"For fully two years, I suffered from rheumatism, and was frequently in such a condition that I could hardly walk. I spent some time in Hot Springs, Ark., and the treatment helped me for the time being; but soon the complaint returned and I was as badly afflicted as ever. Ayer's Sarsaparilla being recommended, I resolved to try it, and, after using six bottles, I was completely cured."—P. H. FORD, Quachita City, La.

GENERAL NEWS.

Drake, the man arrested in St. John, charged with robbing a vessel in Halifax, was found guilty and sentenced to three years in the penitentiary.

At Atlanta, Ga., three negro children were burned to death near Chipley on Wednesday. They had been locked in the house by their parents and the house caught fire.

While Jeff Rayner and his wife who live near Oak and Tenn., were picking cotton, their home caught fire from burning grass and was burned. Their three small children perished in the flames.

H. C. Worden, who was convicted of wrecking a Southern Pacific train near Sacramento, in which the engineer and four United States soldiers were killed, has been sentenced to hang, in February.

James Smith, of Baie St. Paul, a suburb of Winnipeg, committed suicide at Leland hotel, by sending a bullet into his brain. He registered at the hotel, Saturday, and beyond the fact that he had been drinking, no reason can be given for his suicide.

Susan Bruce, colored, was arraigned in court at Philadelphia, on a charge of cruelty to her five-year-old foster child, Bessie. The little one had been placed on a red-hot stove, and after having been terribly burned its tongue was slit. The woman was held in \$800 bail.

The Levis blacksmith, Allard, who lately claimed to have discovered the secret of hardening copper, has now made a cannon of aluminium which answers perfectly all the requirements he claims and weighs little or nothing. He is making one three feet long to weigh only 6½ lbs. to be tested by the A. C. A.

The well known publisher of geological works, Mr. Stanford, of London, has commissioned statistician George Johnston to write a work on Canada which is to be published by Mr. Stanford in a series known as the compendium of geography and travel. Hitherto Canada has occupied a small space in the volume on North America in this series.

The Tageblatt says just before his death Alexander III. urged the present Czar not to keep the theatres too long in mourning. "I do not wish," he said, "to have so many become unhappy and lose their bread by my death." Nicholas II. has since given 600,000 roubles to actors and others made idle by the closing of places of amusement.

At Westminster, B. C. assizes last Saturday Louis Victor, a Cheam Indian, was found guilty of the murder of Peter, an Indian policeman, three months ago. He was then sentenced to be hanged at Westminster jail on January 17th next. Victor and family got on a drunken spree at Hop Fields, at Agassiz and Peter, hearing of it, went to arrest them. He put Victor and family in one canoe, and followed in another. All except Peter arrived at Cheam, but he was missing. Search was instituted and the body found a few days after on a bar in Fraser river. There were wounds on the head showing that he had been murdered by some blunt instrument.

Causes for Lameness.

How often our horses go lame after being shod by the best blacksmith who thinks he is a scientific horse shoe, but knows nothing of the veterinary laws of conformation! He makes all conform to his iron rule or shoe with his knife and rasp. On this subject the Baltimore American says:

It is found that most maladies resulting from horse shoeing are due to an uneven and unbalanced wall (all that part of the hoof that is visible below the hair when the hoof is placed upon the ground) in connection with an undue height of the heel. If the heels are allowed to grow too high, the greater part of the weight is thrown forward upon the bone structure of the limb and the bones of the foot are forced forward against the wall in front.

Inflammation of the foot and soreness in the joints and bones soon follow such a course. If the toes, on the contrary, are allowed to grow too long, then the preponderance of weight is thrown upon the flexor tendons, which are on the back side of the foot, and these tendons become inflamed. The hoofs, therefore, must be pared in such a way that the weight of the animal is equally distributed between the bones and flexor tendons. If one heel is permitted to grow higher than the other, bruises on the high heel, called corns, will result. Horses with weak, tender, or bruised soles may for a time require leather or water-proof pads, but as the soles grow these should be discontinued. They are never required in healthy feet where the sole, which is the best and most natural protection, is allowed to grow undisturbed by the knife. Horses with corns should have their shoes made with a wide inside web, which rests upon the bars, or have for a time a bar shoe. The last nail on the inside should also be dispensed with, and the seat of the corn or bruise carefully pared out without injuring either the frog or the bars.

Throw Off Thy Burden of
Disease and Suffering.

PAINE'S CELYRY COMPOUND DOES THE
GOOD WORK.

CURED PEOPLE SEND IN STRONG
TESTIMONY EVERY DAY.

Go bury thy heavy burden of sorrow, disease and suffering at once. It may be that thou hast been in agony for years. No doubt disappointments have attended thy past efforts and endeavors, and now thou art sad, despondent and hopeless. Suffering one, thou hast been misled and deceived up to the present by medicines that had no curative virtues. Whilst thou hast been groping in darkness for a cure, thousands have been made well by the mighty curing powers of Paine's Celery Compound.

