowell says the mare lost fully a second. The was at the quarter in 33 seconds, and the second quarter was done in 32 1/2 seconds. In the last third quarter her speed was terrific, the little mare coming like a whirlwind, and tying Nancy Hanks' record for the same quarter. She did the fourth quarter in 31 seconds, without a sign of distress. Mr. Salisbury is confident he can capture the world's record over this track, and will start Alix again on Friday.

**Donahoe's for September.**  
 Every number of Donahoe's Magazine gives justification anew to the claim that Donahoe's is a magazine for the whole country, and not for any section of it. Though published in New England, and always true to its Catholic character, it is in economic, political, and religious matters so broad and fair as to interest every reasonable American. A notable article on economics this month is entitled "The South may save the Nation," by a Northern Journalist. "The Warfare with Agnosticism," a plea for more thorough scientific training in ecclesiastical seminaries, is a brilliant and stirring article by Rev. J. A. Zahm, of Notre Dame University. Lucile Lovell has a beautiful short story, "Between Ports," and there are good pictures and plenty of light reading as well in this number.

**REV. T. W. LEGGOTT, BROOKLIN, ONT.,** writes: After giving the K. D. C. a fair trial, I am satisfied it is the best remedy for Dyspepsia ever brought within my reach. I have found it all that it is claimed in its behalf, and have much pleasure in recommending it as a most excellent remedy.

**Not Being Married He Forgave Her.**  
 This is the message the telegraph messenger handed to him:  
 "Come down as soon as you can, I am dying."  
 "KATE."  
 Eight hours later he arrived at the summer hotel, to be met on the piazza by Kate herself.

"Why—what did you mean by sending me such a message?" he asked.  
 "O!" she gasped, "I wanted to say that I was dying to see you, but my 10 words ran out, and I had to stop."—Indianapolis Journal.

**Lines by Pope Leo XIII. on His Own Death.**

The setting sun, at this thy close of day,  
 On thee, O Leo, sheds its parting ray,  
 Within thy withered veins, thy wasted frame,  
 Slow slow burns downward life's expiring flame.  
 Death's arrow flies, the funeral veil unfolds,  
 The cold remains, the grave her conquest holds,  
 But swift the painting soul, her fetters riven,  
 Spreads her free wings and seeks her native heaven.  
 The long and toilsome road has reached its end—  
 Thy Holy Will, my Saviour, I attend;  
 And, if so great a grace thou canst accord,  
 Receive my spirit in Thy kingdom, Lord!  
 —From The Churchman. Translation by H. H. Hamilton King.

**Marriage in Siam.**

A declaration of marriage in Siam is simpler even than it used to be in Scotland. You ask a lady to marry you by merely offering her a flower or taking a light from a cigarette, if it happens to be in her mouth; and your family and the bride's family have to put up at least \$1,000 a piece for dowry. Unlike Japan the Siamese women are treated as equals, but they can seldom read or write. The principal impediment in the way of marriage is that each year is named after an animal, and only certain animals are allowed to intermarry. For instance, a person born in the year of the rat cannot marry with a person born in the year of the dog, or a person born in the year of a cow with a person born in the year of the tiger; and there are similar embargoes about months and days.

Avoid the mood Byronic,  
 Dismiss dyspeptic fears;  
 Take Hawker's Pills and tonic,  
 And live a hundred years.

The sad-eyed, soulful poet wrote  
 An ode to rippling rills;  
 His readers found an antidote  
 In Hawker's Liver Pills.

**Schooner Maud Pye Catches Fire.**

MALDEN, Mass., Sept. 14.—Schooner Maud Pye, from Moncton, N. B., loaded 145 cords of hemlock bark consigned to Webster & Co., tanners, Edgeworth, caught fire Thursday afternoon in Malden river, near the Malden and Everett wharf. The schooner was heavily loaded with bark, which was piled up about her masts and railing to a considerable height. The fire caught from the cook stove and quickly spread to the deckload. The mainmast was burned off, and the cabin and stern of the vessel was badly damaged. The Malden and Everett fire department was called out and both worked several hours. Nearly 100 cords of bark was damaged by fire and water. A number of cords of bark was thrown overboard to enable the fireman to get water on the burning cargo. The damage to the schooner will probably amount to \$500 and to the cargo as much more. The schooner was in such a position that it was difficult for the firemen to get a line of hose on the vessel. About 3,000 feet of hose were laid when the Everett fireman had a line carried from the steamer across the marshes to the river, in which the burning schooner was. They hesitated, and were pondering how to get on to the schooner, which was ablaze when ex-Chief Justice Swan, aged 77, appeared, seized the nozzle of the hose, waded into water up to his neck, to the mast of the vessel, which was burned off, climbed up the slippery mast with the hose and got a stream of water in the thickest of the fire. He was loudly cheered by the spectators on shore. Several other members of the fire department gained the vessel in the same manner and assisted Mr. Swan.

**The Queen is Small but Graceful.**

The smallest sovereign of the old world that is for her age, is Queen Victoria, who is under five feet in height, and almost as broad as she is long. Nor does she make any attempt to remedy this condition by any artificial means, for the boots which she wears are almost entirely devoid of heels, and are roomy in the extreme, while many a year must have passed since she has had occasion to require the service of her corsetiers.

Even when standing by the side of the very shortest man, she appears small and stunted, and under the circumstances it is wonderful how she should be able to move about with so much grace and majesty.
