

## AN EMINENT MINISTER

### REV. W. S. BARKER

#### OF PETERBORO.

Mr. W. S. Barker is a young minister of Peterboro who has by his great earnestness and able exposition of the doctrines of the Bible earned for himself a place amongst the foremost ministers of Canada. He, with his most estimable wife, believe in looking after the temporal as well as the spiritual welfare of mankind, hence the following statement for publication:

"I have much pleasure in recommending the Great South American Nervine Tonic to all who are afflicted as I have been with nervous prostration and indigestion. I found very great relief from the very first bottle, which was strongly recommended to me by my druggist. I also induced my wife to use it, who, I must say, was completely run down and was suffering very much from general debility. She found great relief from South American Nervine and also cheerfully recommends it to her fellow-sufferers."

"REV. W. S. BARKER."

It is now a scientific fact that certain nerve centres located near the base of the brain have entire control over the stomach, liver, heart, lungs and indeed all internal organs; that is, they furnish these organs with the necessary nerve force to enable them to perform their respective work. When the nerve centres are weakened or deranged the nerve

force is diminished, and as a result the stomach will not digest the food, the liver becomes torpid, the kidneys will not act properly, the heart and lungs suffer, and in fact the whole system becomes weakened and sinks on account of the lack of nerve force.

South American Nervine is based on the foregoing scientific discovery and is so prepared that it acts directly on the nerve centres. It immediately increases the nervous energy of the whole system, thereby enabling the different organs of the body to perform their work perfectly, when disease at once disappears. It greatly benefits in one day.

Mr. Solomon Bond, a member of the Society of Friends, of Darlington, Ind., writes: "I have used six bottles of South American Nervine and I consider that every bottle did for me one hundred dollars worth of good, because I have not had a good night's sleep for twenty years on account of irritation, pain, horrible dreams, and general nervous prostration, which has been caused by chronic indigestion and dyspepsia of the stomach, and by a broken down condition of my nervous system. But now I can lie down and sleep all night as sweetly as a baby, and I feel like a sound man. I do not think there has ever been a medicine introduced into this country, which will at all compare with this as a cure for the stomach and nerves."

You may eat cheap food and not be seriously hurt by it; but you cannot take cheap medicines without positive injury. If you use any substitute for Ayer's Sarsaparilla, you do so at the peril of your health, perhaps of your life. Insist on having Ayer's, and no other.

"Did he fall on his knees when he proposed to you?" "No. That happened when he reached the sidewalk. I think papa had something to do with it."

It is figured that every man, woman and child in the United States eats an average of four and a half bushels of wheat in a year in the form of bread or breakfast cereals.

The amount of life insurance in force in Canada at the end of 1893 was \$295,622,722, an increase of more than sixteen and a half millions over the year previous. Of this total \$167,000,000 is held by Canadian companies, \$94,000,000 by American and \$33,000,000 by British.

The two had sat in moody, sullen silence for some minutes. Then she spoke.

"Before we were married, Algernon," she said, "you used to declare you could give up heaven itself for me."

"Yes," answered Algernon, bitterly, "but I little thought you would ever ask me to give up smoking."

All London has been much interested this week in a tragedy at the Zoo. A boa constrictor, nine feet long, inadvertently swallowed its mate, eight feet long. A pigeon had been given to each snake. The

larger boa swallowed his first, and, then seized the bird which was in the jaws of its mate. As the teeth of both reptiles were securely fixed in the pigeon there was nothing for it but that one should swallow the other, and the smaller one suffered. The appearance of the survivor is sufficient proof of his guilt. He is swollen to nearly three times his normal girth. The attendant has detected in his eye a sinister, conscience stricken expression.

Sea-water has been converted into a beverage! A little citric acid or citrate of silver is added to the briny liquid, chloride of silver is precipitated, and a harmless mineral water is produced. An ounce of citrate renders a half-pint of water drinkable. Seven would furnish a ship-wrecked man with water for a week. The question is how to secure citrate to ship-wrecked men. It is recommended that those who go to sea carry with them a bottle of citrate protected by an india-rubber covering, or that such bottles should be furnished in life-preservers. If, with presence of mind, the ship-wrecked folk remember to take these with them, all the agonies of thirst portrayed in nautical stories may remain unrealized fiction.

A school teacher near Dawson, Ga., having instructed a pupil to purchase a grammar, the next day received a note thus worded from the child's mother: "I do not desire for Lulu shall engage in grammar as I prefer her engage in Yusuf studies and can learn her how to speke and rite properly myself. I have went through two grammars and can't say as they did me no good I prefer her engage in german and drawing and vokal music on the piano."

A panther measuring seventy feet in length was shot by the 14 year-old daughter of Mr. George Brown, at Beecher bay on Saturday, says the Victoria Colonist. The young lady was out walking with a younger sister, when a dog that was with them, treed a big panther. Instead of getting frightened and running away Miss Brown left her little sister and the dog to watch the animal and ran back to the house for a gun. Soon she returned with a Winchester rifle, and coolly taking aim, killed the panther at the first shot, the bullet breaking the beast's neck.

### Got the Fire.

Sir Francis Johnson, chief justice of the superior court of the province of Quebec, on one of his circuits in the eastern townships during the winter, put up at a country hotel. The night was very cold and the hotel proprietor was not extravagant in his fuel supply or in the weight of his blankets. The judge put over the bed covers his heavy coat and other clothes. Still the wind and arctic frost became colder and colder, and sleep he found impossible. It was after midnight and no one around to make a fire. The judge arose, and, putting on his slippers and dressing gown, went into the passage and shouted with all his power, "Fire, fire, fire!" In a few seconds the whole of the hotel was aroused and each frightened one inquiring where it was. Then came the proprietor. Panting and scared, he ran for the judge and screamed out, "Where is the fire? Where is it?" The judge, with a merry twinkle in his eye replied, "That's what I am trying to find." A good fire was at once made in the hall, and the rest of the night was passed in comfort.

### How Sampson Would Fight Corbett.

Some one in the crowd asked Strong Man Sampson if he ever had a set to with a boxer.

"I never have," said the athlete, "but I thought one time of challenging Corbett, and for three months I hatched a theory of attack and defence. My family objected to my engaging in any such contest, and I abandoned the idea. My idea of conquering the champion pugilist was to reverse the tactics of all fighters, which is to keep out of reach of their opponent's arm, and to keep so close to him in the battle as to render it impossible for him to strike with its full power at arm's length. At the same time my scheme was to play on his arm and wrist and to disable him with a few well directed blows at these points. I thought of putting myself in training for three months or more under the direction of a competent trainer. I'll guarantee that if an experienced fighter will adopt my tactics he can beat Corbett. I don't claim to be a pugilist, and a good boxer could undoubtedly knock me down, despite my strength."