This marvellous medicine is made to meet the wants and necessities of rich and poor, of old and young who suffer from any derangement of the system.

Hast thou read any of the wonderful cures wrought by this health-giver? If not, send at once for a book wherein are records of attested wonders—men and women saved even at the point of death. Amongst these records will be found the names of some of Canada's best people; you will know many of them.

Strong testimony is pouring in every day in favor of Paine's Celery Compound. A letter has just come from Mrs. E. Rankin, of Courtright, Lambton Co., Ont., from which we give the following extracts:

"With great pleasure I beg to inform you of the good I have received from the use of Paine's Celery Compound. For a number of years I have been in very poor health owing to various causes, and lately I was advised to try your medicine. I used three bottles, and have received a world of good. My severe headaches are completely banished, and heart disease, from which I suffered for thirty years, has almost disappeared, and altogether I am vastly improved. I am fully convinced that Paine's Celery Compound is all it is recommended to be."

Coal Branch and Vicinity.

Nov. 17.—There does not seem to be very much stir in this place lately. Bad roads and cold weather reminds us that winter is approaching.

The correspondent to the Plain Dealer is taking a rest. We think he had better save his wind to cool his porridge.

How to get on in the World.

Most of our successful men began life without a dollar. They have won success by hard work and strict honesty. You can do the same. Here are a dozen rules for getting on in the world.

1. Be honest. Dishonesty seldom makes one rich, and when it does, riches is a curse. There is no such thing as dishonest success.

2. Work. The world is not going to pay you for nothing. Ninety per cent. of what men call genius is only talent for hard work.

3. Enter into that business or trade which you like best, and for which nature seems to have fitted you, provided it is honorable.

4. Be independent. Do not lean on others to do your thinking or to conquer your difficulties.

5. Be conscientious in the discharge of every duty. Do your work thoroughly. No boy can rise who slights his work.

6. Don't try to begin at the top. Begin at the bottom and you will have a chance to rise, and will be surer of reaching the top sometime.

7. Trust to nothing but God and hard work. Inscribe on your banner, "luck is a fool; pluck is a hero."

8. Be punctual. Keep your appointments. Be there a minute before time if you have to lose dinner to do it.

9. Be polite. Every smile, every gentle bow is money in your pocket.

10. Be generous. Meanness makes enemies and breeds distrust.

11. Spend less than you earn. Do not run into debt. Watch the little leaks and you can live on your salary.

12. Make all the money you can honestly, do all the good one can with it while you live and be your own executor.

Catarrhal Deafness.

Deafness or dull hearing follows catarrh, colds, etc. Hagyard's Yellow Oil cures even the worst cases in a few applications.

"What is that sailor-looking young man's business?" "Well I should think he was the owner of several smacks, judging from the noise I heard when he was in the parlor with Miss Gusher last night."

Smith's Queer Ailment.

TACOMA, Nov. 17.—As curious a case as has every come up in the Municipal Court of this city, probably, was that of Capt. J. B. Smith, who appeared before Judge Reid to day to answer the charge of using vulgar language on the streets, the warrant being sworn out for his arrest by Dr. J. C. Orchard. The charge was not denied by Capt. Smith, who, through his attorney, entered the plea of being unable to hinder himself from using such language, that the muscles of his throat were affected with St. Vitus's dance, producing at times involuntary ejaculations for which he is not responsible, but which were directly traceable to the effects of the peculiar malady by which he is afflicted.

Smith may be talking rationally enough with a person, when he will at once make use of the foulest expression and has been known to threaten the lives of his listeners, and in the next breath he will give the assurance that he did not mean anything he said.

Judge Reid ordered him to keep off the street, and his friends agreed to keep him in a private boarding house, and he stated that he would write to California for money and would leave the city by Monday next.

Smith has been Sheriff of San Francisco county, Cal, and has held other responsible offices in that county. He was committed to the insane asylum at Salem, Or., last September, on account of his strange malady, but escaped from the institution and came to Tacoma. The doctors of the asylum discovered that he was not insane, and entered his from discharge from the institution on the books two days after his escape. He was brought before Judge Stalcup two weeks ago and examined as to his sanity, and discharged. He is quite wealthy.

PHYSICIANS FAILED

DEAR SIR:—After having used Burdock Blood Bitters for Scrofula in the blood, I feel it my duty to make known the results. I was treated by a skilled physician but he failed to cure me. I tried such as Doan's Kidney Pills, but all to no good. I doctored one year with the best physicians in the land, they pronounced it incurable. I could not remove it. It came on in red blotches and spread over my body; the skin became dry and formed hard dry scales. The itching was intolerable, but I was now completely cured, and I owe it all to B. B. B.
